## INTRODUCTION

I had found myself into an obsession that wouldn't leave me if I didn't get to dig deeper than the statistics of deaths and visits to concentration camps, I needed astrology in order to compensate my ignorance towards WWII and the Berlin Wall to its fall, I wanted a bottom line approach in order to decipher from the gut and try to understand what the hell *just* happened? Trying to make sense is a confrontation to your *moral*, as we ask ourselves if there is anything that actually does. One of the events in the 20<sup>th</sup> century's history most studied and discussed in universities, between historians, philosophers, politicians and of course, astrologers etc.

From beneath, the secret society that initiated the Nazis into politics, the atrocities that followed, the crimes that went underground, the persecution of Jews and others nationalities, including gypsies and homosexuals, even astrologers etc. – it culminated as *the Holocaust*; the Nazi's own police command/force, bosses of courts and of direct judgments/sentences, rulers of extreme and radical order and ruthless control while legal and accepted crime & violence. The myth of *Satanic part of Saturn* wanting to dominate the world feels like it is clothed by flesh & bones when looking throughout history of powerful dictators and supreme leaders. It is an ancient desire of man, be it a benevolent, benefic or malefic individual or society to a nation; the desire is not lurking but alert – *"I want to dominate the world!"*

With Pluto's discovery at the verge of Wall Street Crash accompanied the Nazi ascension, rebellious Uranus was in 6 years of an ongoing square to the planet since its discovery in the initial 30's – Benevolent Jupiter was to conjunct Eris in initial years of the war along with the Aries Ingress with the Sun and Moon with Eris, the planet of discord. The bloodiest catastrophe provoked by men humanity has ever seen thus far. Pluto is the rapist (abuse) and the kidnapper (hijacker) of the houses it transits. Hitler with his soon ideological war provoked rape of humanity; world's decency was taken off and souls were abducted for a time where bloodshed was sacred and legitimated under his commands [orders].

Pluto was soon associated with Scorpio, then the sign gain a modern ruler, and Aries remained being traditionally ruled by Mars; Mars then becomes traditional ruler of Scorpio and the 8<sup>th</sup> house. Modern astrologers sometimes don't quite understand the darker Saturn operation simple because of Pluto's influence, thus symbolizing Pluto as the only planet of death of the flesh, and the 8<sup>th</sup> house the kind/quality of it – thus the need to make Saturn as friendly as possible. *Primary directions* confirm Saturn is the reaper and watcher of death, Pluto is the destroyer and the one that leads to the cliff; it rules the nuclear weapon of mass destruction.

Although this isn't a book of history, one must be into the subject the best as possible, and the further I went into it, the more I wanted to know, it wasn't late I realized I

have had boarded on a trip with one ticket only for a long period of time to the WWII and the following of the Berlin Wall events. It was consuming months and months of daily investigations and I did with love and passion. Many Primary directions were necessary in order to analyze the major lengths [Arcs] and dates [with keys] with precision [or almost] matching real events corresponded with the configuration from the Radix (as well as from Solar Returns) and proven to be finely in tune.

***The astrology of Warfare*** is quite a challenge, the astrologer wonder how to use techniques in such a delicate matter without attaching feelings or clearing out objectivity – for none students and professionals, the analyzes may seem too cold or even disturbing; even though that is not kilometers close to the case. From all the investigation, I couldn't avoid thinking the *WWII to the fall of the Berlin* was to be relatively to a karmic event to millions of people altogether [?]. The Lunar nodes are an excellent way to inform us that, as well as when Pluto is connecting to them as astrologer *Jeff Green* would point out. And I can say almost with certainty the fact most people agreed to be here on time of the events, wanting [not forced?] to participate [or to take part of a historical event even when blindly], wondering how one will react/experience under such conditions, needing to have that *experience* and time for the development of their life or soul's courses – as if an urge was within them all to play WWII as real characters in human avatars, yet not exclusively. Although that may seem very offensive, I must look at the event mostly detached as possible. This work wasn't achieved overnight; it required me hours of analyzing closely only a single Arc of an event, and a few days to find a precise direction that could inform the astrologer the right spot, in the midst of studying deeper history in books, days on websites, data on books, discerning speculation from truth from the source (old manuscripts), and many other kinds of exploration in the field of *the astrology of warfare*. The whole investigation is practical and anyone can follow it by doing the same steps; the texts are summarized and better understood when having at least the basics of astrology; for example, you must know that *Mars rules Aries and is considered the mythological god of war and Libra that of love and harmony*.

Here are written secrets hidden from the general while sharing the WWII analyzes in such details by mastering the occult, using the *tropical system* as any *western astrologer* that utilize such vintage erudite technology would do nowadays.

THE ASTROLOGY OF  
**THE WORLD WAR II**

PART I

**INITIAL RELATORY #1**  
**TECHNIQUES, REFERENCES**  
**& PRIMARY DIRECTIONS FACTUMS**

## INITIAL RELATORY #1

Every major event in the world must have a correspondence with what was above with the spheres & stars and vice versa – a never ending mutual cycle. *As above; so below* – macrocosm; microcosm. It is written astrologically. It requires a detailed investigation with many techniques applied simultaneously at the same time.

The planetary cycles of *Jupiter, Saturn, Uranus, Neptune, or Pluto* [social and transpersonal planets] had proven to be of major fact over the social sphere, be it from an individual or a nation's position – the mundane operation of 2 planets combined (or more) in sets of cycles of conjunction and opposition are even more powerful when followed by cardinal signs. The transits of the planets combined are the high operators and direction finders of *society's destiny*, indicating where society is going while responding from the operation of the planets involved. In Aries they initiate, in Cancer they give birth, in Libra the sides are chosen and in Capricorn it culminates, it needs releasing and a new order. The ingresses of the Sun in the cardinal cross of any of those signs are mostly significant in mundane charts rather than genethliacal charts of the common people, except for presidents, vice-presidents of nations and multi-national companies/organizations etc.

The fastest trigger in our reality is the Moon. The Moon is the greatest tool for forecasting daily events with great precision, once she is the fastest body and thus changes signs each 2 days and a few hours and move about 12° to 13° degrees in its daily transit through the Zodiac, thus we can accompany her daily transit touching the genethliacal and mundane charts in the world from/per seconds to minutes; applying it we discover with nicety the fields of the Zodiac being play out by it with most certainty in our lives. By this explanation, we can understand the power of the skies when an eclipse happens – although I didn't analyzed any eclipses in this work in depth yet, eclipses at best are essentially triggers of fast change and *forced upgrade* in those of the Sun, especially in fire signs and then the any of the cardinal ones.

The *revolutions that of the Sun* had proven to be the *magnifying technique* to put time and order in the span of a 365.24 days [a *Solar Year* of course] what can be summarized in such "short time" – and along with Primary directions, the professional is able to find particular timing and many exact dates/periods of major events in that specific year from the Sun's return to its own degrees and sign along with *Profections* and *Firdaria* applied simultaneously with *Secondary progression* charts when needed. After the *Primary directions* have been found & the *distributed/governor Asc, Profections* and *Firdaria* [or even the *astrological ages of the man*] are the second most powerful followed by the transits of any *Solar Return*. The thing is that we can also apply Directions to a SR chart and symbolically transform Arcs into units of time within the period of a year [365d].

The information here is *gold* and if wisely used, once the methodology here applied/practiced offers strategic dates for hidden or attacking in practical reality; preparing for enemies attack knowing beforehand *Arcs/dates*; know in advance when it will be an eminent mistake from the enemy and the country itself (when to advance and when to stop); known when betrayal is possibly/may be coming; know through real examples the expiration of a body/nation or length of an important event and know beforehand the potential winners and losers. Remember that war comes in many forms, such as financial, relational, political, biological, psychological etc. Remembering it can also be applied to genethliacal charts, charts of common individuals like you and me.

### Mainly References

I tried to be relevant as possible when summarizing the whole picture but there were many things which I may have passed by, some important and essential details that sometimes can change the overall picture, such as a slight genethliacal and minor historical detail or total eclipses dispatches; but I had to keep in mind the investigation was mainly based on the *Primary Directions* technique; but I made available in this work many valuable data and material as possible for anyone's future investigation.

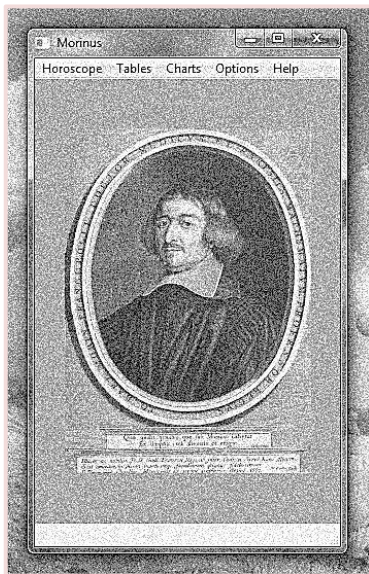

In this case the book which came to me as a *golden source* was that of *Márcia Sarcinelli* and her book *Hitler, um Estudo Astrológico (Hitler, an Astrological Stud; 2000)* where she analyzes the mainly aspects of the genethliacal chart of Hitler, distributing the planets in quadrants, and while counting the elements and their rhythms, she interprets the planets in signs and houses. With extreme precision she detects the major transits correspondent to events in Hitler's life and the ecstasy he brought to many while opening the Gates of Hades to humanity. The part of the book which evoked me good was when Hitler decided to declare war to USA, Márcia writes (p. 225) "*It was a suicide mission; before the failing of the war against Russia, Hitler began to wish being defeated; the hardest the fall, the better*" (*Rafael's translation*) – it was a resume of detriment Saturn in Leo in the 10<sup>th</sup> house of highest position in the world.

In matters of Primary Directions [*written in 2018; as for nowadays in 2021 I have others sources as well such as from Abû-Ma'shar*], I utilized mainly the material of Martin Gansten (2009), perhaps the most adequate book for learning/beginners students and professionals of astrology of nowadays towards the technique and practice of *Primary Directions*. Although the book lacks dates of chart examples (you cannot do it by yourself with the lack needed information), the interpretations of the technique along with a brief history and studying cases without the extensive calculations presented in all old books of primary directions, proves to be the book for the new generation of astrologers who wants to upgrade their skills without the need of mathematics courses neither astronomy, but with the clear picture what they represent astrologically. Nevertheless, Martin gives the reader the mainly formulas for

the directions at the end of the book for the curious astrologers that want to go deeper and actually try the calculations by oneself.

### Primary Directions – Facts to the Ground

We have to bear in mind that in a year there are many possible directions (genethliacal charts, mundane, in solar revolutions to monthly revolutions), many are totally dischargeable because of the versatility the technique provides, the astrologer must then discern what is, where and when, the nature of the event mixed of others major technique in order to prove the investigation to have had results and sufficient datas that prove scientific astrology at its root with the assistance of artistic talent.

The formulas found with the ancients and medieval astrologers are better and easier for the professionals with mathematic courses and even astronomy for the matter, but for the astrologer without such knowledge, computers are now the way to go, but knowledge of how it should be interpreted in the astrological field, shall be applied together, giving preference to the last. I myself have bachelor degree in Business with emphasis on Marketing which have courses in statistics and financial math, and yet I didn't utilize any of the formulas in the sense I wrote each them down in the paper and spent hours on it; what I only did, was the great help from free software *Morinus*, which calculates

the right Arcs with keys, Profections, Solar Returns, etc. having in mind the technique and its norms that maintain the fidelity to correspondences. Many are the conclusions I ended up with (*see Final Report #1 and #2 for all the results of the investigation from Part I and II*).

### Rectifications

It is not many astrologers that approve rectification, the word scares and many are left in the void. But I understand it as a work every astrologer should investigate during their work of course. They are mostly based on Primary Directions, the 10<sup>th</sup> house and major events to the 1<sup>st</sup> house of the most personal as possible relative to events happening on body and events most prominent in life. Sometimes we cannot trust a hundred percent to the sources on the internet – a minute more or minus is a lot.

What I usually do is search on trustful website *astrodata.com* at first, if the chart is AA then the rectification is no needed, but other letters I may think about rectifying for the sake of being real and trustful to the information. Nothing can be predicted from blind spot. Primary directions are the mostly used tool for the matter when they can indicate precise dates coming from the *Primum mobile*.

## Length of Life or Event

The techniques in this part of astrology can be quite frightening, because the astrologer can actually determine the expiration of a person's body (or nation) through primary directions and others techniques altogether (differentia charts, years of the planets, by Alcocoden term, etc.); and that is by finding out what is in the chart the Hyleg and thus the Anaereta planet, the killer of the radix – the same can happen with an event already scheduled to expire in a certain minute of a day, month and specific year, but it will depend of many factors such as house system, method of direction, the key [it is not always that 1° degree equals 1 year, see more ahead], etc. that the astrologer make use in order to predict most correctly as possible.

## Lengths in Directions – Direct and Converse

For the purpose of simplification, I utilized the *Direct* and *Converse* meanings of Morinus. These terms are usually employed when we need to determine the length of the event, of life and the end of a period or the totality compromised from major charts (from the radix and Solar Returns simultaneously). Both models are from the east to west, however, in the *converse type* it is casted an “imaginary reversal” [for the sake of simplicity], as if from the significator' perspective the *direction is against (backwards)* the Zodiacal circumvolution (west to east).

## Interpretation of Promissor and Significator

Martin Gansten suggests the employment of the term Significator as the passive element of the direction and prefers the classical astrologers' interpretation of the *Converse direction* from the perspective of the Significator to the Promissor planet. The *Direct direction* instead, is the Promissor carrier of the cause brought to the fixed planet or point, that is, to the Significator holding the potential event in the wheel.

Promissor/Promises	Significator/Signifies
Active element – <i>The Cause</i>	Passive Element – <i>The Event</i>
Moving Point, Planet or Aspect	Fixed Point, Planet or Aspect
Trigger/Pull	Target/Aim
Nature of the event	Altered Nature Provoked

For simplification, I utilized the terms *promissor* and *significator* always respectively while also describing the direction if *direct* or *converse*, if it has *latitude*, *rising*, *culminating* (cusp of 10<sup>th</sup> house), *anti-culminating* (cusp of 4<sup>th</sup> house) or *setting down* at the westernmost (cusp of 7<sup>th</sup> house), etc.

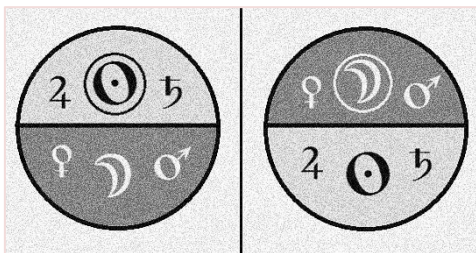

This part of the investigation is quite intriguing for the astrologer; it is when the identification of patterns becomes even more evident, furthering the professional to obtain dates that otherwise could have not been interpreted from the transits alone.

## Keys

Our ancestors pointed to the fact the keys utilized in Primary Directions are actually more useful for Arcs resulted after charts of a long time duration after genesis [*well, they can indeed be on time to some events of short time from birth*]; My investigation does suggest what advanced ancient astrologers and what *Martin Gansten* in his Book of *Primary Directions* have had us known/told, the older the chart, the better the use of a specific Key – the keys were added in order to correct/precise the Arcs which are very far from birth.

However, other important information I shall happily share as the result of the research, I discovered the *Keys of directions* to be quite important in *Solar Returns* applied in the charts of still early born charts, such as the short length of the WWII in astrological perspective, the Iron Curtain chart to the physical construction, the Weimar Republic, etc. they have proved to be consistent in the dates given and showed exactness in many of those cases studied. The most used Key for this research was that of *Naibod* – the others keys were *Ptolemy* and *Cardan*.

## Sects

A *judgmental concept* wisely applied in order to see what planet(s) yields what is pledged to; a simple method to divide planets into 2 *Sects*, that of the Sun [day] and that of the night [Moon]. Planets considered weak and without dignities at the radix and seen at first, can

become enforced and lightened if in right Sect, while planets in dignity are clearly held in higher esteem.

I utilized the method of *observing the planets above or below* the horizon circle rather than the diurnal and nocturnal *signs of the Zodiac* as indicators. The method is not widely used nowadays, but American astrologer *Robert Hand* and others astrologers have propagated the subject and made it important and essential once again on the West. Perhaps little by little the new astrologers studying western astrology will make it as priority as well.

An important note: For better picturing the transits, primary directions and all the astrology applied in the whole paper, I strongly advise you to simultaneously read the many tables and comments from the *results #1* and *#2* [*print them up!*] when in doubt of astrological factors in the moment.

**THE ARC OF THE  
START OF THE WWII  
WHERE IT ALL STARTED  
9.777**

## WHERE IT ALL STARTED

*"Terror is an emotion to salute"*– Hallucinated Hitler; once dictator of Germany

Pluto is the planet of terror by fear & anxiety/panic, two dreadful emotions hard to control; it causes chemical reactions/changes in the brain. Before exploring the attacks and their *Arcs by Primary Directions* that took place during *WWII*, it is needed to introduce the *chart of Pluto's discovery*, the mundane chart and new discovery in the astronomical science in the 30's that introduced mankind to the *never thought the evil* humanity could had grown into such short period of time. It is thus far the most brutal war mankind has ever participated in all history. The *WWII* was set up after 9,6 years the discovery of Pluto and like a malignant tumor it had grown from within and had its end on the clock and previously showed in such radix.

## THE DISCOVERY OF PLUTO

When the new [at the time] planet Pluto was discovered in 1930, the global financial depression was already in motion. At the same time the second bloody World War was less than a decade away. Hitler was improving his abilities as leader and orator for his people while then, and was soon to become the main human weapon against the whole world. The astrologers of those times knew something bearing a global level/event was going to blow, yet there is no popularity involved whether or not they announced the right period but always a long discussion. Then came Adams. Astrologer *Evangeline Adams* wrote/said in 1912 about the USA going into conflict in 1914, which was marked by the *First World War*, while saying that Uranus would Ingress again into Gemini in 1941 and USA would soon participate in a major war with the country centered. Although she was not right about the last info, with little information at hands, wasn't she right about the *years/periods of Begin*? Even though such prediction didn't stick to the general public, apparently she did speeches about it like she did at the Pabst theater in 1931 [*The Milwaukee Sentinel of 11 October 1931*].

Uranus is the planet of discoveries in general and in outer space, and in Aries they are quite pioneering. Mars at the discovery day was in Aquarius, the sign of sidereal space, the universe knowledge itself; in Mars, the new findings are assertive. At the day of the event, the planet was exact sextile Uranus, activating the great disclosure of that last planet (Pluto) navigating the borders of our solar system. Just after Pluto's discovery, the planet went into a 6 years of an ongoing intense square with Uranus in Aries, activating the great world economic depression in the initial 30's. The chart of Pluto's Discovery in Flagstaff USA has Saturn in its domicile, Capricorn. The planet was known as real on February and Pluto was traveling the opposite sign; Cancer, meaning Saturn and Pluto were at their mundane sets of opposition, as if Saturn was demanding something Pluto could not give at the time being.

Cancer is a cardinal sign that is quite territorial, even when its element is of water. The sign is protective and they are architects of shells hard enough to not be easily smashed, be it in the physical sense or at the core of emotions, but the more Saturn and Capricorn in the chart, the more materialistic and mathematical it becomes. It reminds us also the cold war which brought the status of a silent war through the *Iron curtain*, an initial invisible wall almost indestructible.

Nine years after Pluto discovery, the WWII began; thirty-one years after the discovery of Pluto, the end of its own Saturn return – the Berlin Wall began being built overnight; and thirty years after it, the Wall is dissolved when transiting liquescence combo *Saturn-Neptune* were in the sign of the goat [Capricorn].

## THE ARC OF WWII – THE 9.777 ARC

The \*Arc found is explicit, the planets and their positions speak by themselves while making connections to each other after the birth of an event of great magnitude on planet Earth. When at a certain point/moment in time we imagine that Saturn in the chart of Pluto's discovery, that day reached the position of an exact opposition to the actual position that of Pluto in the skies, it corresponded to a time [Arc] of major destruction, annihilation and pure hell. When Hades is opposed by Chronos:

Placidus(semiarc) Static Key: Naibod				
M/Z	Prom	D/C	Sig	Arc
M	♄	C →	♅ ♁	9.777

**- If we direct promissor Saturn (ruler of 7<sup>th</sup> house of war) to the mundane opposition of significator Pluto converse while calculating under the Placidus Semi Arc Method, we obtain the Arc of \*9.777; the WWII began 9 years, 6 months, 2 weeks and a day after Pluto's Discovery Radix.**

Directing Saturn to the planet which is the event itself, Pluto - we discover the period of the world's major human fatalities so far, even when, those planets weren't exactly on the angles of the radix [at stakes].

Saturn is ruler of 6<sup>th</sup> house of army and traditional ruler of the nation's enemy, the 7<sup>th</sup> house of open enemies. Pluto is the planet of total annihilation and control of such havoc, where it will take place, the methods of death including inducing death wish.

The Nazis ruled the most totalitarian government ever known; a Pluto's conceptualization of all or nothing at all and Saturn's doctrinarian system polarized in the axis of Cancer/Capricorn.

At the end of it, a sum of an approximate 75 million of deaths had occurred in the period (about 33 million were civilians) – the bloodiest war provoked by man. About ¾ of the world population was involved.

## THE RISE OF SECRET SOCIETIES & POWER LEAGUES

Other interesting fact of the World War II and Germany, and the thing we need to understand before investigating the Arcs of the attacks and campaigns from the enemies, is the post-war scenario of the First World War and German's secret societies & leagues and their influence over politics and social order, focused on anti-Semitism and racism.

## THE MUNDANE NEPTUNE-PLUTO & RISE OF POWERFUL GROUPS

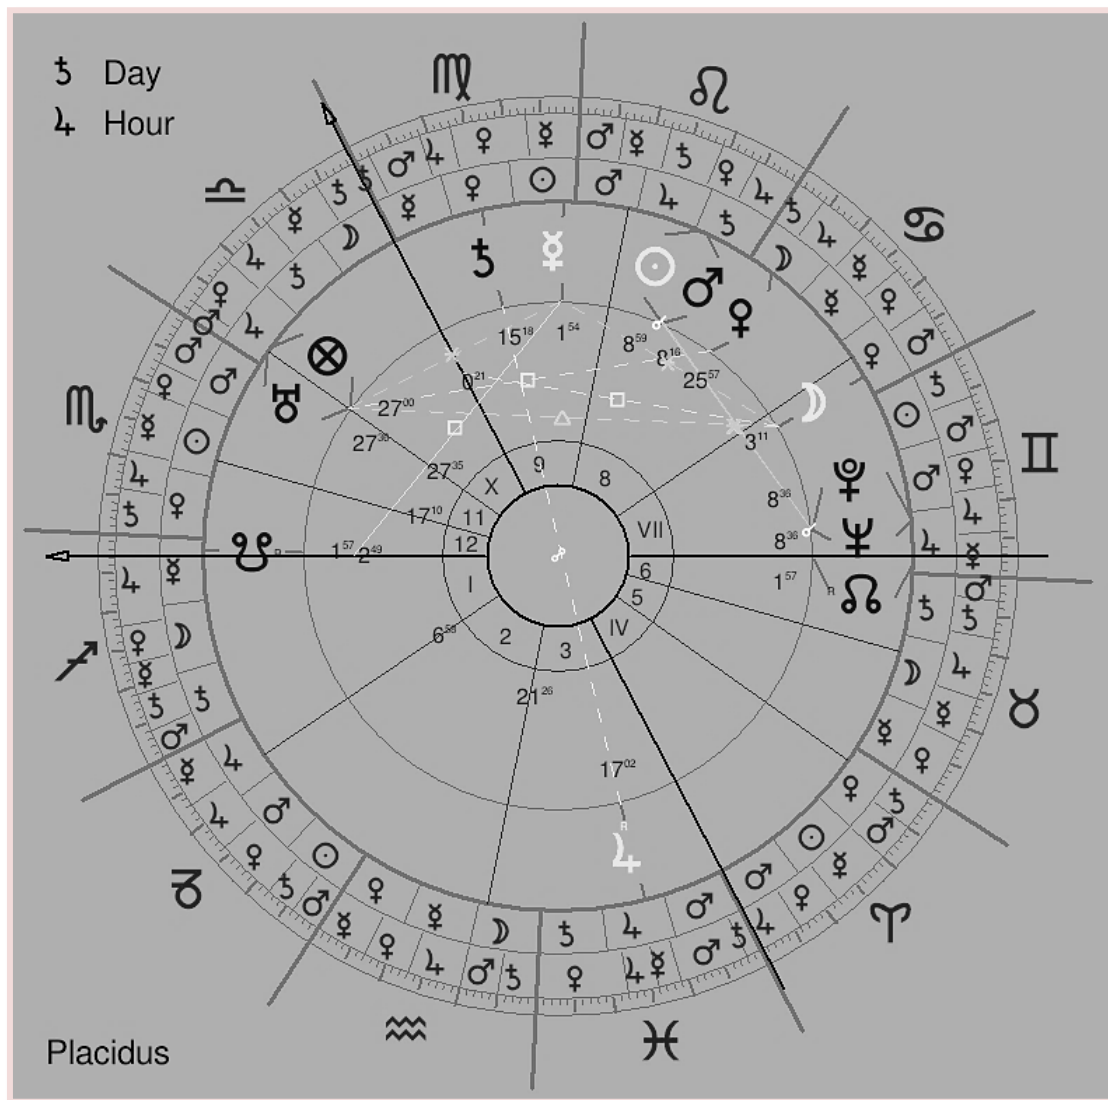

Chart: Neptune-Pluto conjunction in Gemini – August 1<sup>st</sup>, 1891 (Berlin; Germany)

Germany has a long history of secret societies and powerful leagues or federations among authorities and people of influence, and during the 19's to the 20's these aspects of social meetings were particularly echoed all over the country. A Neptune/Pluto cycle had begun in 1891 after their conjunction in the sign of Gemini.

This would lead to the beginning of exclusive powerful secret societies and of particular leagues. In the graphic/diagram, observe the Neptune-Pluto conjunction is setting down in Berlin (as well as the house of open/declared enemies); this puts the conjunction angular in the 7th house of politics and associates of power in Berlin. Observe now the Sun-Mars conjunction by the same degrees of the Neptune-Pluto conjunction, they are in partile [exact] sextile, indicating an easy access to power, since the Sun-Mars is located in the 8th house of releasing what is most powerful from both conjunctions. The period marked the resurrection of occultism as well. Below a brief list of some powerful secret societies, leagues or political parties:

YEAR	SOCIETY – LEAGUE – PARTY (GROUP)	LEAD/FOUNDED BY
1875	<i>Theosophical Society</i> - Arguable Racist	Mme. H. P. Blavatsky
1903	The Protocols of the Wise Men of Zion - anti-Semitic script	Pyotr Rachovsky; Russian secret police
1903	Ordo Templi Orientis - Law of Thelema/Gnostic	Aleister Crowley, Theodor Reuss, Carl Kellner
1912	<i>Reichshammerbund</i> - anti-Semitic	Theodor Fritsch

Mme. H. P. Blavatsky founded the *Theosophical Society* on September 7<sup>th</sup>, 1875 (in New York), prior to the conjunction of the malefic planets in 1891. Yet, at the day of the foundation, Saturn was in Aquarius, the sign of groups while Saturn is the leader, in

square to Pluto in Taurus and opposite Uranus in Leo. Uranus was also in the phase of squares to Pluto, instigating a revolution of social values versus individual needs and desires to perform something greater than majority. After all the configuration set, Jupiter was opposite Neptune, culminating social inclination to universal knowledge applied differently and mystically. The Blavatsky society and the later the Nazis, adopted and shared the same masters of the occult, they were natural followers of older secret societies that englobed the Gnostic sect *Carpocrates* teachings. The society also adopted the swastika emblem. Such group and their thinking provided a provocative ideal that *society Thule* would later modify to the study of *Ariosophy* (*Theozoology/Ario-Christianity*) and *Armanism* (*Wotanism*).

Two years later the Thule Society is made official/public, it is born in 1919 a powerful group named *Deutschvölkischer Schutz-und Trutzbund*, translated to the '*League of Protection and Resistance of the German People/Volk*'; another xenophobic society that had about 150k members which improvised a book with their signatures literally asking for the removal of "*Judaic influence*".

Those leagues instigated hate towards Jews, and unconsciously, the Nazis were preparing/training the members for future violence; be it mentally (idea of/context), spoken (verbalizing hate) or actual physical violence. For example, in the *league of the Maidens*, the young girls had to go through trainings and many physical exercises, and the same with the young boys of other groups, they had to spend some time working on lands as slaves, while encouraging illegitimated pregnancy (perhaps to expand the Nazi's "family") and to rebel against parents that opposed the Nazi's ideology.

Aside the cruelty, the Neptune-Pluto new cycle also involved the rise of the era of earliest motion picture, beginning from the 1890's of the silent films until the end of the 20's when synchronized recorded music score were introduced. The color movies were already in motion during Hitler's ascension in the 30's, where he turned the technology into a weapon for his own interests – deceiving through pictures in motion.

## THE THULE SOCIETY & CAPRICORN INGRESS 1917

The *Order of Teutons* had previously adopted the Swastika after the end of WWI – a nationalist occult society that preached racism and enforced the movement of anti-Semitism, which had financially and politically contributed to the ascension of the Nazi's party. Their ideology was published as a *Weltanschauung*, conceptualizing the world centered in the illusion of pureness and supremacy of the *Aryan race*.

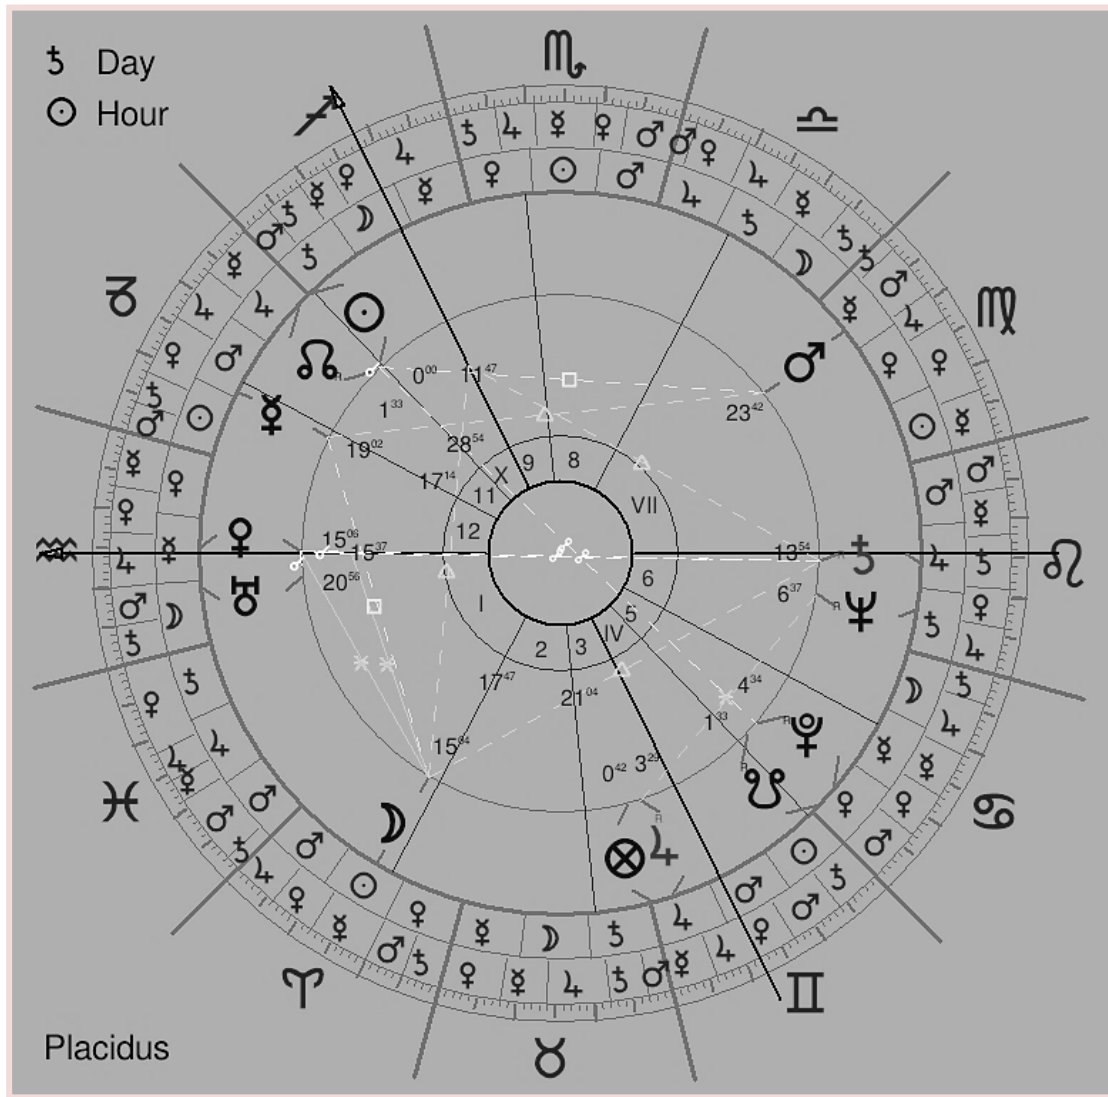

Chart: Capricorn Ingress 1917 – December 22<sup>nd</sup>, Berlin; Germany

In the winter of 1917, the lunar nodes were at their ends transiting Cancer-Capricorn axis and while the *Ingress chart* happening in Berlin the Sun was in the 11th house of societies, Pluto was opposite by 4° degrees. From the occult, there was born the bigoted Thule Society, which subtly lunched the political party that freed the beast Hitler out to the world together with NSDAP (*Nazional Sozialistische Deutscher Arbeiter Partei – the Nazi's Party*); The Sun in the Capricorn Ingress of 1917 in the 11th house of groups and Pluto ruler of what is secret and occult, was in Cancer, the sign of what is private and of *subtle moves*.

Journalist and Commander *Dietrich Eckart* was one of the commanders of the Nazi society and the one which “premiered” Hitler into the world – many historians’ points Eckart of perhaps one of the most significant personal contact Hitler has ever had in life. This man had the greater repercussion in Hitler’s ideal terror (anti-Semitism) influencing also his behavior in manners – at the time then Eckart was in his 50’s while Hitler in his 30’s. Historian Laurence Rees in his book *The Holocaust: A New History* wrote that Hitler idolatrized him as if someone would adore/reverence a Hero, and he thought of Eckart “*glittered in our eyes like the polar star*” – unconsciously Hitler was training his body and mind to exalt the same effect through the teachings of Dietrich Eckart. The astrological synastry is also interesting; Eckart’s Venus conjoins Hitler’s Sun-Venus-Mars in Taurus, providing quite a satisfactory relationship/friendship. However it was Anton Drexler, the mechanic and president of the German workers party that firstly premiered the tyrant into the politics, encouraging him to enter the gang.

*“Follow Hitler. He will dance, but it will be me who will play the melody. I’ve initiated him under the Secret Doctrine, opened up his center of visions and gave him the means to communicate with the Powers that be. Don’t regret me, because I will have had influenced the History more than any other German.”* – Dietrich Eckart’s last message before dying in 1923; once Thule’s director and DAP’s patron.

Pluto the planet of ultimate power in the winter Ingress chart of 1917 as significator was ruler of 9th house, the place of mostly every profession and position associated with the Thule Society, while Sun was ruler of the 7th house of open enemies and allies of Germany. Among known to historians are Dr. Morell, from the military there was Rudolf Hess, Alfred Rosenberg (Nazi’s philosopher), the Nazi minister of Justice Franz Gurtner, and others.

Brazilian astrologer Márcia Sarcinelli metaphorically elucidates Hitler as the ultimate German *golem* and the secret society’s key for their occult works, while also describing him as a medium; *golem* in this case means a “*doll made out of clay*”, obeying even the most pervert tasks when commanded or simple *a being* only answering to grimy obsessions and the concupiscence they occasion.

## WEIMAR REPUBLIC

The last kind of authority/government to take place in Germany after WWI and before Nazi ascension in the 30's, was the *humiliated* and short lived *Weimar Republic*. The Weimar Republic's Chart provides 2 Arcs/dates by primary direction including the Arc of the *Berlin Wall's* introduction (see part II) from its radix.

### A REPUBLIC IS BORN

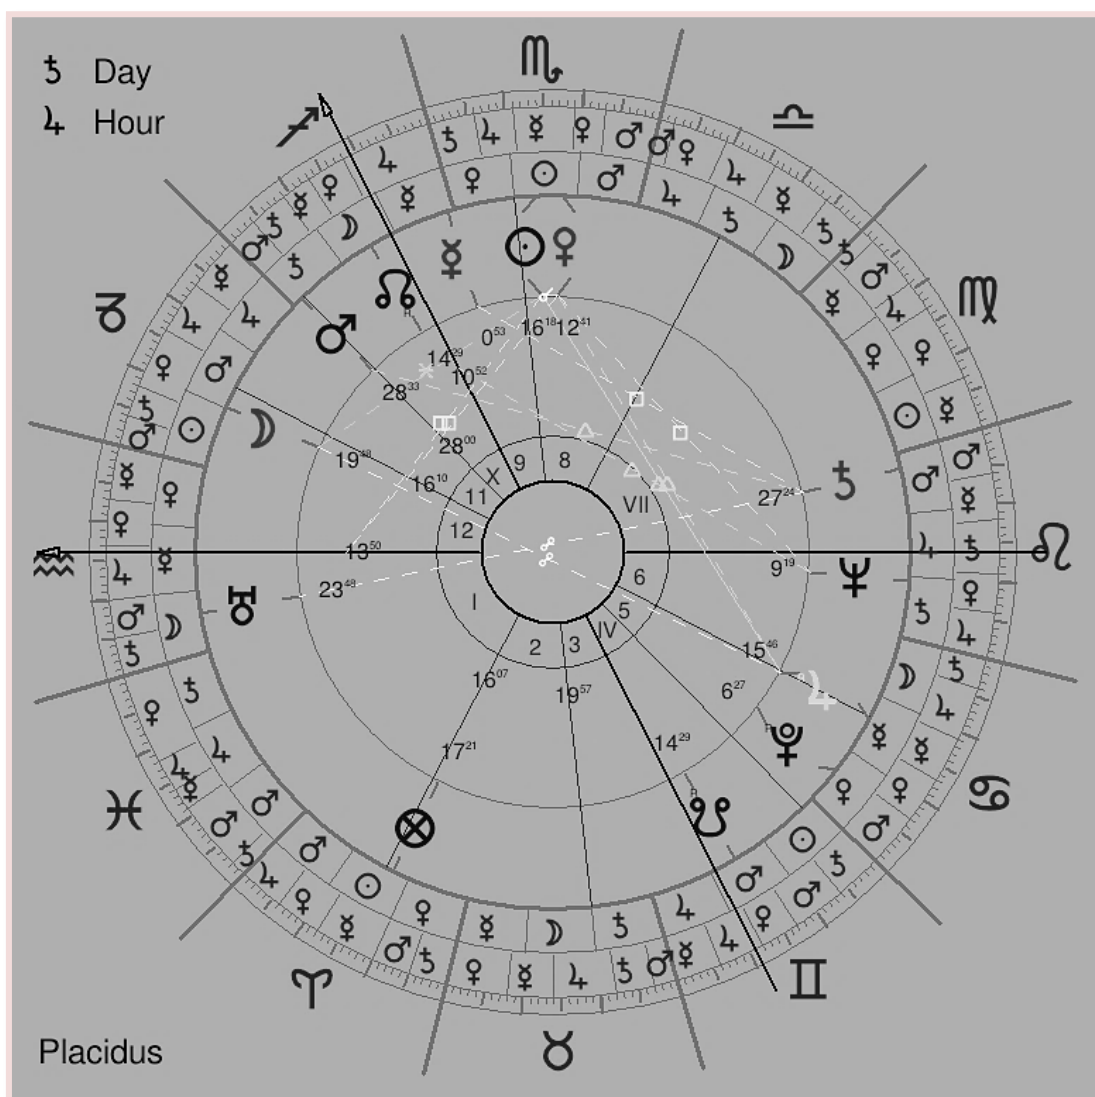

Chart: Weimar Republic – November 9<sup>th</sup>, 1918 at 01:32:02pm (Berlin; Germany)  
Dusky's Rectification

Right after the first war, having to sign over 23 conditions, Germany was blamed for all, but the *in totum* was meant to be recognized by the country and the allies. The *Weimar republic* was born on November 9<sup>th</sup> 1918 at the mirror room in Versailles, when the Kaiser cedes his powers to *Wilhelm I; King of Prussia*. Hitler while then went

blind by mustard gas. Only on November 11<sup>th</sup>, 1918, the armistice was eulogized and signed, the event was famously known as the “*the Compiegne Armistice*”. The Versailles thread though, took place only 6 months after it.

For the military specially, the peace ‘contract’ wasn’t mutual, but it was forced upon, an humiliation – the chief of the state *Philipp Scheidemann* actually renounced at the day of the thread once the allies threatened to continue the war if the paper wasn’t concluded by the final signature. The national assembly decided to put it on a vote. At the last days of *Weimar*, the German currency had not a single value, its monetary system got broke and the Republic was felt even more with hateful heart.

- “*The people didn’t want to hear, and didn’t want to understand that the treaty of Versailles was a shame and a reproach for the nation and such treaty of peace which was dictated to us, translated itself as a big larceny.*” – Hitler in *Mein Kampf* (chapter V) writing how the people saw the treaty as a democratic victory – *Dusky’s translation*

This was perhaps the most notable thread of peace from the end of *WWI*. It took vast territories of grown Germany; at least about 65.000 kilometers (about 1/8 of it) were taken away, reducing the population to only seven million people (about 10%). The allies would occupy in Rhineland for 15 years, and then a gradual withdrawing would occur as long as the Germans kept belligerency. In 1921, the total of Germany’s debt to the allies was estimated to be of 442 billion dollars (2014’s exchange rate); the restitution was paid its last cents owed only in 2010.

Hitler and his minions of carnage and prepossession blamed the Jews of losing the *WWI* and of being responsible for the humiliated Versailles peace treaty, they re-named in the internal circle as the *Jewish Republic*. He knew the treaty was forced upon instead of a mutual agreement between the parts. Thousands to millions of people were suffering the consequences of the Allies’ naval blocking Germany until they changed mind and finally signed the treaty on behalf of the lost nation, otherwise people would starve to death.

## THE SHORT LIVED WEIMAR REPUBLIC

*Weimar Republic & the treaty of Versailles* were considered an intrepid affront, especially for Hitler the one among the only army the nation could have had of a hundred thousand soldiers, the *Reichswehr*. For those that shared the same idea of his, the peace thread was an intrusion from the enemy that needed to be reviewed at all costs. The Republic was to be sickled by the Nazi's ascension in the initial 30's.

### Length of Life by *Bonatti Method*

From this radix, we can judge the fact there is no planet or point to be considered a true Hyleg, and thus no Alcocoden. This is traditionally known in astrology as a *third differentia chart*.

Here is a problem. If we use the date which is on the internet of 2:00pm, the chart then would have the Ascendant as the Hyleg, because Uranus as ruler of the 1st house would then be conjunct in this chart. This means the actual event took place a few minutes before, so then I rectified the chart and put the time about 30m earlier, so Uranus could be at least 10° degrees away from officially rising at that afternoon.

This means the nation would only live to the maximum age of 12; under the astrological dominion of a *Third differentia chart*, the astrologer knows by this point the chart's owner will be short lived, or, that is:

### The Length of Life: *maximum of 12y*

**The length of Weimar Republic was of 11y10m&3d – when the new election took place, the political party of Hitler then overruled it, while possibly greatly sustained by the *Society Thule* - went into ascension by the election of *September 14<sup>th</sup>; 1930*.**

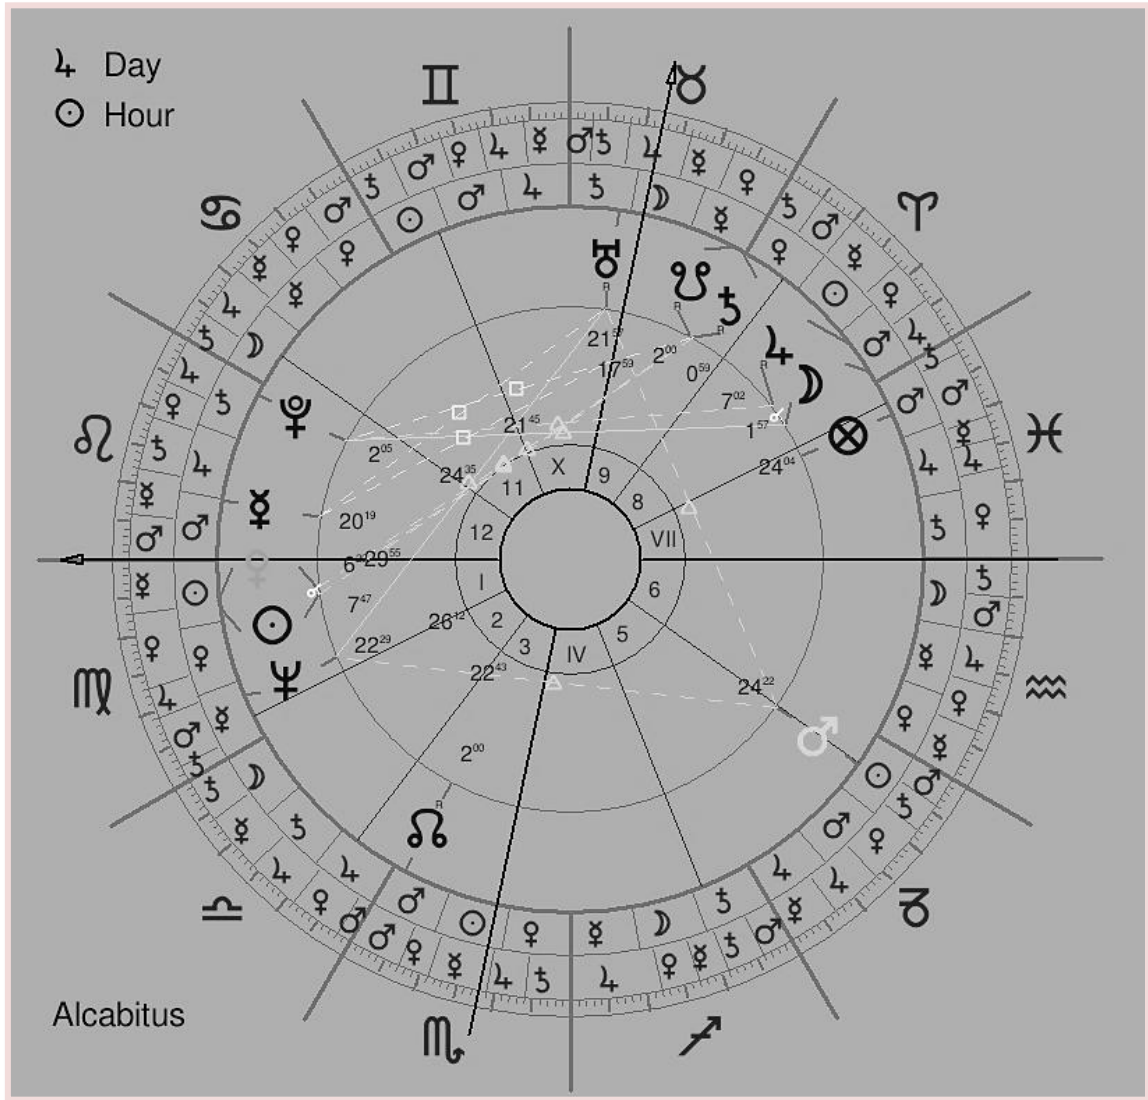

But actions have consequences and durability, despite the death or expiration of the body or the nation, and Weimar Republic wasn't any exception. Discover through the next pages to discover why.

# **WORLD WAR TWO**

## THE CHART & ASTROLOGICAL FACTUMS

## THE START OF THE WORLD WAR II

### MUNDANE CHART

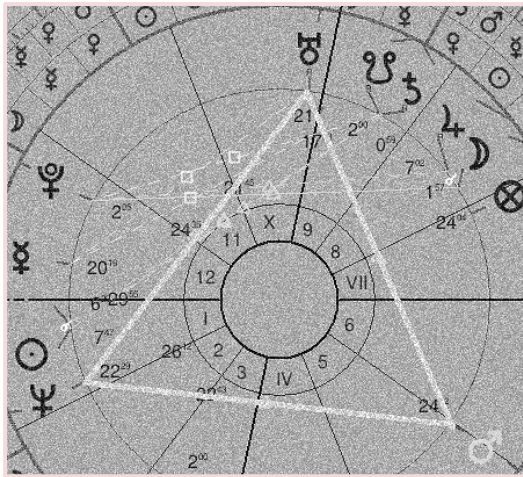

Date of September 1<sup>st</sup>1939 at 04:10:01am [Danzig/Poland] - (Dusky's Rectification)

---

German Crusader Schleswig Holstein flew to Danzig Port at 4:10, but only bombs or attacks Poland about 7 minutes later – it was supposed to be a “courtesy” visit at first place – the ruler of the 1<sup>st</sup> house [Sun] was conjunct Venus [combust] rising and at fall in Virgo, the planet of courtesies and sign of duty; also the ruler of the 1<sup>st</sup> house trines Saturn in Taurus (Venus ruled) which was at 0° degree Retrograde, ruler of the 7<sup>th</sup> house of open enemies.

## THE BEGINNING OF THE WWII SET UP FOR 4:10:01AM

### THE RECTIFIED CHART

In the September campaign [start of WWII], observe the Grand Earth trine is activated by heater and exalted Mars in cardinal Capricorn, the planet of conflict and violence would easily trigger a dispute of materials and domination across the world. Although earth signs are the most attuned with earthly matters, Cancer cardinal sign and its ruler are actually the sign and planet of *territory* as they rule over real state and houses we live in and call home – Mars in

the Alcabitus house system is at 24° degrees exact opposite the cusp of the 12<sup>th</sup> house at 24° degrees Cancer, the house of secret enemies you don't know about, that is, the dispute of territory Hitler thought no one could imagine he would, just as he did with Italy and Russia, revealing further his second intentions during the transits of the planets. It also results the attacks and raids taken overnight and by surprises, qualifying the war as quite strategic if it wasn't for the invasion in Russia, because until then, the plan of Nazis was working out smoothly as the grand trine in Earth signs would suggest. Here Uranus may have had signified the rebellious approach to the world and those called the "thunder war" – the *Blitzkriegs* based on briskly and surprise attacks they were well known for. The Nazis made use of "triangles" for instant identification of prisoners in their clothing while arrested in camps or for the slavery labors outside them; the graphic had many colors, for example the yellow triangle symbolized the Jews, blue for immigrants, black for lesbians and pink for homosexuals. Some also had a letter written on it indicating the origin of the prisoners.

The *grand earth trine* encompasses those whom served such as the army, the young and the government and would then all become one with Uranus the planet of socialism (along with Neptune and its communism) culminating, that is, all government amplified, once Uranus is in terms with Jupiter. It ended up as a war (Mars – activator of the grand trine) of industrialization, technology against technology and the extreme media control vivificated by the Nazis (Uranus ruler of 6<sup>th</sup> house of physical army), death in the name of high ideals (Neptune ruler of 8<sup>th</sup> house) to international war (exalted Mars ruler of 9<sup>th</sup> house of foreign affairs and territories). The WWII was also marked by the greater horrible naval battle of contemporary history (battle of Leyte's Golf). Neptune configured in such case, opens its vast oceans to stage battles and the glamorization of terror, Uranus then to control media and popular opinions, and Mars

to trigger gratuitous violence once in terms with Saturn and square the planet itself – Mars is opposite Pluto which also square Saturn, thus revealing some kind of *triple rogue energy*.

When Hitler and the Soviets invaded Poland, he prepared the world's stage for his role as world leader and the world's territory as the map to attack and conquer. Hitler actually had many meetings with the British Premier *Neville Chamberlain*, where it was discussed about the *peace of the world* while both parts agreed to limit Germany's expansion in Czechoslovakia; Hitler used his charm and political influence to later distort what was discussed, and unexpectedly invaded Poland, triggering the WWII and its first step towards total destruction. The ruler of 10<sup>th</sup> house is Venus and is conjunct the Sun ruler of the 1<sup>st</sup> house of the WWII, governments could easily believe the intentions of the one responsible for the WWII to be pure, even later on the war Hitler still made friends to only sting later. Chamberlain in the midst of tragedies resigned and Winston Churchill replaced him on the same date sneaky tyrant Hitler invaded Luxemburg, Belgium and Holland on May 10<sup>th</sup>, 1940.

### **The Ascendant's Dotecatemia**

**The intentions one can't avoid** -The *Dotecatemia of the Ascendant* of the chart is Cancer at 29° degrees, meaning the intentions of the War were purely territorial and group oriented, the thoughts of the campaign of war itself couldn't resist was also a rebellion of classes as it falls in the 11<sup>th</sup> house - the campaign would start out as friendly and targeted to specific groups of people; also the degrees and sign of the Dotecatemia is opposite Mars at 24° degrees Capricorn, the disputer along with the opposition aspect indicator of stimulation, thus the adrenaline of the Nazis – there were persecution of *Jews, Slavs, Gypsies, homosexuals, among others nationalities* – it wasn't until Hitler's invasion of Russia that the event became largely known as an *ideologist's war* [repopulation of Germans around the world].

### **The generational planets**

Despite all the brutality and injustice that occurred, Uranus involved also corresponded to how technology had evolved from it and still has – *radar; laser beam; new hunting tanks and ships such as self-propelled cannons, versatile and compacted airplanes and faster and far-reaching jets and plane, the V-1 (cruise missile) and V-2 (ballistic missile); the upgraded complex logistics organized; nuclear energy intense research (atomic bomb); discovery and improvement of penicillin (revolution in antibiotics); walkie-talkie (revolution in mobile wireless communication); the making of synthetic rubber; etc.*

Planes are Uranus domain; this was the war where the first time planes were used in the front for continuous wars – the radars were a new technology invented, giving the advantage of knowing beforehand the enemies invasion in national territories.

Neptune in the grand trine suggests all the collective deception involved, there were of course, many citizens and soldiers/sergeants who thought Hitler actually had *pure* intentions, structured ideas that transformed into ideals that until today are obsessively and irrationally hold by the *neo-Nazis*.

Neptune also suggests the glamorous side of the war – movies of best nomination were made during and afterwards, attracting also the younger generations, with the new cars, planes, weapons, histories of wars from veterans, etc. The magazines of nowadays full of colorful pictures of the armored tanks with varnish and relief all over the page; the movies from today reflecting about war and romanticizing the espionage stories of man and women whom fought against the Nazis' or for them, movies and documentaries of Hitler & the Nazis, the books that still emerge with new investigations and sometimes a new methodological appliance. A history told by all people in the world no matter the distance between lands and oceans.

The planet also *assured* the war on the Atlantic (September 3<sup>rd</sup>, 1939 – May 8<sup>th</sup>, 1945), the event which marked all that was WWII –Initially, the Nazis blocked the routed of the ships of the allies in order to prevent the arrival of goods to UK and URSS, and also to restrain US troops from getting to Europe.

#### **Intellectual Distrusted – The Lack of Air**

The chart lacks of *Air element*; there is 0 (zero) planets in any those signs of *triple air* [*Gemini, Libra, Aquarius*]. Generally it indicates the lack of desire to know, to understand and to progress intellectually. Hitler at the time only wanted but to hunt by fear and conquer territories – Earth and Fire are the elements in higher numbers. As Stephan Arroyo put in his book of the 4 elements the lack of Air “*can lead to a distrust of anyone who seems too "intellectual."* – The Nazi's ideal wasn't any others but their own, any other institute that contraries the race was considered erased. Books that opposed their ideology or contradicted intellectually were burn; those of *Albert Einstein, Sigmund Freud, Vladimir Lenin (Leninism), Karl Marx (Marxism), Leo Tolstoy (Nikolayevich Tolstoy), James Joyce, Ernst Weiss, etc.*- By the way, not a planet occupied houses of Air as well.

#### **Sun, Venus & Mars**

Sun in Virgo is about to rise but still combusts Venus in the house of Mars – the WWII chart has a *nocturnal Sect*; In my rectification, exalted Mars is in exact conjunction the cusp of 6<sup>th</sup> house of nation's army & duty and thus its aggressiveness is through violence and out of proportion in the nocturnal Sect and yet it rejoices in such place of the wheel giving Mars a real strategy – yet it can be in a place that marked Mars the hellion ablaze even more reckless according to Moon's rejoicing [*nocturnal Sect*]; here we can observe Hitler's exalted influence over the faithful army in his own territories and later abroad, Mars is traditional ruler of the 4<sup>th</sup> house of the nation's land (and the

*'one who started)* and ruler of 9<sup>th</sup> house of foreign lands. The attacks were in and out of Germany.

Venus the planet of peace and attraction is combust and at fall in Virgo but rising in the 1<sup>st</sup> house of co-significator Mars – suggesting the part of the WWII where the admiration and followers of the leader would rise in numbers, Hitler and war, violence and blood, Venus is ruler of 10<sup>th</sup> house of the one in power. Yet, the wide conjunction to Neptune in Virgo also suggests the final delusion of the nation itself.

# THE WORLD POWERS AND THE WWII

The charts of the 4 world powers involved in the WWII are something to be discussed. In the *astrology of warfare*, it is important to generalize the major picture going on the governments behind the scenes and their importance for others rulers of nations which are not their own. It is not a Venus [relation] talking though, it is more of a Midheaven' genre. In this part it is analyzed the attacks from the enemies. Each Arc found is exclusive but always similar to those others, forming a pattern for future investigations that is discussed at the *final report #1 and 2*.

## THE CRONOS' SYNASTRY

Observe that in the mundane charts of USA 1776, England 1801 and France 3<sup>rd</sup> republic 1870 all have cardinal signs culminating in the 10<sup>th</sup> house signed by Saturn and the position/place of Capricorn, the planet and sign of governments. Although the cusp of the Midheaven of England and France are in exact square, the rising sign of England's is conjunct the cusp of the France's Midheaven and Mercury, which by the way is ruler of 7<sup>th</sup> house of partnerships and associates.

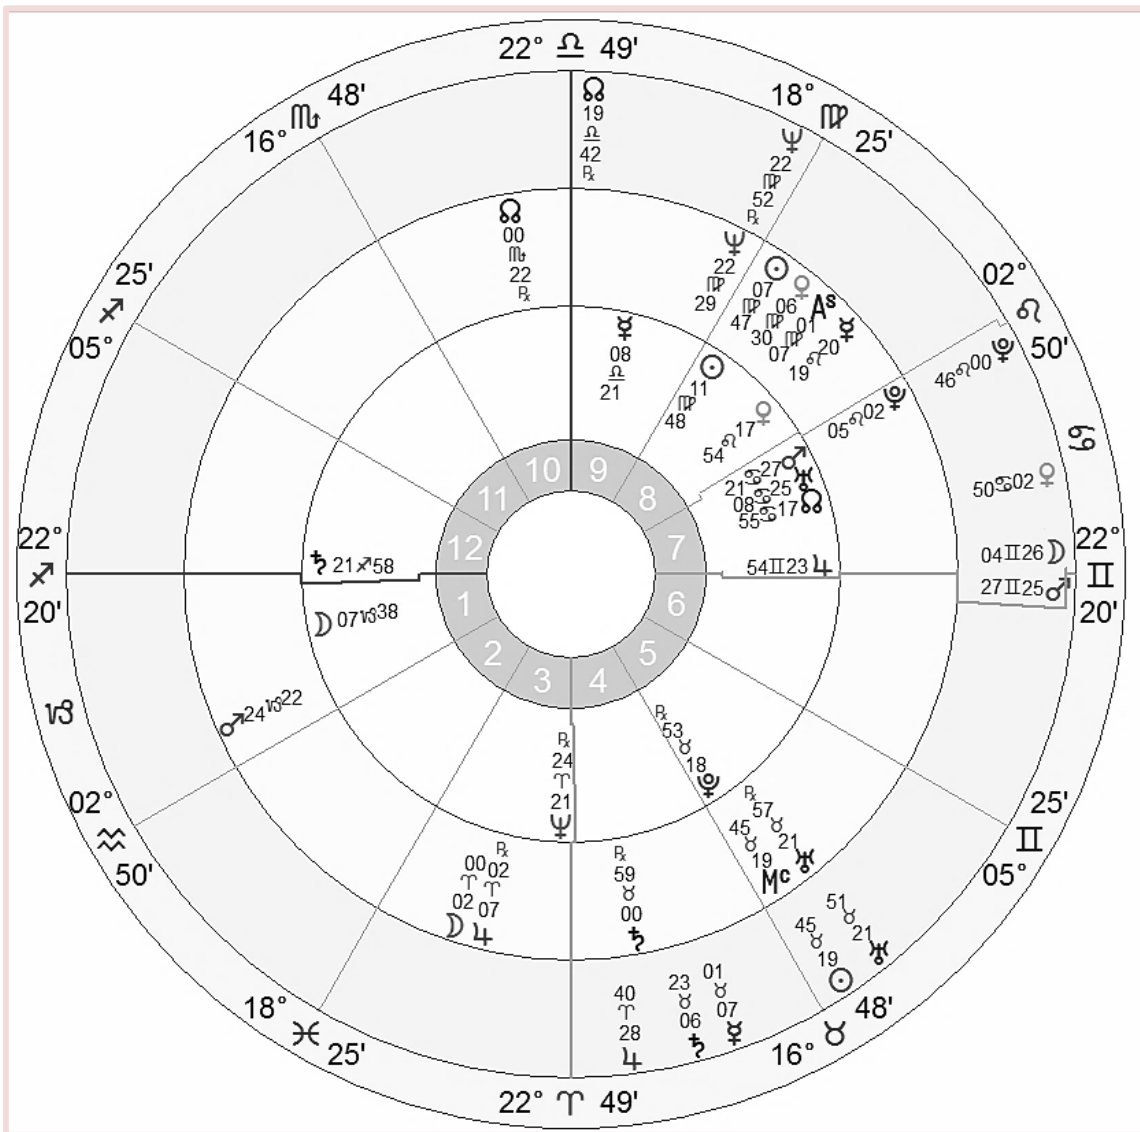

When the WWII began, transiting Eris had the general influence over the war and thus triggered by the Moon-Jupiter conjunction in Aries; Eris is the planet of strife and disharmony. The triple conjunction was in an unfortunate opposition of the 3 potencies chart's Angles – The USA stands after France's chart in terms of governmental issues with England, yet, USA' Midheaven is the same of France: Libra culminating. And more, the USA Saturn in Libra is exalted and is conjunct France's Midheaven, instigating trust if there is room for it, or the contrary, depending on circumstances. Saturn of both URSS and USA charts are conjunct in exalted Libra, but the URSS has in a very different situation happening on the Midheaven. The point is, overall, when they needed to support the other against Hitler, even when their political way of ruling is different from each, they did - or they were obliged to in order to maintain the little freedom they possessed after the invasion.

All the attacks investigated in this session are from Hitler and the Nazi movement; except the *Pearl Harbor attack* which was Japan's confrontation with USA; the Arcs are all obtained from very specific Solar *Returns* of each nation, that of those years of the attack or prior, depending on solar sign and degrees.

# FRANCE - THE WWII& THE ATTACK

Attack Date: May 10<sup>th</sup>; 1940

Inner Chart: France; 1870 – Middle Chart: Start of WWII; 1939 - Outer Chart: attack from Hitler May 10<sup>th</sup>; 1940 (time unknown; early hours)

## ASTROLOGICAL CONDITIONS OF ENEMIES

The ruler of France’s 7<sup>th</sup> house of open enemies is Mercury. Natal Mercury is in terms with Mercury itself, thus you realize that the transiting Moon-Jupiter-Eris conjunction at the day of the WWII was opposite natal Mercury in the 9<sup>th</sup> house of international affairs. The Aries Ingress chart (1940) defined France’s future of discordance in the genethliacal chart. The open enemies of France are usually the fanatics from abroad/foreign countries and the result of international constitutions. Observe also transiting Pluto back and forth the France’s natal 8<sup>th</sup> house cusp, the house of co-

significator Mars, which is at fall in Cancer – Cancer is ruled by the Moon and natal detrimental Moon in Capricorn is co-ruler of the 7<sup>th</sup> house of open enemies.

At the day of the attack of the neutral Netherlands (*Belgium, Luxemburg and Holland/Amsterdam*) in the early hours and the turning point in history when \*France is invaded in the same day, transiting Mars the planet of attack was conjunct the cusp of natal 7<sup>th</sup> house of open enemies – Mars in the genethliacal chart of France is ruler of the 4<sup>th</sup> house of territory and major new beginnings. The transiting Moon was also fortifying the Mars as it conjunct in Gemini as well. Remember that Jupiter is ruler of the 1<sup>st</sup> house of the nation. Natal detrimental Jupiter in Gemini was being conjunct by the transiting Moon-Mars; this was a typical kind of astrological configuration day for an invasion of territory.

*\*note that I utilized the same mundane chart for the Netherlands*

### **Almudebit – One Champ and Only**

France's Almudebit is the Sun. The planet trines the Moon herself, her nodes and Pluto. The Sun is located in the 8<sup>th</sup> house of what is shared and powerful resources that are highly recognized and many of the times, given by other nations; the others have influence on rather the country's prospective is within contentment or shuddering.

Co-significator Mercury is being *attacked* by the transiting and opposition of the Moon-Jupiter-Eris conjunction in Aries, Venus the term ruler of the Sun in the chart was square by the transiting burning Sun and erratic Uranus in Taurus.

Now, if we analyze the Solar Return of France prior to the attack which was known the battle of the "*fall of France*", observe the ruler of the 7<sup>th</sup> house of SR is Jupiter, which is in the 7<sup>th</sup> house of open enemies and also, partners. Many France's unity had to form alliances with the enemy in order to prevent further attacks while, rebellious Uranus in the chart is conjunction with the Moon – many joined the resistance instead.

### **The Sect**

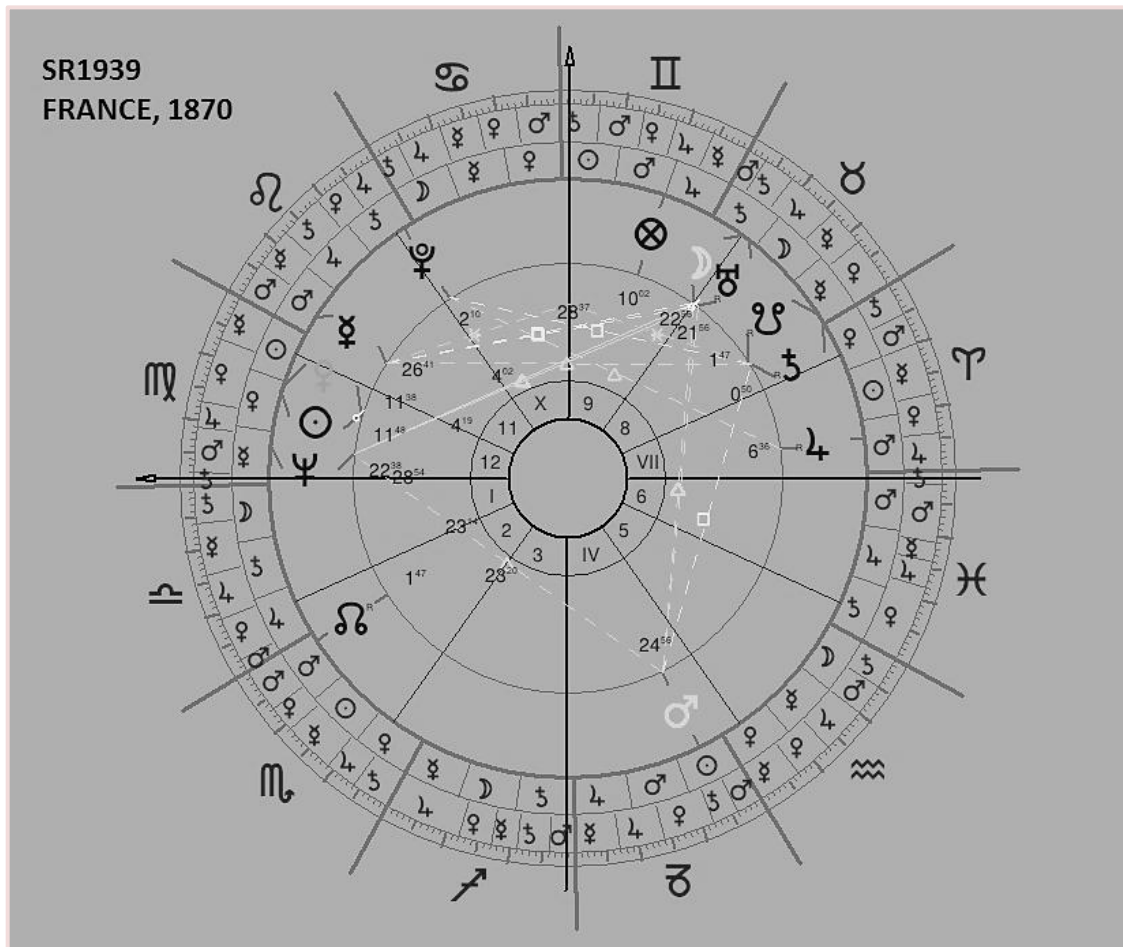

In the mundane chart of France, the Sun in Virgo is in the house of Mars/Pluto – France has a diurnal Sect; rejoiced Saturn in the 12<sup>th</sup> house and Jupiter in the 7<sup>th</sup> house justify *fine-tuned Sect*, and despite Jupiter is detriment in its position therein, it is in an air house and in a place comfortable for the planet according to a diurnal chart.

Saturn and Jupiter are tempered in Sect, it subtracts the heaviness of Saturn and increases a responsible Jupiter's– the two social planets that integrate the individual into the social sphere; in this case, government taking civilians and soldiers to the conflict of interests and people accepting with easy. Saturn in Sagittarius conjunct the cusp of the 1<sup>st</sup> house had risen in time to be in comfortable in Sect and to have its operation refined, it moved beyond the house of Mars [1<sup>st</sup> house; although conjunct it]

and went straight to the 12<sup>th</sup> house of where it rejoices instead – traditional values are well locked and materials of history are well hidden and it mostly comes from foreign lands. This is a nation extraordinarily traditional.

Jupiter detriment in Gemini in the 7<sup>th</sup> house of Venus but in Sect is promised to operate its highest through other nations that share the same values, but enemies shall be many as well as Allies.

## FRANCE'S SOLAR RETURN 1939 & THE ARC OF THE ATTACK FROM HITLER

Remember that *Grand Trine in Earth signs*? In France's Solar Return the Moon is part of it with Uranus, the planes' ruler, intensifying the attack and the Grand trine in Earth signs. The Moon-Uranus conjunction is often seen in chart of Solar Returns when there is accident in the year and an element of surprise in terms of attack, once the conjunction falls in the 8<sup>th</sup> house of enemies attack:

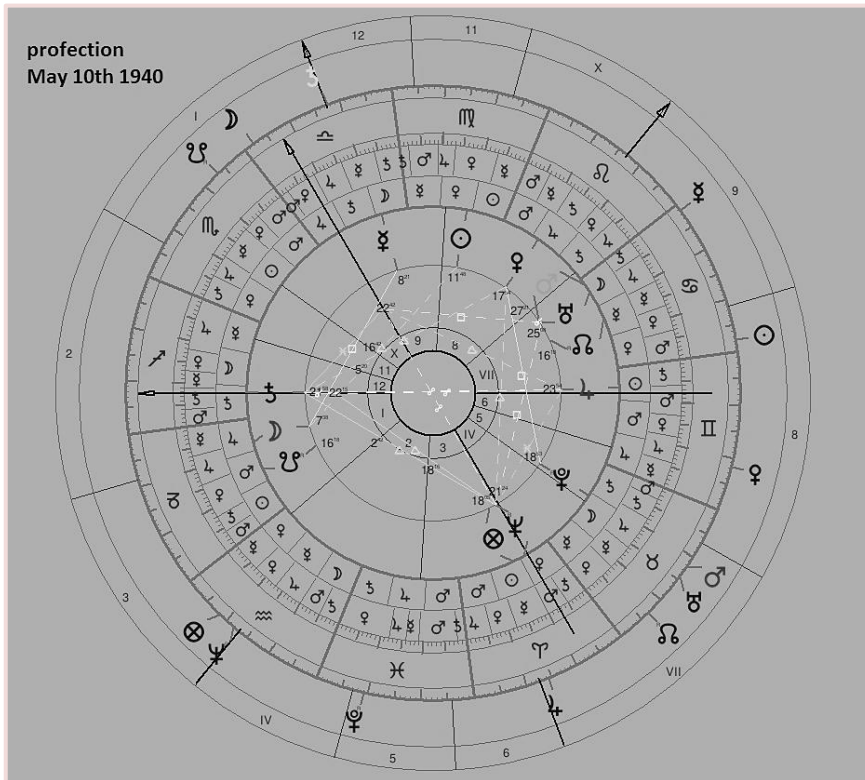

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♂	D →	♄	245.067	1940.05.10

– If we take promissor Mars and direct to significator Saturn direct, by Placidus method of semi arc direction and the Zodiacal positions of the planets, we obtain the date of May 10<sup>th</sup> 1940 – The exact date of the first Nazi's invasion and battle in Netherlands and France's territories until the bombing by the German's Luftwaffe May 17<sup>th</sup>, 1940. The Netherlands were occupied until 1945.

On the other hand, Mars was in Capricorn, the sign occupying the 1<sup>st</sup> house of natal France. Saturn, the significator is ruler of natal 1<sup>st</sup> house; while in the Solar Return, the planet is the *bounds* of the Asc, Mc and Dsc. Mars in the SR of 1939 is ruler the 8<sup>th</sup> house of enemies attack!

**The 10<sup>th</sup> Sign Profecion Year [Annual Profecion] + Profected Uranus-Mars conjunction**

Inner Chart: France; 1870 – Outer Chart: Profecion for the day of the attack from the Nazi army on May; 1940

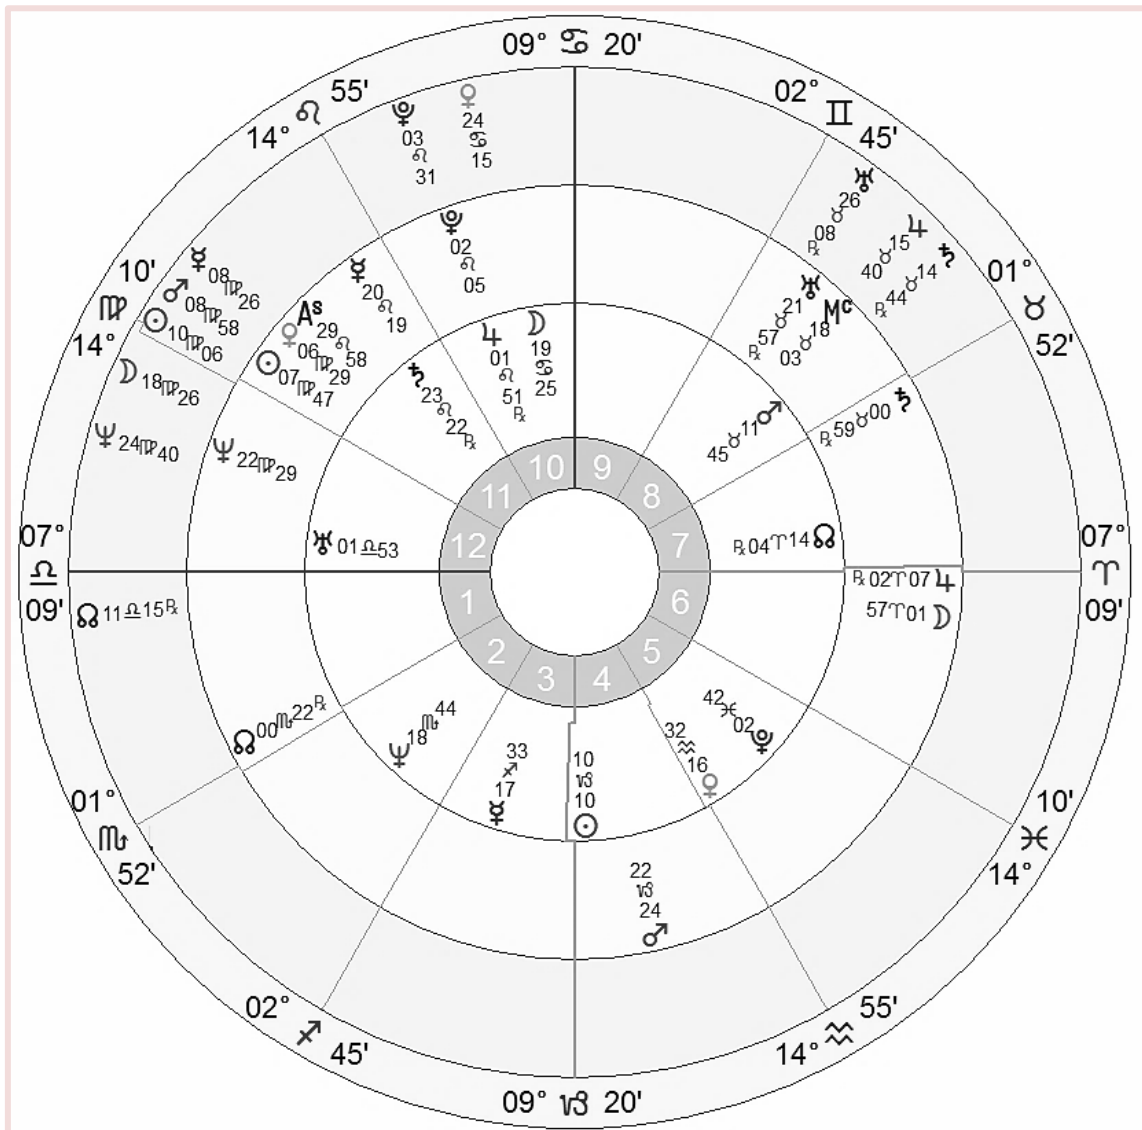

**Profected Mars-Uranus conjunction at the day of the attack was conjunct France’s natal PlutoM in Taurus in the 5<sup>th</sup> house. In the mundane chart, Mars and Uranus conjunction occupies the 7<sup>th</sup>**

**house of open enemies in the sign of territorial Cancer. It confirms the Arc of the attack stridently. If there was to have any attack from the enemy, it shall have had been that period. At the end of the attack, [advanced] profected Mars-Uranus had conjunct natal Pluto by 0° orb on May 17<sup>th</sup>, 1940 with the bombing by the German’s Luftwaffe aviary forces; Mars in France’s chart is ruler of 4<sup>th</sup> house of significant endings. Also, profected Saturn (term ruler of 1<sup>st</sup> house) is conjunct natal Mercury, ruler of 7<sup>th</sup> house. Remember that, as you observe in the graphic above, it was a 10<sup>th</sup> house profected year! A year focused on real change.**

**Curious Observation:** In the *Belgium Campaign* Pluto was at 18° Taurus – The Nazi invaded and occupied Belgium [between France and Netherlands] accordingly to the yellow plan (Fall Gelb); it was 18 days of combats. Gemini rules the color of yellow, the sign positioned in the 7<sup>th</sup> house of open enemies of France, that is, if you count the mundane chart of France to the same of Netherlands for that period and Belgium.

# ENGLAND - THE WWII& THE ATTACK

Attack Date: September 15<sup>th</sup>; 1940

Inner Chart: England; 1801 – Middle Chart: WWII; 1939 - Outer Chart: attack from Hitler Sept 15<sup>th</sup>; 1940 (time unknown)

## ASTROLOGICAL CONDITIONS OF ENEMIES

The ruler of England's 7<sup>th</sup> house of open enemies is Mars which is located in the 8<sup>th</sup> house of the attack of those enemies. Transiting Saturn was conjunct the cusp of the natal 8<sup>th</sup> house and was soon to conjunct natal Mars in Taurus. The attack in England took place a year after Hitler invaded Poland, on September 1940 when transiting Jupiter was conjunction Saturn while conjunct England's natal Mars.

At the day of the attack, the ruler of the 12<sup>th</sup> house of hidden attacks from enemies [Mercury] was transiting Virgo conjunct Mars by 0° orb in conjunction the cusp of the

natal 12<sup>th</sup> house. Also, on the progressed chart set for the month of the attack, progressive Mars the attacker was conjunct natal Moon in Cancer in the 10<sup>th</sup> house, the house of nation's destiny.

### **Almudebit – One Champ and Only**

UK's Almudebit is Jupiter. Pluto by transit was smashing down natal Jupiter by conjunction/assembly; it resulted in many destruction and deaths. England resisted until May 1941 when the Nazi's *Blitz* was interrupted. The Almuten of the figure as commonly said is the victorious planet of England's radix. Jupiter is the great benefic of the planets. It was a very fragile period for UK. Transiting Pluto in the 10<sup>th</sup> house presages an altered destiny, marking a period of complete transformation in government and the initial and vast consequences it causes.

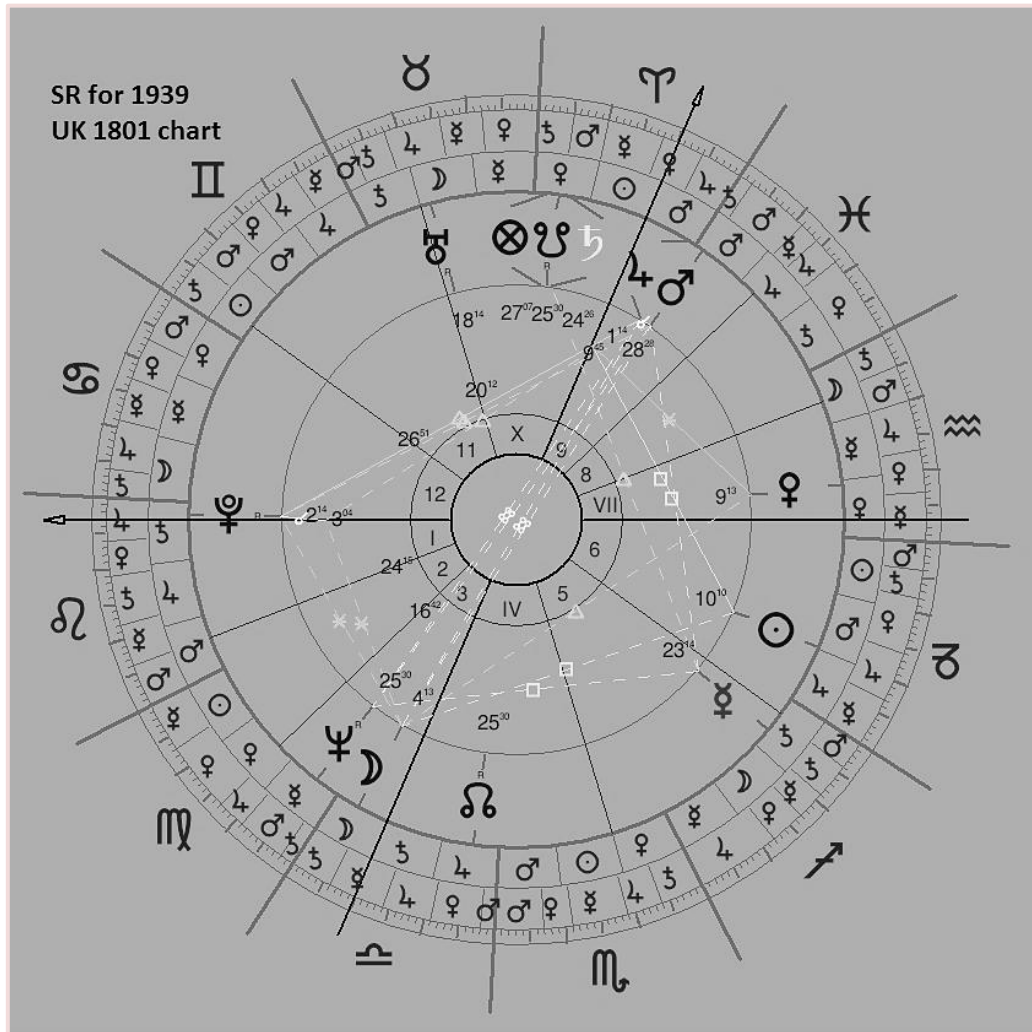

### **The Sects**

In the mundane chart of UK, Sun in Capricorn was exactly at midnight and thus conjunct the cusp of the 4<sup>th</sup> house of the Moon in the southernmost place of the chart – England 1801 has a *nocturnal [Moon] Sect*; Venus in Aquarius is careless while *out of Sect* while detrimental Mars is in Sect and promised to operate at its finest.

Venus in the 5<sup>th</sup> the house of the Sun is combust in the nocturnal Sect – people can become fanatical about the one in power, for them although, this may be seemed rather entertaining and impersonal once the planet falls in the sign of detached Aquarius. For example, during the WWII the cinema was booming; industries began rising once again and so were employments. Even when the depression was still looming from 1939 until 1946, the golden age of a new culture was emerging from within; telegraph.co.uk writes that despite the terrors of war "...there was no shortage of entertainment." The famous British "*The Wizard of Oz*" was nominated for Best Picture in 1939 for example.

Mars is detriment in Taurus and occupied the 8<sup>th</sup> house of Mars-Pluto but tempered in the nocturnal chart – the army is overly protected, also they are owners of patience when having to participate on war. The detriment of Mars ruler of 7<sup>th</sup> house of open enemies can be quite rude in treating the enemy, for example the independent.co.uk says Churchill during the Bengal famine in 1943 hated the Indians saying: "*They are a beastly people with a beastly religion. The famine was their own fault for breeding like rabbits*".

**ENGLAND' SOLAR RETURN 1939& THE ARC OF THE ATTACK FROM HITLER**

The Luftwaffe German's aviery forces bombs England's RAF. The famous *battle of UK* took place when Pluto was rising in the solar revolution of the year 1940in England. The prior 57 bombings were consecutively and strategically executed. Pluto trines the Mars-Jupiter conjunction, which in a Solar Return grants success, but when in opposition, in this case it is opposite Moon, it indicates a year of a great loss:

Regiomontanus Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♂	C →	☉	254.539	1940.09.15

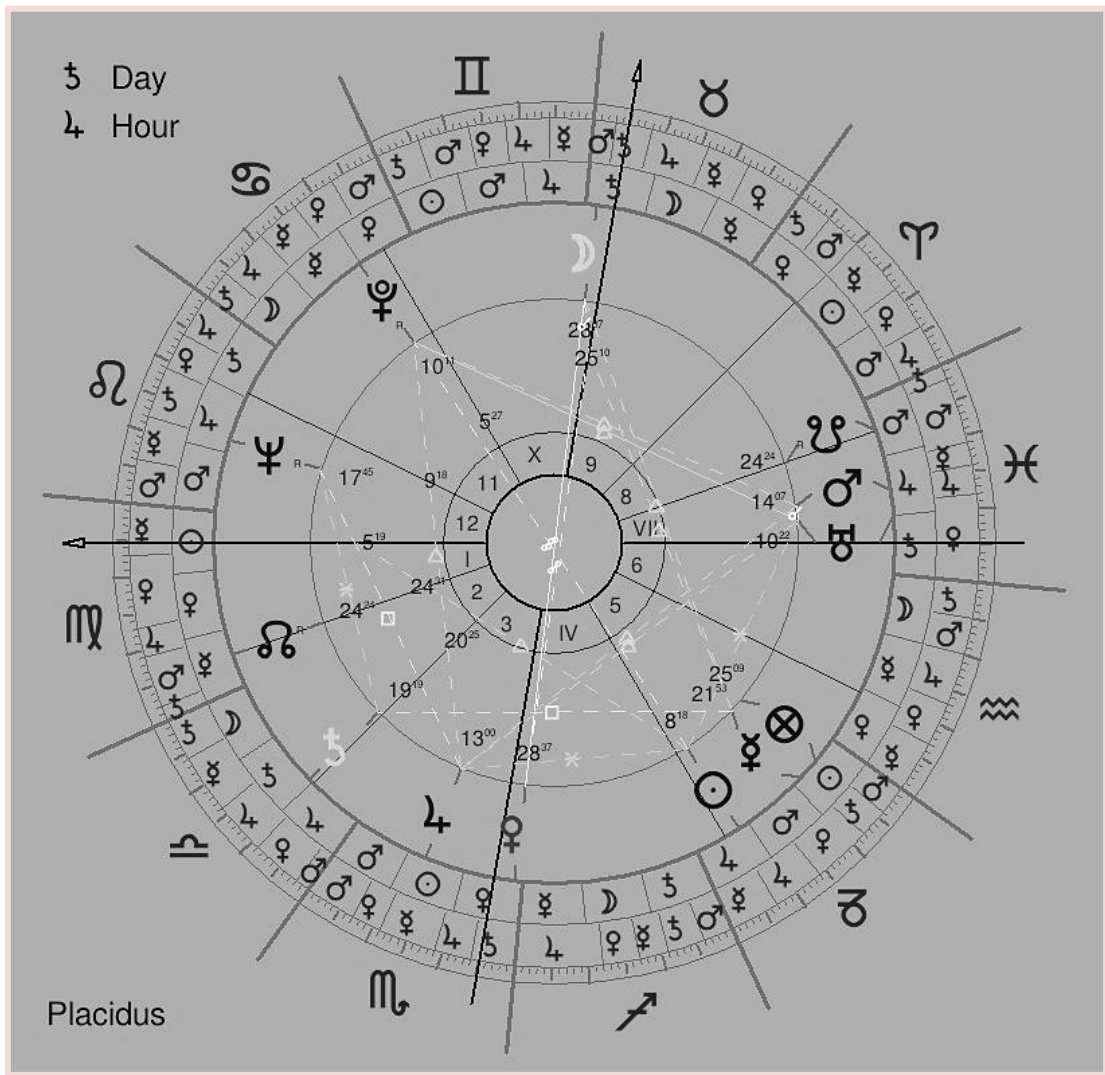

– If we direct promissor Mars to the position of the signicator Sun converse, by calculating under the Regiomontanus system of direction and the Zodiacal position of the planets, we obtain the exact date of culmination of the Battle of Britain on

**September 15<sup>th</sup>, 1940; the key of Naibod was indeed the “key” to unlock the exact date when Luftwaffe explodes RAF.**

*“Where Napoleon failed, I’ll obtain success, I’ll disembark on the England’s beaches.”* – Adolf Hitler at someday feeling menstrual

In the Solar Return Mars is opposite Neptune and is term-ruler of 8<sup>th</sup> house while Neptune is ruler of 8<sup>th</sup> house of enemies’ attack. Mars is then ruler of the 7<sup>th</sup> house of open enemies in the mundane chart of England and is the planet of attack, of course. The Sun in the same chart is ruler of 11<sup>th</sup> house of the nation’s aviary army and planes – the RAF itself. It is a converse direction, and thus more puissant than that of *direct direction* in such case. Now, by considering priority the sign the Sun rules, that is, the house cusp of Leo in the Solar Return of 1940, the sign is rising, the nation’s first acts. Prior to these events on August, British RAF bombs Berlin.

## URSS under STALIN, 1922 - MUNDANE CHART

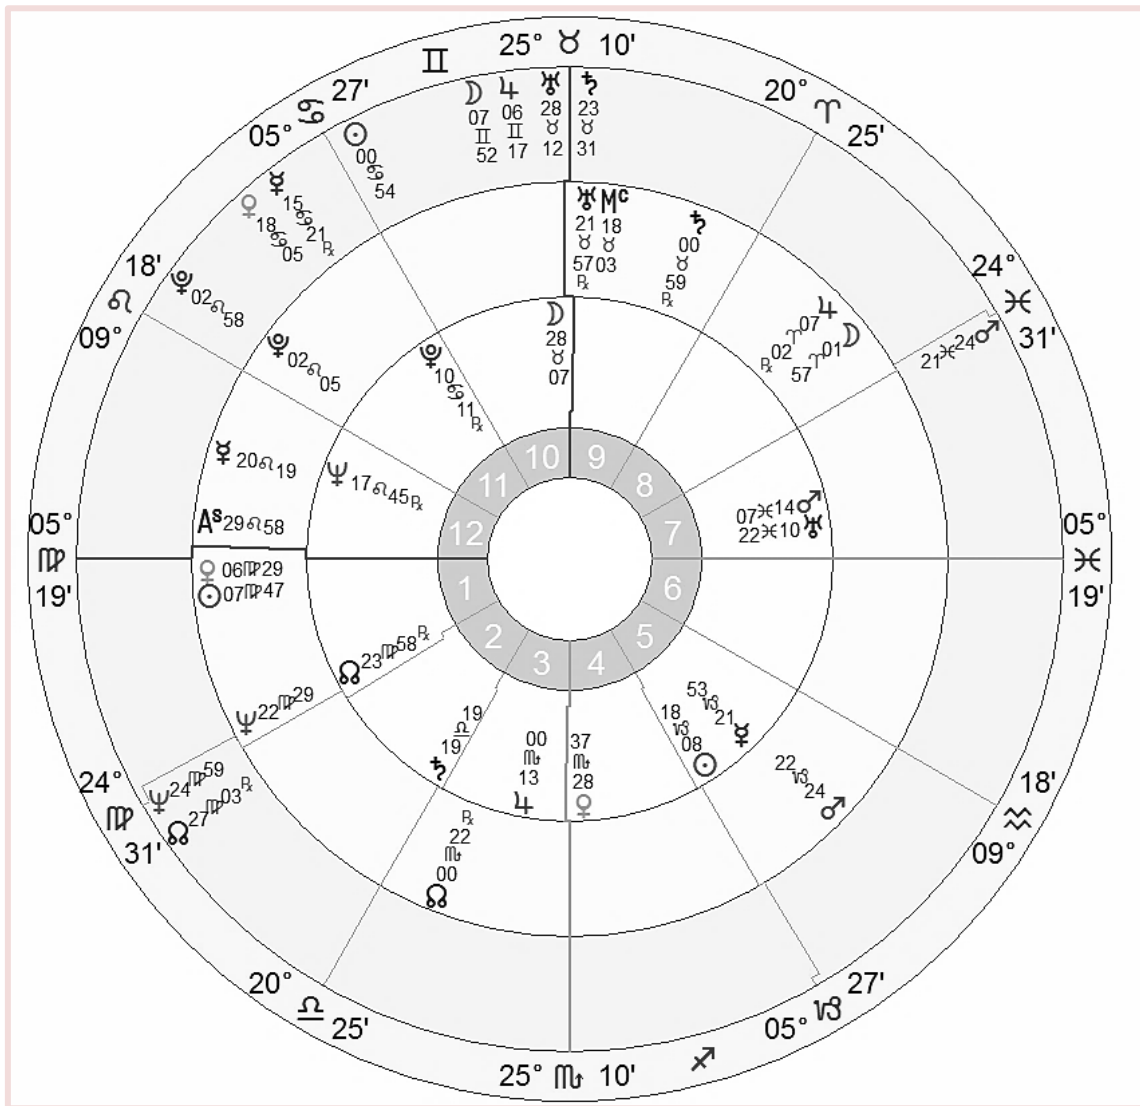

Date of December 30<sup>th</sup>; 1922 at 08:27:22pm [Moscow/Russia] - (Dusky's Rectification)

-----

*Astrodata.com* marks their information with letter *B*, it means the time is not certain for me; thus my rectification. According to their sources, it would be “sooner or later” than 8pm. It doesn't change much; the sign rising is the same (Virgo). The difference lies on the lunar nodes, which in my rectification they fall exactly on the cusp of the 2<sup>nd</sup> and 8<sup>th</sup> house axis. The Grand Trine in water signs is activated in both charts, but here the Moon is even closer to the cusp of the 10<sup>th</sup> house.

# URSS- THE WWII & THE ATTACK

Attack Date: June 22<sup>nd</sup>; 1941

Inner Chart: URSS; 1922 – Middle Chart: WWII; 1939 - Outer Chart: attack from Hitler June22<sup>nd</sup>; 1941 (time unknown)

## ASTROLOGICAL CONDITIONS OF ENEMIES

Exactly a year before on June 22<sup>nd</sup>, 1940 France signs the armistice.

Natal URSS's Uranus-Mars conjunction falls in the 7<sup>th</sup> house of open enemies. It means attacks from enemies which are unexpected and out of timing, powerful enemies with thirst for action and followers of dreams. Before Nazi's invasion, Hitler and Stalin signed *political pacts of no aggression* between each one's nations. The Moon-Jupiter-Eris in Aries conjunction falls in the URSS's 8<sup>th</sup> house, a betrayal was going to be big and violent.

Mars at the day of the attack was conjunct URSS's South Node by 0° orb as well as the cusp of the 8<sup>th</sup> house – this was karma unresolved. Realize that all major attacks until now, the 8<sup>th</sup> house is the mostly heavily involved. This is an astrological correspondence of Mars as traditional ruler of this division, Pluto and Scorpio all in one. The incident war marked the greatest treason of Hitler to himself, and the others were soon to betray him as well. This is the chart that led Hitler to suicide.

Observe the attack had occurred as soon as the Sun entered territorial Cancer at 0° degree, the summer solstice in the north hemisphere. The same date Napoleon had crossed Niemen to Moscowa century and 2 decades prior; Hitler was found a fan of Napoleon. But his glamorization over picking up dates analogous to Napoleon didn't help to furnish further success. Hitler was aware of Russia's power, and for years had he been expressing his feelings towards a regime that seemed too crucial for not to care enough, such as the killing winter they seemed not to be prepared, the large army and of course, an immensity of territory to go through etc. Hitler had prophesized his own fall years before his ascension to power while in prison:

*"The simple fact of an alliance with Russia is an indication of a next war. Its partnership would be the end of Germany"* – Adolf Hitler; Mein Kampf (my fight/struggle – Dusky's translation).

It was an unexpected war and Hitler were battling 2 fronts, which Stalin thought he couldn't or wouldn't; watch transiting shocking Uranus culminating in URSS's 10<sup>th</sup> house while conjunction natal Moon. Stalin at first doubted the attack when told by the secret service - thus his initial failure which could have prevented millions of deaths from both sides, but did Stalin cared about deaths caused by it? The discussion is over two blood-thirsty dictators.

It was a battle against charts with *Grand Trines* each, but URSS had it in water signs, while the WWII/Berlin chart had it in earth signs. WWII chart shows the grand trine with planets Mars, Uranus and Neptune, URSS chart had in Mars-Uranus, Jupiter and Neptune; the grandness of Jupiter suggests the potency of luck and Pluto the planet discovered in a catastrophic period caused by humans. Neptune doesn't help the forming of war, but the development of new ideals and the communism, something found of Stalin's; Uranus then helps the overnight approach to radicalism in both charts.

### **Almudebit – One Champ and Only**

URSS's Almudebit is Saturn. Here we see the same case as the USA's chart; the victorious of the figure seems to be protected as there are no malefic aspects from malefic planets. However, Venus the co-significator is being opposed by Saturn-Uranus in Taurus, peace is literally threatened but not entirely defeated; a vulnerability period of being attacked, yet not totally destroyed by the enemy. Again, Germany and Stalin's

URSS previously signed papers of no aggression, the known *Molotov-Ribbentrop pact*, in which by the night was destined to be broken and changed the course of the war Hitler and the Nazis didn't imagined it would/could.

It was soon recognized as the hugest attack with the greater number of soldiers thus far in all history, once it took more than previously planned, and thus most costly. In this battle, Hitler and the Axis sent about 4 million soldiers to Russia, forming a front of 2,9 thousand kilometers (transiting Moon-Jupiter); also about 600 thousand vehicles (transiting Mercury in territorial Cancer) along were sent over and 800 thousand horses (transiting Jupiter).

### **The Sect**

In the mundane chart of URSS, the Sun was in Capricorn is conjunct the cusp of the house of the Sun while the Moon is exalted in Taurus and culminating – *URSS of 1922* has a *nocturnal Sect [Moon]*; while Mars in Pisces is *fine-tuned* in Sect, Venus is at fall and distracted out of Sect; strategic actions are often assertive but relationships are forced and many of the times, out of their contexts – for example, URSS had to join Allies never before imagined (USA for example).

Mars in the 7<sup>th</sup> house is tempered in the nocturnal Sect – it is in a place comfortable for the planet according to it; the planet secures by shielding itself to guard its own interests rather than taking reckless actions. The nation's army is rightly stimulated; strategies are usually successful with international affairs and inside its own territories and general population (*Mars rules 9<sup>th</sup> and 4<sup>th</sup> houses*).

Venus at fall in Scorpio in the 4<sup>th</sup> house is ruler of 10<sup>th</sup> house; false attractions of values and not attracted to form close relations to neighborhoods, Venus also rules the 3<sup>rd</sup> house. Japan for example isn't the greater fellow of Russia and hasn't signed a peace treaty since the end of WWII.

**of June 21<sup>st</sup>; 1941 – The attack according to the Nazis should've had happened on May, it was delayed and on June 17<sup>th</sup> Hitler ordered the attack to happen on 22<sup>nd</sup> June. The Arc has a delay of one day according to the key of Naibod.**

In the SR chart of Russia for 1940, Venus is term-ruler of the 8<sup>th</sup> house of enemies' attack, while Saturn is in terms [bounded] with Venus, the planet Saturn is the *Almudebit* of the chart, that is, the *victorious of the figure*. It is complex to my understanding to direct Venus, a planet of peace to an event which brought blood and death, yet Saturn the victor is still malefic and the event is indicated by the significator, the promissor is much more the cause provoked that generated such outcome. It seems that Venus directed to the event of tragedy actually can alternate it by further victory, despite the initial violence. This is also seen by the planetary period in the SR (complete interpretation in *results #1*).

2 – Still not satisfied 100% with the result above, I found another Arc providing the date of the attack but even more interesting, it also indicated the noted failure of Hitler in the SR of Russia. We can discover the situation happening that at the time is not *intellectually* know, the enemy's conditions and primary indications, that is because the date given by the Arc below, the 7<sup>th</sup> house ruler is directed to malefic Neptune:

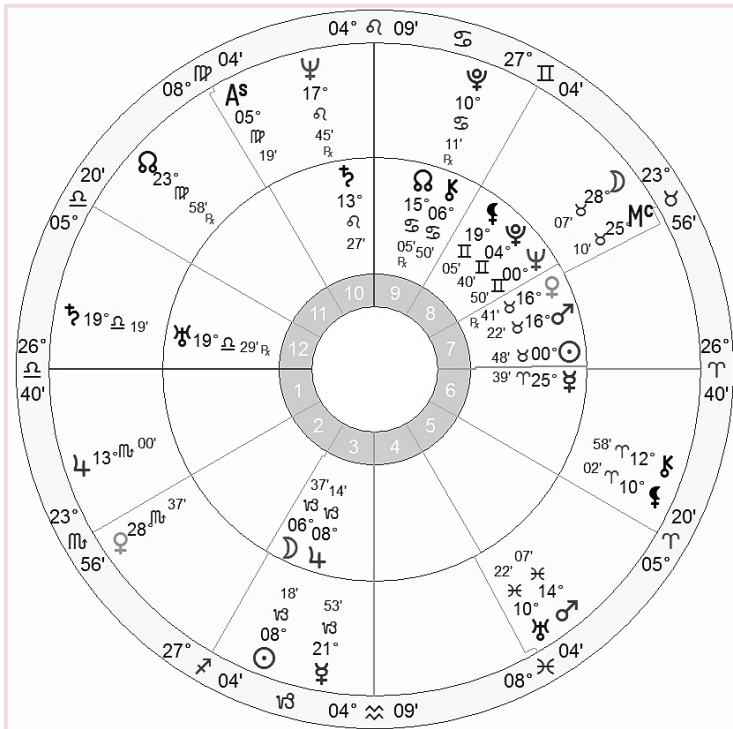

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
M	♀	C →	△ ♀	171.766	1941.06.22

**- If we direct the trine of Mercury to Neptune Converse in the mundane position with the latitudes of both planets, we obtain the exact date of the attack on June 22<sup>nd</sup>; 1941. Neptune in the Solar Return is trine Moon, ruler of 8<sup>th</sup> house of enemies' attack.**

In the SR of 1940, the URSS's 7<sup>th</sup> house of open enemy's ruler is Mercury so is its term ruler, while Neptune is the 7<sup>th</sup> house ruler of URSS mundane chart. The trine here may suggest the winning part of the mundane chart of URSS as time developed to the end of the WWII and the delusion from the enemy's part (Neptune). The planet in the Solar Return is ruler of the 4<sup>th</sup> house of major beginning and endings.

Also, Mars in SR of URSS located in the 12<sup>th</sup> house of hidden enemies revealed beforehand an unprepared enemy and reckless attack. This was the event taken by Hitler which inverted/conversed all his fortune and the Nazis towards world's Armageddon & the repopulation with only Germans.

**THE SYNASTRY – HITLER AND URSS; THE CHART THE NATION HE COULDN'T DEFEAT – THE MOON & THE 8<sup>TH</sup> HOUSE POWER**

**Inner Chart: Hitler – Outer Chart: URSS (rectified); 1922**

The synastry of Hitler and URSS shows URSS's nation Moon in Hitler's natal 8<sup>th</sup> house. This means power from the enemy the native can't comprehend rationally.

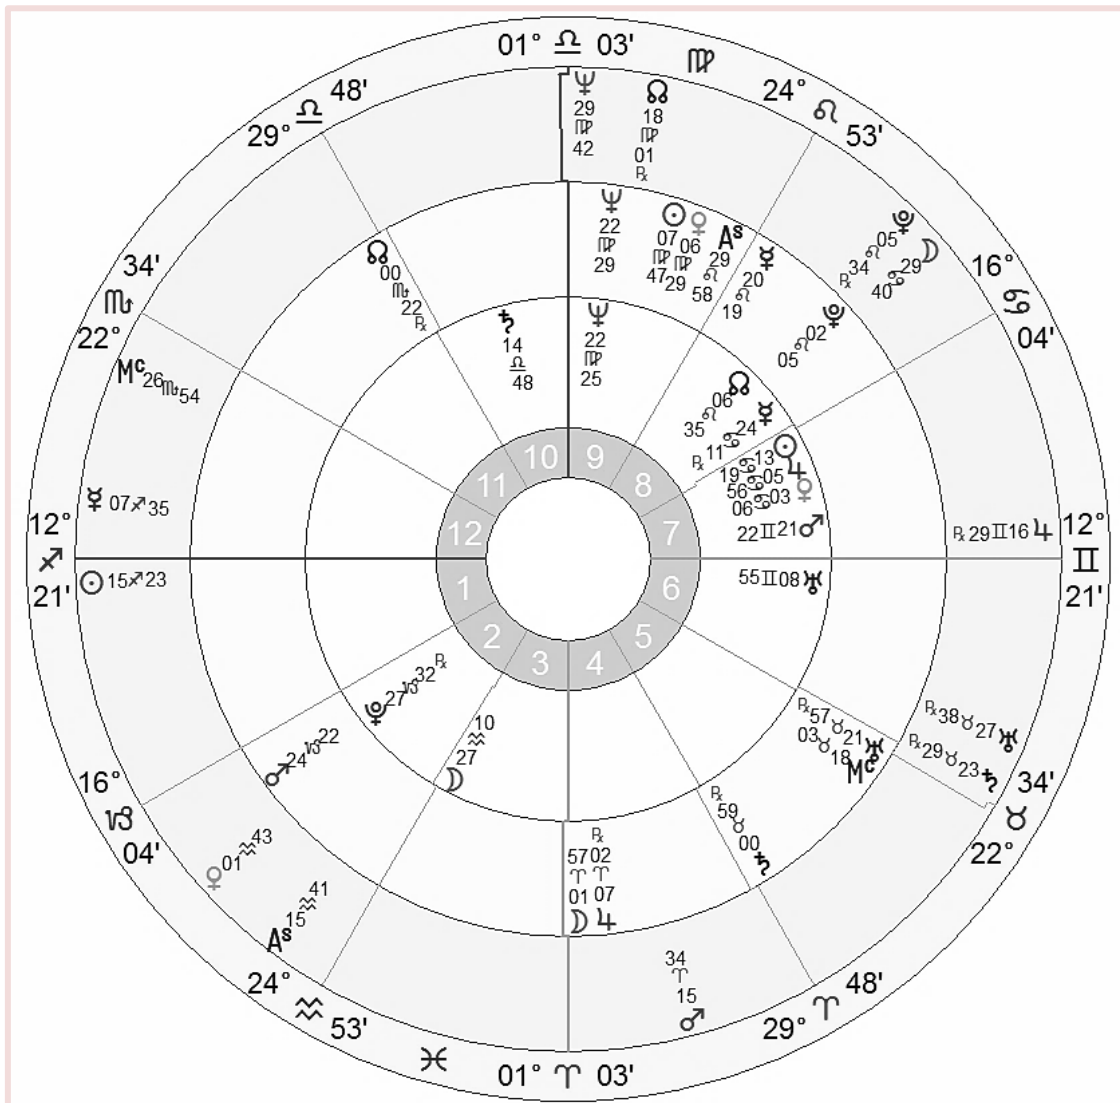

People with their Partner's Moon in their natal 8<sup>th</sup> house lose control to and assume the other has it, as the Moon rules over the unconscious, as if the person or Nation has the Moon in "Scorpio" over the native's. The Taurus Moon of URSS is exalted. URSS' Saturn conjuncts Hitler's

Uranus in Libra, reflecting back the authority of the country trusting Hitler at first; once conquered Poland they happily shared territories, then the pact of friendship came, and finally, the invasion occurred. Then Saturn of URSS was about to teach Hitler a hard lesson; when Hitler was losing to the soviets, he was also losing his mind at this point, under cocaine given by his own doctor with others medicines (the addiction), the betrays, the attempted murders on him etc.

The URSS nation/mundane and Hitler/genethliacal had opposite Venus, the planet of relationship and the ability to maintain a social order in order to keep harmony. The opposition corresponded to the lack of objectivity between the parts and the understating of values of the other. It became a *war of/on ideologies* between Hitler and Russia – notice URSS's Neptune conjunct Hitler' Saturn in the 10<sup>th</sup> house. The synastry of Hitler and Dictator Stalin however, things are smoothly as their apparent "friendship" was, which then changed overnight; nothing alarmist shows in their synastry – actually Stalin's Sun, Venus and Mercury is in wide conjunction to Hitler's Moon-Jupiter conjunction.

## USA- THE WWII & THE ATTACK

### Attack Date: December 7<sup>th</sup>; 1941

Inner Chart: USA; 1776 – Middle Chart: WWII; 1939 - Outer Chart: attack from Japan Imperial  
December 7<sup>th</sup>; 1941

#### ASTROLOGICAL CONDITIONS OF ENEMIES

This attack however, was from Imperial Japan on Hawaii in the morning of December 7<sup>th</sup> when transiting Moon in Cancer was conjunction Pluto in the skies and natal Mercury in Cancer, ruler of the 7<sup>th</sup> house of open enemies of USA – all happening in the 8<sup>th</sup> house of strategic hidden attack from enemies. United states of America was not officially at war in the physical sense (until the attack on Pearl Harbor), but it was financing the nations fighting against the evil military Axis of the time: *Berlin, Rome and Tokyo*.

We are seeing a chart of a nation that really accepts the other, at the same time, such love can become hate in instant; Jupiter with Venus and the Sun suggests popularity among the countries of America and of the globe as well. Nonetheless the configuration provides many international fanatic [religious & political] enemies, once Jupiter symbolizes international affairs. USA's 7<sup>th</sup> house of alliances and open enemies is a house full of personal planets along with Jupiter the first social planet. The mundane chart also suggests the enemies are well hidden and powerful, and sometimes they can pass by as friends; this is mainly because Mercury ruler of the 7<sup>th</sup> house is opposite Pluto, ruler of 12<sup>th</sup> house of enemies the nation doesn't know about. At the same time, it indicates international partners and alliance that favors their form of thinking and *pure intellectual intentions*, when Mercury sextile Neptune ruler of the 3<sup>rd</sup> house in the 9<sup>th</sup> house of international business.

At the day of the attack, it hadn't been so far Pluto conjunct USA's North node in Leo in the 8<sup>th</sup> house of death and regeneration. It was payback moment. When it happens, it is usually because the nation attacked first (USA actually boycotted by cutting off their supplies to Japan (*see results #1*)).

Notice the chart of the WWII, the Moon-Jupiter-Eris in Aries conjunct the USA's 4<sup>th</sup> house of fresh beginnings and major ends as well what we call homeland, as well as the places near ocean/water.

### **Almudebit – One Champ and Only**

USA's Almudebit of the chart is Jupiter, the planet in its exaltation in the sign of Cancer. Like the same situation with URSS, the Almudebit seems to be protected from malefic influence. However, the cosignificator natal Moon was square by the transiting Saturn-Uranus, predisposing the vulnerability of being attacked, yet not totally destroyed by the enemy.

### **The Sects**

In the mundane chart of USA, the Sun is in territorial Cancer and conjunct the cusp of the 8<sup>th</sup> house of Mars-Pluto – USA has a diurnal Sect, and both Jupiter and Saturn are above the horizon circle, the planets are *fine-tuned* according to the Sun's position in the wheel.

Saturn in the 10<sup>th</sup> house is powerfully tempered in diurnal Sect and its quality is to excel – the social planet that integrates the individual into responsibilities; Saturn is exalted in Libra and in the house it most adores, because it is the planet's house [Capricorn is the 10<sup>th</sup> sign]. Also, what they value as freedom is highly accepted and easily afforded; Saturn is ruler of the 2<sup>nd</sup> house of freedom. It also means the mainly USA's resources are usually long-lasting and quite shared into pieces. Here we see the

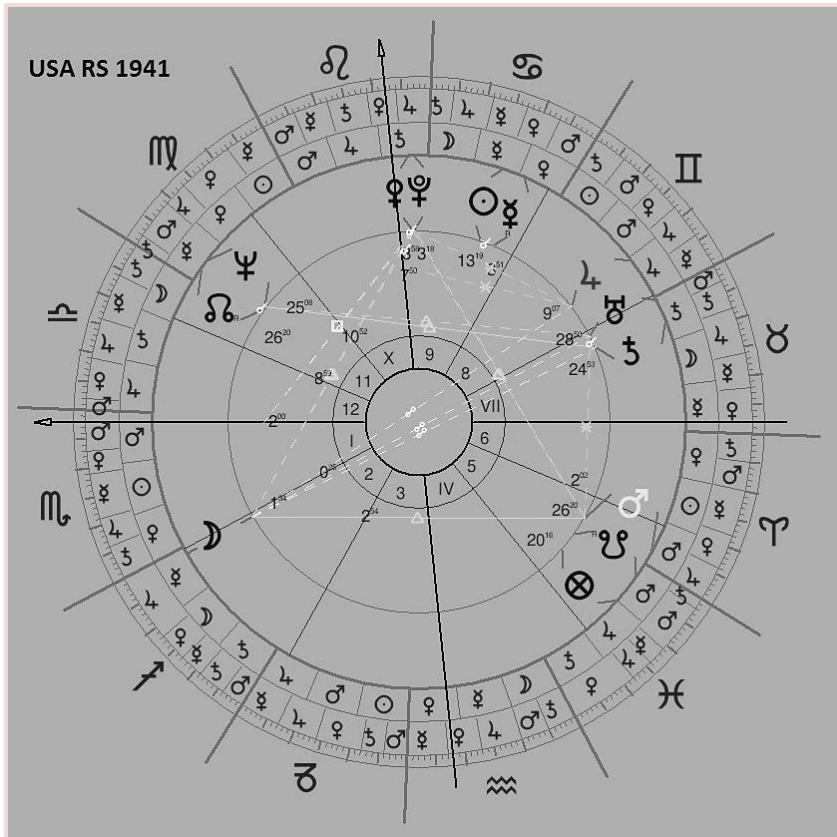

many states of America reunited and sharing a particular land in common, where each land has its own rules and jurisdiction.

Jupiter in the 7<sup>th</sup> house of allies and adversaries is exalted in Cancer, and is conjunct many of the personal planets; it is tempered in diurnal Sect and its exaggeration is translated by the vast territory and opportunities to the natives as well as to the foreigners or new citizens. Jupiter is ruler of the USA's 1<sup>st</sup> house and conjunct the Sun and Venus. It is easy for the people to become fanatical about their own nation, international affairs (Sun ruler of 9<sup>th</sup> house of issues from abroad), and the army and for many, the duty is taken as pleasure instead of a burn (Venus ruler of 6<sup>th</sup> house). USA is quite known for its high patriotism with fanaticism among many people of the world as well. Jupiter rules the color of green, there is the famous *green-card* program to become an American citizen; the *international planet* occupies the 7<sup>th</sup> house of *significant other citizens*; Jupiter is the *juicer*, that is, it promotes *international citizenship*.

### **The 12<sup>th</sup> sign Ascendant Protection + Protected Mars of USA at the day of Pearl Harbor Attack**

Protected Ascendant of USA at the day of the attack was the sign of Scorpio [rooted in the cusp of 12<sup>th</sup> house of hidden enemies], then protected Mars becomes important for the native in order to forecast events related, because Mars turns the *lord of the year*, or *ruler of the nation's year*. Ascendant is at exotic 24° degrees, the same degrees of Mars when WWII started. Protected Mars is conjunct 4<sup>th</sup> house of USA's waters, and at the day of the attack it was square natal Jupiter, the Almudebit of the chart and ruler of natal 1<sup>st</sup> house.

**USA'S SOLAR RETURN 1941& THE ARC OF THE ATTACK FROM JAPAN**

The attack is/was better known as *the battle of Pearl Harbor*. Observe the grand trine in fire signs (Moon, Mars in domicile and Pluto) activated by fast Moon in the SR of USA for 1941. There are 2 Arcs which confirmed the attack from Japan; instead of culminating a planet, I anti-culminated in the direction. Watch how below.

The attack was planned to hit the lagoon harbor on Hawaii; the ruler of the 8<sup>th</sup> house of duels and enemy's attack is Mercury, which is also ruler of the 7<sup>th</sup> house of open enemies in the mundane chart of US. Observe the Moon in fire Sagittarius but opposing Uranus-Saturn conjunction in Taurus. The mundane conjunction brings overnight and unexpected turn of events. Mercury in the Solar Return trine Asc and square Mars ruler of 1<sup>st</sup> house:

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♁ ♀	D →	♀	152.097	1941.12.07

– By directing promissor Mercury to the opposition of Venus direct, by Placidus method or even Regiomontanus and the Zodiac position of the planets, while configuring the latitude of the promissor and only, it is obtained the exact date of the attack. The task force of Japan's Marine aimed to attack in surprise the US Pacific fleet parked on Pearl Harbor on December 7<sup>th</sup>, 1941.

Here we find Venus again in a direction corresponded to a violent event/period (the same occurred in URSS's Arc). In the SR, Venus is term-ruler of 4<sup>th</sup> house of USA's

waters and is house ruler of both 7<sup>th</sup> of open enemies and the 12<sup>th</sup> of hidden enemies. Venus is part of the Grand Trine and is at the top of the pyramid alongside Pluto in fiery Leo. Despite the attack on Pearl Harbor, the Americans officially entering in the combats, initiated the retreat from the Germans while preventing them going towards east.

Some speculated the fact US actually forced the attack from Japan so they could officially enter the war. It makes clear when I wrote *“At the day of the attack, it hadn’t been so far Pluto conjunct USA’s North node in Leo in the 8<sup>th</sup> house of death and regeneration. It was payback moment.”* For example, US froze the commercialization of Petrol to Japan when Japan invaded north of Indochina. Japan wished to expand its empire to China’s import market, and USA responded by economic sanctions and trade embargoes. But if we look closely enough, the SR of US for the year of the attack suggests the nation to be participating in secret in the international sphere with allies. Pluto, ruler of the 1<sup>st</sup> house of the nation’s body is conjunction Venus the ruler of the 7<sup>th</sup> house in the 9<sup>th</sup> house of what is abroad/foreign; also they are conjunction the cusp of the 10<sup>th</sup> house of the US’s reputation for that year. However, the Venus-Pluto exact conjunction sextile Jupiter, ruler of 5<sup>th</sup> house of gossips, which by the way, is the planet of term ruler of the conjunction. It suggests big speculation which made US look bad at the world at large (Venus-Pluto square cusp of the 1<sup>st</sup> house).

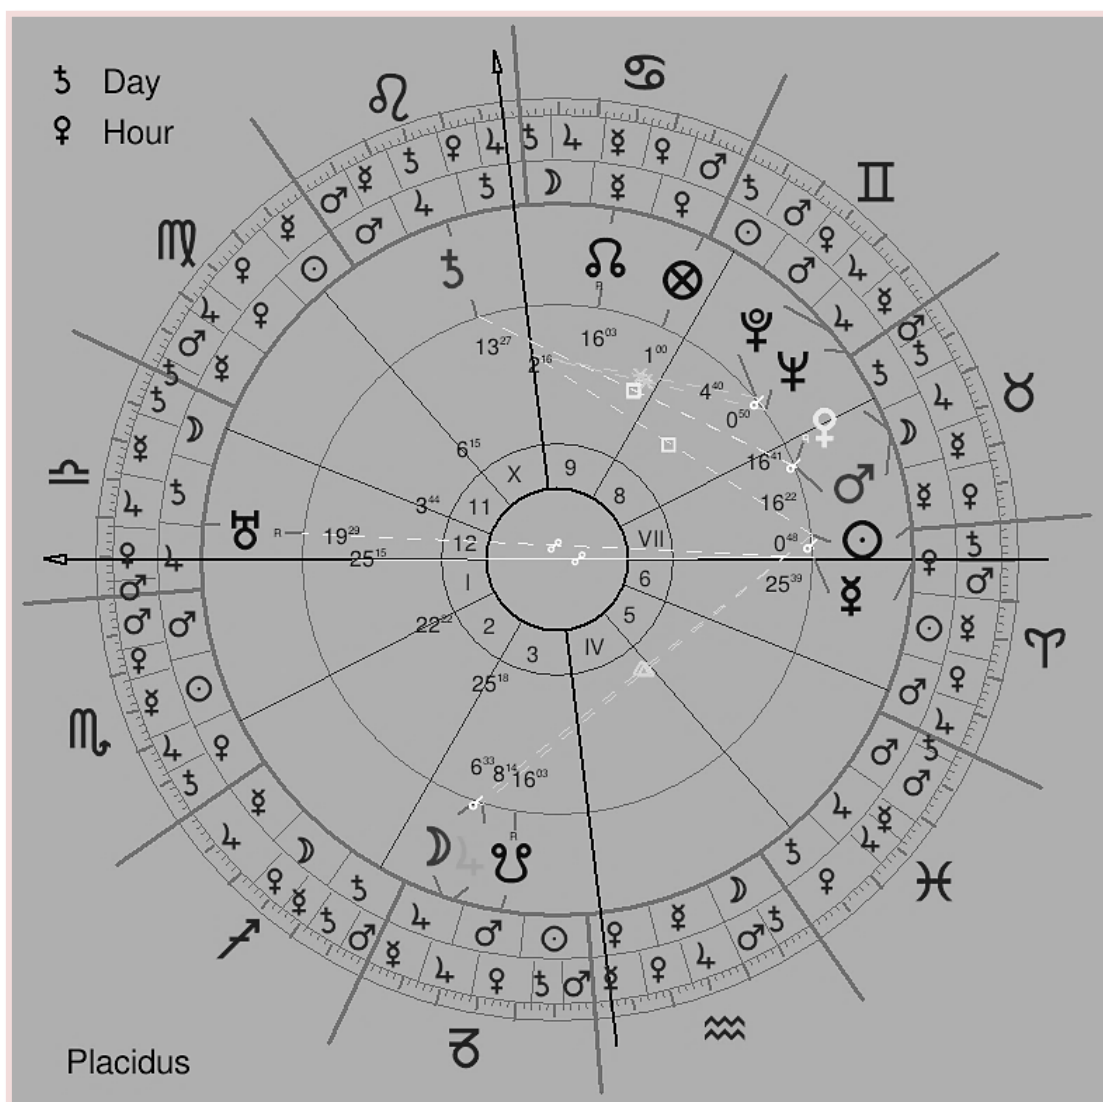

*Declaration of War:* by directing Venus (ruler of alliances) to the square of Mars (“god of war”) converse, it is obtained the date of December 8<sup>th</sup>, a day after the attack, when US, Canada and UK declared war to the axis of evil.

*Important observation about Mercury – the transporter:* Another direction correspondent was when it is directed promissor and *Alcocoden* Mercury to its own anti-culmination, by Placidus method of semi arc direction and the mundane position of the planet, it is obtained the date of December 4<sup>th</sup>; 1941. By directing communicator Mercury to the grounds of USA’s water, it is found the exact day when Japan’s *Task Force 8* was communicated to shape back to Pearl Harbor under the command of Vice Admiral William F. Halsey Jr. and was slated to arrive at the Pearl Harbor on the afternoon of December 6<sup>th</sup>, but due to weather on December 5<sup>th</sup> they had to attack by surprise only on the morning of December 7<sup>th</sup>, 1941. Note that Mercury as promissor in both Arcs is retrograde, and the planet is ruler of everything that *transports*.

**THE CHART &  
THE RISE AND FALL OF HITLER  
MAJOR ARCS & TRANSITS**

## HITLER GENETHLIACAL CHART

Date of April 20<sup>th</sup> 1889 at 06:30:00pm [Branau Inn/Austria]

Many sources indicate Dictator Adolf Hitler was born at 6:30PM— The tyrant was born the exact day the Sun changed from Aries to Taurus, the sign of possession. The Moon was detriment in Capricorn – emotions are rather cold and the native may feel nothing for others they consider elementary, and they speak with certain cruelty (3<sup>rd</sup> house of speech), the chart of an autocrat – the result is expected to be somewhat crude and unresponsive. Even when Libra is rising, the sign of peace, Hitler was well known to love (Venus) a war (Mars) and the blood it caused, and in some occasions he certainly had death-wish. The wide conjunction of Sun and the exact of Mars-Venus in Taurus and in the 7<sup>th</sup> house of projection are somewhat quite vicious for the native to own genethliacally. The most personal planets involved as one invoked a personal Stellium that is square detrimental Saturn, ruler of dictatorship/tyranny.

# THE RISE AND FALL OF A GOLEN

## HELL HITLER

Hitler was a German dictator that ruled a certain period of time the Nazi government under a totalitarian system/ regime which had caused the tragedy mostly known to us as the *Holocaust* and finally triggering the *WWII* in the midst of the 20<sup>th</sup> century.

### Generation Placebo

Hitler was from the Neptune-Pluto conjunction in Gemini generation, the sign of information and communication. The sign of primary learning of all things, the basics of writing or the professional writer, all those books which from generations ago many authorities have given ancient knowledge amplified with the contemporary period of each one's time, are always the result of people with the desire to know the truth [Gemini-Sagittarius polarity].

- *"Our mission was, within 2 hours to free about two to three thousand man from the wrong notions they possessed, to attract them to our ideas, to our doctrine."* – Hitler in Mein Kampf (chapter V) explaining his party wasn't looking to conquer the masses but to convert what they went "erroneous" about according to him.

### Adhering Radical Ideas & Likeability

- *"In those times, we always used to ask ourselves the distressing question: will the people come to our meetings? Would they be willing to hear us?"* – Hitler remembering in his Mein Kampf (Importance of Oratory; chapter V) the time he used to do rallies back in the twenty decade.

Hitler was the face of many German's in a revolution they thought would unleash a new species of man – the "Aryan race" mystified while imagined as pure and supreme above others that didn't *share their Aryan blood*. Who wouldn't like to be told you are special, pure, magical and unbreakable all together in times of chaos and dramatic circumstances? Such preaches are perfect introduction to new world order in a very strategic context, in other times, the same speech could cause more laughs. In my view, the idea of supreme race superior above human could only be a super-human or an Alien with better capabilities than ours and to whatever the idea of God/Supreme intelligence may be. Hitler thought their body could mutate to a higher kind of species by eradicating the inferior ones. Uranus the Alien planet, is conjunct the 1<sup>st</sup> house of body, the planet that when applied to the house of personality, revealing a person mad about ideas of the body and transcendental experiences relative to the mind of the collective and the assemblage they represent. But this thought wasn't his exclusive ideas but a long shared concept by others *new age* movements suggesting a "higher

*race*” of beings existed, believing it shall exist once again, and some nationalities claim to own the prestige such as the *Aryan secret doctrine* followers, a racist sect that proposes illumination of body and soul through the color of skin and birth status. Mercury is in Aries and the planet of ideas is ruler of the 11<sup>th</sup> house of cosignificator Uranus the planet of groups, where in his chart is located in Libra, the sign most likable in the entire Zodiac wheel which by the way, is rising (*cusp of 1<sup>st</sup> house*) in the chart of Hitler’s; whatever Hitler spelt while in power, his people heard with ecstasy while seemed to be hypnotized or enchanted.

### **The Devil’s Speech**

Since 1919 Hitler was the 7<sup>th</sup> member of the German workers party, and before in 1908 Hitler had already entered in an anti-Semitism league. Planet Mercury is the best body to look after ones speech and information processed and it falls in Aries in the 6<sup>th</sup> house of military of services but it still conjunct the 7<sup>th</sup> house of open enemies. Aries is the first fire sign and the first sign in the entire Zodiac, its innocence violence in speech attracted people of passion and those whom wanted winning. Aries can be polemic, but many of the times its intentions are sober and instantaneous, and not really promising. The anti-Semitism he preached and encouraged was Mercury targeting the potential open enemies, the warm tone of Hitler’s voice could be felt worn like a thermal cape by the people who followed him while feeding his ambition to the top (Mercury in bounds with Saturn):

- *“...after my conference about the treaty of Versailles headed to the troops, and while qualified as “instructor”, I changed my orientation and began speaking about two treaties, that of Versailles and of Brest-Litowsky, the last always irritated the auditorium.”* – Hitler in *Mein Kampf* (chapter V) showing how he knew what irritated the people, how to conduct and instigate people to hate through discussion and by conducting discourses of “malefic” nature.

Another place to analyze where one’s speech falls (the style of it), is found in the 3<sup>rd</sup> house of cosignificator Mercury and Gemini, in Hitler’s case, Sagittarius occupies the cusp of the house, transferring the idea of big and exhaustive speeches, the Moon is there is conjunct Jupiter in Capricorn, the coldest sign within Zodiac’s perspective. Mercury in his chart is also the ruler of the 9<sup>th</sup> house of Jupiter; Jupiter expanded his abilities as orator while the speeches seemed as powerful as of a *god* to his followers. When Julius Streicher (prominent Nazi member) endorsed Hitler in Nuremberg, he said *“I saw that man likely before midnight”*, sounding almost mystic he continued *“after he addressed for more than three hours, drenched in sweat, radiant. Someone by my side thought to have seen a halo around his head, and I experienced something that transcended the common-place”*. People/followers like Julius Streicher were pulled in like magnetic and described Hitler as *“divine”*. Joseph Goebbels the Minister of Propaganda of the third Reich once declared *“...while reading one of Hitler’ speech and*

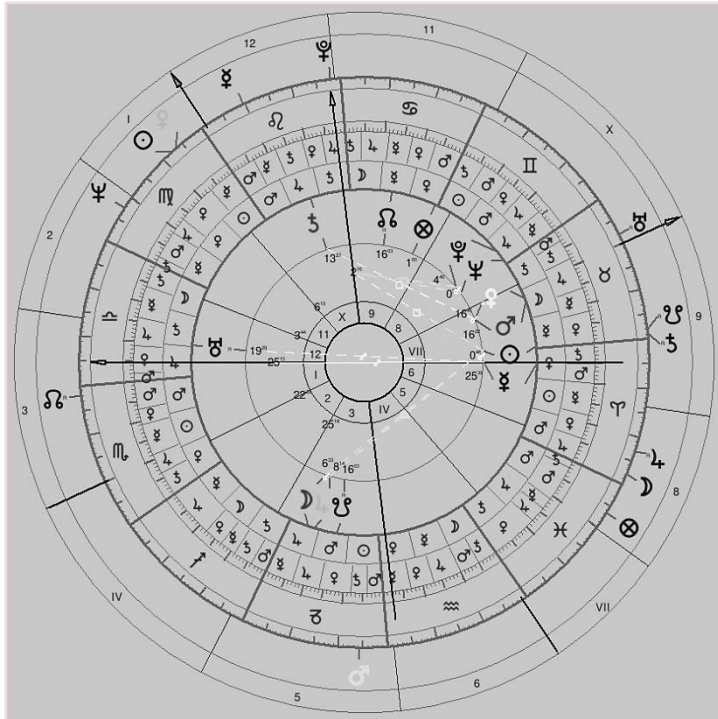

*I get inspired and raptured to the stars"; and when attending to a Weimar's meeting in July 1925, Goebbels added "What a voice. What gestures, what a passion. Exactly how I wanted him to be".*

Hitler and the war through him was also a form of projection (7<sup>th</sup> house). Hitler accused the Jews to govern the society under *Plutocracy*. Although not formally introduced to politics, Plutocracy is a form of government where the richest and wealthiest of the nation control the power over all, originating a form of oligarchy. Ironically, the *Nazi system* supported the Plutocracy inside their system but within their own terms. This occupation of Mercury makes people talk about in public other's fault without realizing they are the owners of such quality. Mercury is very tricky, and in this case the planet is assured with the opposition of malefic Uranus in Libra, located in the house of lies one tells to him/herself [the 12<sup>th</sup> place]. Another example lies on the fact Hitler was syphilitic but made it clear that for him, the bacterial infection was a form of "Jewish disease" – reflecting back his own disease but projected upon the Jews.

### **Love for War& Depravation to Others**

The personal planets of *love and war* are of course, respectively Venus and Mars. When these two planets are combined, they are likely to enjoy aggressiveness, in some cases, love for war, and the combat that involves interests and personal values. In Hitler's case this happened towards the others, the others one considers significant of hate; although Hitler considered the Jews insignificant, apparently they were the significant reason for his hate, the exact Venus-Mars conjunction of Hitler's falls in the 7<sup>th</sup> house of open enemies. If not enough, Mars is ruler of the 7<sup>th</sup> house of open enemies while Venus rules the 8<sup>th</sup> house of enemies' resources. The Almudebit in Hitler's chart is Venus. Many Hitler's friends or associates of his past/present were sent to death when the chance presented itself. A life led with no mercy towards the other.

Hitler was reflecting back all things he couldn't deal with himself, the speculation and possible truth about having Jewish blood, the mental illness in middle-war, the depression, the intercourse with family members, he being syphilitic, the lies and betrayals, etc. Before the failure in Russia in December 1941, Hitler expresses his feelings about Germany's destiny to ministers from Denmark and Croatia that he'd care less about the soldiers that don't have the courage to fight back and that he didn't "*intend to cry out for the German people.*" Hitler was from streets, prisons and bars and he was well known for his discourses and frenetic speeches since earlier in youth. He had pure malice and nothing actual to lose, which was even more dangerous. But his chart suggests he was as well very influenced by others in power (ruler of 10<sup>th</sup>house in the 7<sup>th</sup> house of significant other), and they knew Hitler's gift by firstly studying his astrological chart [at least I think they did].

## Hitler & Powerful Ambition

Inner Chart: Hitler – Outer

Transits: start of WWII

- “Once in power, I will never let it be taken away from me.” – Hitler

By the transits in the year of 1939, Hitler’s Sun was being seduced by Saturn myth at the core, the planet was conjunction his natal Sun in Taurus within 0° orb – this was the time when he felt it coming – the sense of power over a nation, then, *why not*

*further?* He may have thought it. It was a new solar phase for him in terms of responsibilities and demands unto others, as external forces doing their parts while he responded through his genethliacal chart. Transiting Pluto was conjunct his natal 10<sup>th</sup> house but still in the 9<sup>th</sup> house of the foreign, reflecting back his total control at first. The transiting Moon-Jupiter-Eris conjunction in Aries was square natal Moon Jupiter in Capricorn, indeed a beginning to early fall in comparing to the native’s genethliacal condition.

## Diurnal Sect

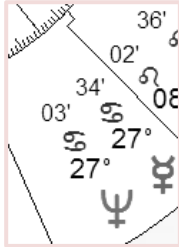

Sun in Taurus is setting down to the westernmost place of the chart, and in the second house of Venus (7<sup>th</sup>) – Hitler had a diurnal Sect; detriment Saturn in Leo is *fine-tuned* and is in comfortable place according to Sun’s position in the wheel, while Jupiter is *unrefined* and not promised to operate at its best while exaggerates without proportions. Hitler had no sense of when to finish, resulting in endless speeches and ideas of the same subject; Jupiter was located in his natal 3<sup>rd</sup> house:

- “These tactics are based on accurate estimates of the human’s fragilities and must lead to success almost certainly *mathematic*.” – Hitler

Saturn in the 10<sup>th</sup> house is tempered in diurnal Sect and others see the native as someone trustful– the social planet that integrates the individual into responsibilities; in this case, Hitler was easily put into politics by powerful individuals. Nevertheless, its detrimental position suggests an “*I am at the top of the world*” approach to everybody else and the malefic essence is somehow boosted, as if the person was in constant *sharpness of triumph* when *at the top*. Author and historian Laurence Rees wrote Hitler

*“Had to sustain the idea he was born for grandness. He had to affirm he was the lord of events, instead of events being the lords”.*

### **Composite Chart – The Towering Deception**

We have to remember the chart of WWII was triggered by Hitler's party; thus this is strongly connected to him. Calculating through the method of Davison Relationship, we discover the chart of the WWII combined with Hitler's that Pluto reaches 0° degree of Cancer conjunction the cusp of the 4<sup>th</sup> house of homeland, that is, self-destruction in its own country as it also conjunct the Sun in Cancer at 4° degrees; then we have Pisces rising, indicating a deception but only later would be known; **Neptune as ruler of the chart is within 6° orbs to the trine of the Ascendant's degrees. The WWII lasted 6 years. But this isn't about the length of the War, but Hitler's deception to come true since the birth of WWII where the cruel decision was set into motion** – there are major and precise Arcs and dates from the WWII's radix instead which can be obtained the end and length of it. I find it disturbing nonetheless.

## THE PUTSCH – HITLER’S COUP DE’ETAT

### Profected 11<sup>th</sup> Sign

It was 11<sup>th</sup> sign profected year, terminating in the sign of Leo which happens to be rooted in the cusp of his 10<sup>th</sup> house. His intentions that year were quite Saturnian no matter what, and remember that Saturn is detriment in Hitler’s 10<sup>th</sup> house of global leaders. We can imagine how the Sun was important that year for him, ruler of 10<sup>th</sup> house of his radix. The Sun was promissor of the direction below. Read now how the profected house along with the direction of its ruler took place in the life of a tyranny. It was the year where Hitler accompanied by the soldiers accomplished the ‘*putsch*’.

### When Promissor Sun directed to conjunct Significator Pluto Perfected in the *Primum Mobile*

Back in 1922 Hitler had been arrested for 5 weeks after causing fuss and chaos on streets. While being arrested he compared himself to Jesus. His radicalism and hate against the Jews intensified during the short period in prison, he had convinced himself he was the best human weapon against them, a savior. A year after, Hitler made as what it seemed, a triumphal entrance at *Bürgerbräukeller* – about a thousand man of SA (assault troops) invaded in, and as if he was king of forest, Hitler came in wearing a black coat with the Nazi symbol stamped on while escorted by two members of SA wearing of the same, he then shots to the sky – the *attention seeker* dictator shot his first bullet to domesticate German and out loud he affirms to be the leader of the new Reich. Göring asks the guests to calmly keep up their drinking night and is invited to join Hitler to a meeting in a reserved room along with Von Kahr, his close associates and Ludendorff. By Hitler’s threat, the big three Von, Lossow and Seisser are obliged to accept his ideals, without having an actual plan in mind. Hitler leaves the room and talk to the people, but had to attend to an emergency on the quarter, leaving all the responsibility to Ludendorff. Von Kahr then telegrams the government soon after:

Regiomontanus Static Key: Cardan					
M/Z	Prom	D/C	Sig	Arc	Date
M	☉	C →	♊	—34.111—	1923.11.17

- by using the Regiomontanus system and the key of Cardan, if we direct promissor Sun to the conjunction of significator Pluto converse and in the mundane [in mundo], we obtain the date around when Hitler and his companies attempted the Putsch at brewery bar *Bürgerbräukeller*; an unsuccessful action that was inverted to victory when the judgment day came about. Worth reminds you that *Lot of Authority* [Asc+Sat-Mo] is conjunct Pluto in the radix in the sign of Gemini.

The date of the Arc is 8 days late. In fact, if I rectify the Hitler's chart for 3 minutes later, we obtain the exact date (8<sup>th</sup>) nonetheless. Here lies a lesson, that sometimes not all directions are perfectly exact – but this direction was pretty clear about “reclaiming power back”. The Sun is ruler of 10<sup>th</sup> house of world' status and Pluto ruler of 2<sup>nd</sup> house of freedom and resource of power, the traditional house of the gates of Hades.

This is the *Arc of Regiomontanus* and the further date given by *the key of Cardan* that unlocked one of the major profound effect of transformation in the life of the dictator; he wanted everybody to know about the power (Pluto) of himself (Sun) as a possible leader of German and would do whatever it takes to overthrow whoever was in power, previously showed by his first attempt by coup. The Sun when it was directed to Pluto converse, it is actually directed inside the 8<sup>th</sup> house of *Putsch*. The next day there Hitler and members marched over Munich where blood by the shooting of the police and the little army *Reichswehr* had occurred, Hitler tried to hide but was caught and sent to jail accused of treason.

When in prison at this period, the future Germany's tyrant began writing the first volume of the *Mein Kampf*, a background curtain that hides Hitler's own fears. It is really a pervert distortion of reality and self-sense of grandness radicalized from the mind of a dictator. The book furnishes itself as a bold statement while romanticizing racism, prejudice, xenophobia, violence and legal assassination/killing. Although off the records, it is said all Germans must have had a copy of the book during the Nazi occupied period. It is known Hitler almost called the volume “4 years and a half of fight against lies, stupidity and cowards” – again, his natal 7<sup>th</sup> house of projection speaking for itself. Hitler wrote the book inside the 7<sup>th</sup> prison cell of Landsberg.

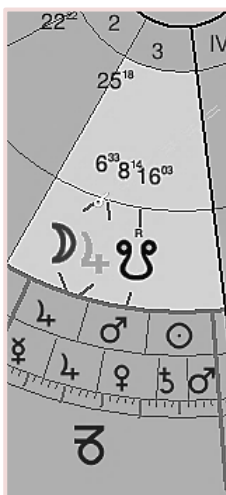

## FORBIDDEN TO SPEAK & MEIN KAMPF IS PUBLISHED

On December 12<sup>th</sup>, 1924 Bavaria's court released Hitler from prison after committing the *Putsch* at the local brewery. Two months already on streets in Munich, Hitler gives a speech at the same place of the *Putsch* at eight o'clock sharp in the evening, with the room filled with more than 4.000 people (it is said a hundred couldn't enter the place) – this was the night Hitler was called up by the title of “*Führer*” (leader) for the very first time ever in public. A few days later, Hitler is forbidden to speak in public in the whole area of Bavaria and then the majority of German's states. The opposition of the Arc was used by Hitler as self-propaganda opportunity at the same time he was being limited by higher commands; the opposition triggers stimulation and asks the native to fulfill the axis with strategy, once Saturn is involved in the direction, and the planet is in terms with itself:

Regiomontanus Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♄ ♃	D →	♄	35.682	1925.07.04

- if we use the Regiomontanus method and the static key of Naibod, by directing promissor Saturn to the opposition of the significator Moon direct and in the Zodiac while applying both planets' latitudes, we obtain an specific Arc that reaches around the date, exact month and year Hitler sent out to the world his book that still today influences the Neo-Nazis groups – also this was the year Hitler was forbid to use his mouth in public places and in groups of people. Saturn is the planet that forbids and the Moon rules the public. This is the direction that marked his eminent uprising, when his *prisoner status* changed to *leader status* in the sight of the German people hungry for another revolution.

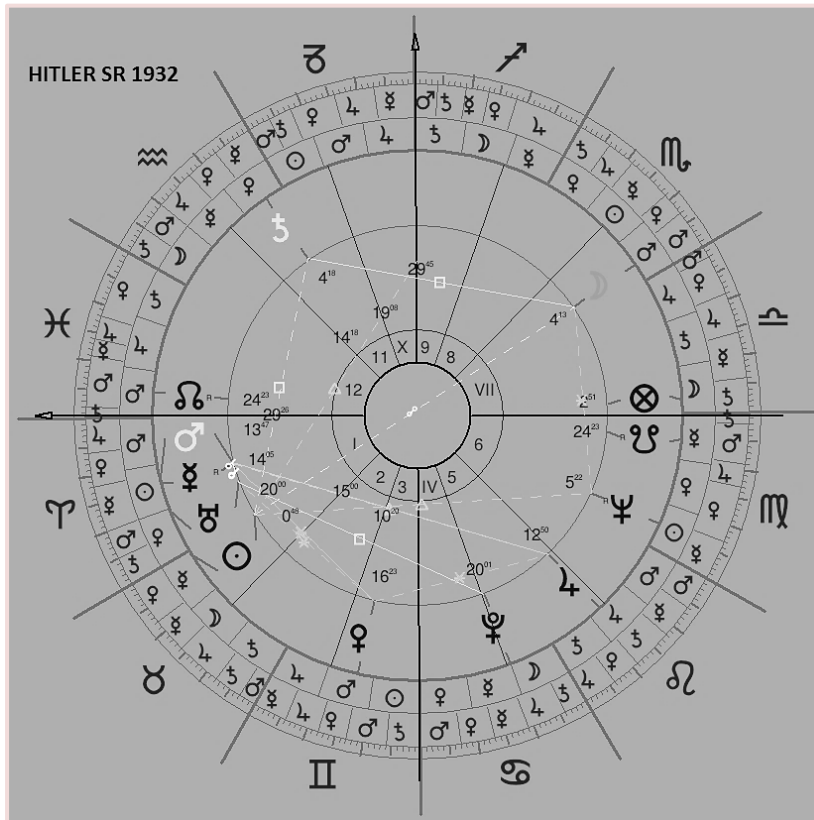

The Moon is located in the 3<sup>rd</sup> house of books and speeches, and the house of the writer conjunct Jupiter the publisher; we can imagine the Arcs and dates of promissor Saturn to both significators Moon and Jupiter to be close by each in years. In order for Saturn to reach the opposition of the Moon, it has to be in the 9<sup>th</sup> house of Jupiter of publishing content and higher orders such as supreme courts. The 1925 was the year Hitler was *silent* about his ideals and obsessions. The Saturn and Moon directions here are also to be found the year and month Hitler published his famous/infamous book *Mein Kampf* (My fight/struggle) – his status from here began reaching new levels of importance to the Germans. The first

volume of the book is sold to about 15.000 readers until the end of 1925; later on, after the Bible, Mein Kampf was considered the best-seller of in German soils, and indeed was/is considered a 'bible' by followers. Before the WWII had arisen by his command, the book sold millions of copies.

**Important Note:** *I found this Arc and its importance after doing the analyzes of Hitler's suicide (see Hitler's Suicide) which involves the opposition of transiting Saturn opposite natal Moon by exact degrees; then I decided to find an Arc of the same quality, thus the primary direction of Saturn to the opposition of the Moon. It seems that when Hitler was being shouting down to speak in public by higher orders, he already had his cards hidden on the sleeves, which were the words of himself published for the entire Germany to read when July 1925 came to them (and thus the world), if it wasn't spoken, it was to be read. As soon as he was known as the 'Führer' among his people, it was clearly in this situation he was revealed as a future leader of Germans, and dies/suicides as one (for his fanatical group).*

## 1933 – HITLER, THE CHANCELER&THE FIRST NAZI’S EXPANSION

The year of 1933 was crucial for both Hitler and the Nazi movement. Despite already being in command, Hitler in January 30<sup>th</sup> is nominated Chancellor of Germany. This was the first step towards national attention and recognition in wide scale, the Nazi took the government to the most dictatorial level as never seen before. Hitler was known as the youngest (43y)

chancellor in Germany’s history.

This was double power for Hitler and his movement and it is proven by the Arc of the Pluto-Mars direction in the Solar Return set for the year of 1932-1933. It was a moment to seize power (Mars) direct from the source (Pluto) – the initial phase of bloodbath. Observe as well the fact Mars is trine Jupiter, ruler of 10<sup>th</sup> house of public or world’s status:

Placidus(semiarc)		Static Key: Naibod			
M/Z	Prom	D/C	Sig	Arc	Date
Z	♀	C →	♂	280.077	1933.01.30

- by using the Placidus Semi-Arc method and the key of Naibod, if we direct promissor Pluto to significator Mars converse in the Zodiac we obtain the exact date of when Hitler is elected chancellor of Germany in January 30<sup>th</sup> 1933.

Pluto in Hitler Solar Return for 1932 is ruler of the 8<sup>th</sup> house, its own house of power and control. Directing the ruler of it to the ruler of the 1<sup>st</sup> house, we are to obtain the

date of the power to direct given to him by external forces. It was the year to claim power alike that of Mussolini.

### 8<sup>th</sup> Sign Annual Profection – Taurus as Terminal Sign

Remember that Pluto [new significator of 8<sup>th</sup> house] was recently discovered by that time (2 years prior), but *Wizard* Hanussen had predicted his victory for that day a month earlier – Hanussen is later killed by Hitler’s order.

A time for glamorizing ideals for Hitler as soon as he became a Chancellor and thought he was some kind of god himself or the “*new Messiah*” that was born with an only purpose, which was to save Germany and his “blood”. The Nazis won 228 chairs in the Reichstag and emergency powers are given to Hitler while concentration camps were already being erected and under service.

- “*I think I am the most musical person of the world*” – Delusional Hitler

It was also the period when Hitler forbids the communists (*natal Mercury direction to communist Neptune in the 8<sup>th</sup> house using both latitudes and Regiomontanus system and key of Naibod*) to ever taking a seat in the new Reichstag, thus reshaping to the dictatorial government. The approach of the Mercury to Neptune was re-writing a culture and the cultivation of distorted ideas into politics, instigating Ministers to vote for adopting adaptive rules as intellectual (Mercury) weapon to detect and delete the considered enemies (8<sup>th</sup> house) – strikes were banished, civil rights dissolved, boycott of Jewish products in mass, the formation of *Gestapo secret police*, working class syndicates were broke down, and [again], burning of books in all Germany happened while Germany withdraws from the League of the Nations.

### Hitler’s Firdaria – 11 Years of Climbing to the Top [Saturn Firdaria]

♄	1929.04.20 - 1940.04.19 (11 Years)
♄	1929.04.20
♃	1930.11.15
♂	1932.06.11
☉	1934.01.06

According to the *diurnal Firdaria*, the year of his nomination as Chancellor had also Mars involved, and here it is sub-ruler of Saturn’s Firdaria. It was eleven years window of Saturn’s strength of climbing to the top – it was a decade of *real*

*responsibilities* and decisions that led Hitler to the top in 1933. The Sun sub-period under Saturn’s command was when Hitler became the official Führer of German, as if it was the “shiniest” or most glorious to victorious period while in ultimate power! We studied his Sun at first in this paper, and we’ve seen how it is positioned in his genethliacal chart and its entire predisposition therein. Remember also that natal Sun/Mars conjunction is square Saturn in the root.

## THE FIRST STEP TOWARDS NAZI WORLD'S ATTENTION

I wanted to find the Arc that most brought Hitler *'fortune', 'fame'* and *'world recognition'* to his persona, thus the direction of the ruler of the 1<sup>st</sup> house of the body to the direction of famous Arabian lot *part of fortune* seen below.

Hitler invades Czechoslovakia on March 15<sup>th</sup> 1939, three weeks before WWII started – with easy, no gunshots were heard and no blood were dropped, it was an ascension time for the tyrant to unleash his horrific distorted power out to the world, the first step towards *Nazi movement* to go without interruption but with luck and admiration from followers at those frightening times. Watch the correspondence to directions:

Regiomontanus		Static Key: Naibod			
M/Z	Prom	D/C	Sig	Arc	Date
Z	♀	C →	⊗	<del>49.109</del>	1939.02.16

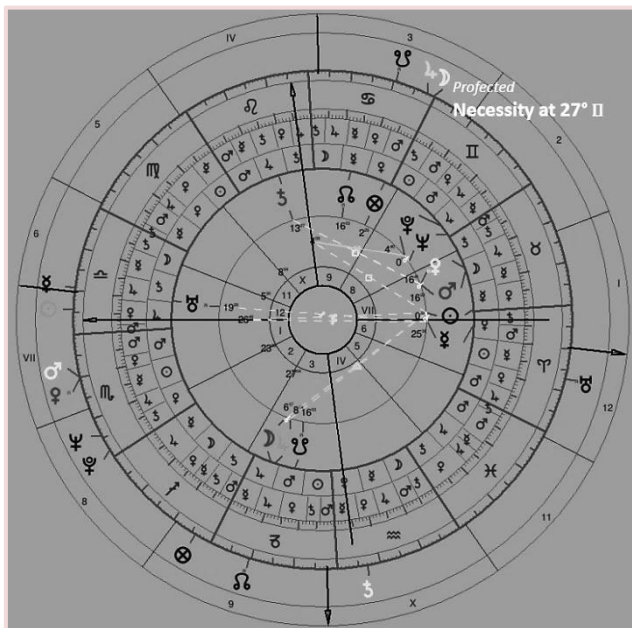

- by using the Regiomontanus method and direct promissor Venus and its latitude to the conjunction of significator *Part of Fortune* converse in the Zodiac, we obtain an Arc in which Naibod gives us the further date of February 16<sup>th</sup> 1939 – a month earlier Hitler's invasion of the Sudetes (the event prior Poland's) that was the actual trigger of WWII, that of Czechoslovakia.

This was also the first time Hitler won real international notoriety. The lot of fortune seemed to be an interesting significator, and is located in the 9<sup>th</sup> house of *"bigger than life"* and what is foreign – on April 28<sup>th</sup> 1939 one speech of Hitler is seen by entire Europe reaching also to USA. Venus, ruler of the 1<sup>st</sup> house and term ruler is the planet of admiration, and is naturally rulership of Libra, which was rising and in terms with itself. Libra ascendant people cause admiration and love of people without much effort, but when they are consciously aware of such fact, they are inspired to inspire even more. Hitler's natal Venus is domicile in Taurus and the planet rejoices while in the sign of the possessor, that is, if the planet had to choose between Taurus and Libra, it would prefer Taurus instead, simple because in astrology Venus is feminine and is nocturnal, qualities Libra are opposite to. Hitler's personality was magnetic for the Germans that wanted to recuperate all what they have lost at the *First World War[WWI]* – Remembering also the fact Venus is also the Almuebit of Hitler's genethliacal chart, the *Victor, or, Victorious of the chart [Almuten of the Figure]*.

On May 22<sup>nd</sup> 1939 while the country was infested with anti-Semitism, disseminated fear, hate and assassination all over the place, Germany signs a pact with Italy, in case of a war they had already decided they'd stand/fight together, and not against each.

## LAST DAY OF THE BATTLE OF STALINGRAD – PROPECTED ENEMY

Although the initial winning phase for the Nazis, it was in this specific battle that the Germans began failing/failures and being defeated, the *battle of Stalingrad* (1942–43) was a turning point for everyone participating. The German's 6<sup>th</sup> army was defeated by the Red Army in desperate house-to-house fighting – they were running out of options after 5 months of bloody intense confrontations, making of Stalingrad a huge monstrous graveyard of rooting flesh as consequence. In 4 days the soviets encircled the enemy when the winter came 40° below 0°, taking the offensive to extremes, assuring victory for the Russians and thus, deception to the Nazis and the beginning of the Hitler's fall as leader.

### Projected Lot of Mercury/Necessity - Enemy

“... from the Lot of Fortune, from Daimon, from Love, and from Necessity, for it is from these points that the critical illnesses, benefactions, and dangers are apprehended.” (Vettius Valens, *Anthologies* (Book IV); Mark Riley trans., 2010, p. 78)

According to Vettius, the *Lot of Necessity* is one of the 4 mainly lots there are in the Zodiac in order to

apply the annual Profections circuiting radix. We shall count on his *lot of Necessity*, for it Vettius associates with enemies, strife and devastation; he wrote that “*If the configuration is afflicted, men are condemned or ruined*”. At the last day of the Stalingrad battle, projected *lot of Necessity* was opposite natal *Lot* [7° Cancer]-Moon-Jupiter conjunction in Capricorn, and by exactness the lot was conjunct natal 9<sup>th</sup> house cusp of foreign lands, and to complete the defeat of the Nazis over Stalingrad by astrological means, transiting Moon and malefic Mars (by 1° degree) were conjunct Hitler's natal *lot of Necessity* the morning when the confrontation was ceased (as well as natal Moon-Jupiter). The battle of Stalingrad brought many catastrophic results, marking one of the major and bloodiest chapters of the entire WWII. The *lot of Necessity* indicates the failures of enemies and also, as in this case, the success of them over the native responsible for the decision in the first place – the first step towards failure while compromising his position in the eyes of his generals. Some authors associate the same calculation, to the *Lot of servants*.

rooms were the furthest to the end. Eva dies by the ingestion of sinuate, also, the sign on the cusp of the 8<sup>th</sup> house is Venus [marriage and ingestion] ruled Taurus[Eva and Hitler married on the eve of their deaths], it also meant death by ingestion and the Pluto-Neptune conjunction tells us beforehand it would be toxic enough to be a certain kill. Hitler however, shot himself to death (*see Death of the Body in the Solar Return 1945*). Venus ruler of 8<sup>th</sup> house and 1<sup>st</sup> house is conjunct Mars, the shotgun and self-infliction pain as well as a quick death in some part of the head (1<sup>st</sup> house).

### **Hitler's Errors to Suicide& the Heavy 8<sup>th</sup> house**

Internationally or continentally Hitler was doing terror without any threats nearby since its presidency in 1934, however this changes in 1941. By detailed and close investigation, we are able to determine errors and mistakes from the individual by observing the decisions under operation of the heavenly bodies, and although it was seemed as great time, it marked as well the sooner end of his own life. This is the *Electional astrology*, which many people discredit for ignorance. For example, when transiting Saturn was in and out of conjunction to Hitler's Pluto and Neptune conjunction in the 8<sup>th</sup> house, *the fall and reverse of supremacy* was set as soon as he decided to direct 75% of the army to Russia, then practically lost his mind when *declaring war* to USA on December 11<sup>th</sup>; 1941, four days posterior the Pearl Harbor event – there were lessons of limitation for the native in order to command attacks carefully, because this is the house of revenge coming from others while it also means shortage/scarcity of resources for combat – fortunately, Hitler in public discredited astrology more for the sake of ideology because he knew the occult studying of it under the Thule society even before he went into power in the 30's.

### **Profected 8<sup>th</sup> Sign (Genethliacal Chart)**

It was the same *Annual Profected Ascendant's sign* [rooted in the cusp of 8<sup>th</sup> house of suicide/death] when Hitler became Chancellor in January 30<sup>th</sup> 1933 – exactly 12 years and 3 months prior to the suicide.

### **Suicide in the Aspectual Arc (Genethliacal Chart)**

This coincides with an *Arc of self-inflicted gunshot*; the opposition of Mars-Moon in the radix by primary directions confirms the event of the suicide. The Arc is obtained from Hitler's genethliacal chart and it coincides with position of promissor Mars with the same location transiting Saturn was at the time of the suicide. Mars in his natal chart is also square natal Saturn. Observe the direction:

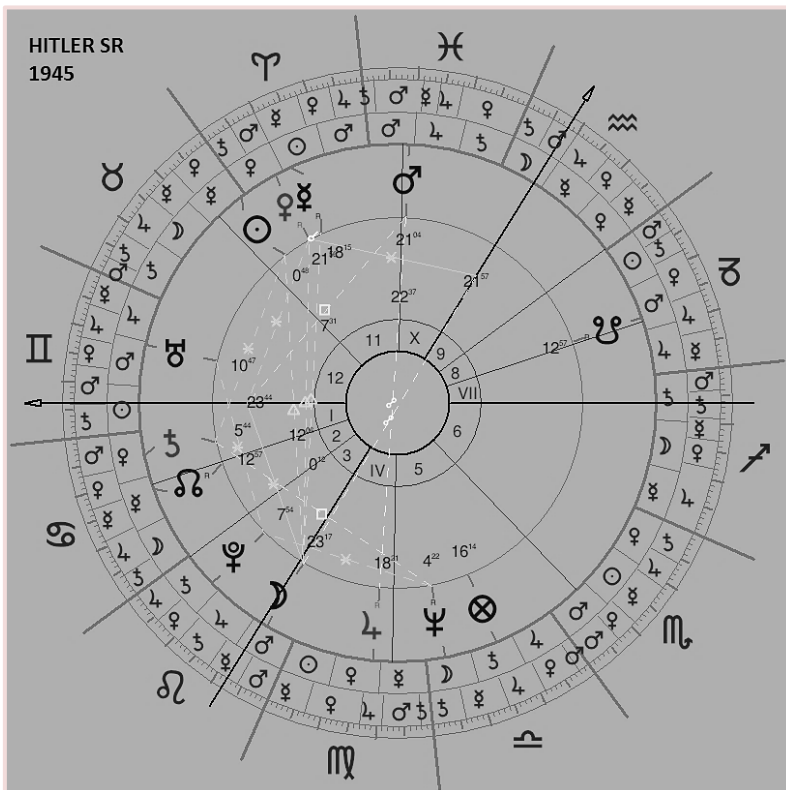

Placidus(underthepole) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♂♂	C →	☾	—55.237—	1945.05.06

- by using the *under the pole* method of Placidus and key of Naibod in order to correct Arc's date, and the planets' position in the Zodiac, if we direct promissor Mars to opposition of signicator Moon converse, we obtain the date around Hitler's body expiration, but with a certain delay of 6 days, which irritated me. Yet, I had to keep in mind this was a case of suicide, perhaps when you are the one taking your own life, it seems to dribble destiny somehow.

Anaereta (*killing planet*) planet Mars is the planet of self-infliction and the Moon was as it seems, the *Hyleg* of Hitler's genethiacal chart according to Bonatti's judgment, and his Moon was in Capricorn, the sign that kills with no mercy, but they indeed think twice before doing it. Mars is ruler of 7<sup>th</sup> house of the significant other and conjuncts natal Venus; he dies with recent married Eva, a partner that lived with the dictator for over 13 years prior to their deaths.

#### Death of the Body in the Solar Return 1945

Analyzing the position of annual Saturn [SR 1945], it is positioned in the 1<sup>st</sup> house of body and is ruler of 8<sup>th</sup> house of death in the Solar Return set for 1945. Astrologer Alexandre Volguine in his book entitled *"The technique of Solar Returns"* (p. 77) writes that when Saturn is in the first house of Solar Return it "...seems to demand effort beyond the native's strength and frequently indicates a person

physically and emotionally exhausted. It frequently indicates a year of struggle-success or failure depending on the overall Solar Return." He adds the fact it is the position of

Saturn in the Solar Return in the year Blavatsky died (set for home in London and not her place of birth). Blavatsky was the founder of the Theosophical society.

Now here is where it gets even more interesting, in the Hitler's Solar Return 1945 – nine days after completing 56 years old, Hitler uses a gun on himself. The Solar Return of his death is almost the same Profected Ascendant by degrees. Profected Ascendant is at 26° degrees Gemini, the Solar Return is rising Gemini at 28°degrees. Mercury is then found to be very important for primary directions concerning his body. The 1<sup>st</sup> house rules over our body in general but especially the head – Hitler shoots himself in the head to death. Gemini's rulership is of course, Mercury. Observe by yourself:

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	☉	D →	☿	8.948	1945.04.30

**- by using the Placidus method of primary direction and the key of Naibod, we direct in the Zodiac the promissor Sun to the direction of significator Mercury direct, it is obtained the exact same date/day of Hitler's suicide on April 30<sup>th</sup> 1945 at 15:30m, Berlin.**

The Sun is life, and he took it off the vital (Sun) force of his body (Mercury ruler of 1<sup>st</sup> house). The Sun here is the ruler of 4<sup>th</sup> house of major endings, and more, the Moon is conjunct the cusp of it – indicating a quite private death with people or animals close to his heart: his dog and Eva.

# **THE CHART& THE DROPPING OF THE ATOMIC BOMB ON HIROSHIMA**

Albert Einstein  
Old Grove Road  
Peconic, Long Island  
August 2nd, 1939

F.D. Roosevelt  
President of the United States  
White House  
Washington, D.C.

Sir:

Some recent work by E. Fermi and L. Szilard, which has been communicated to me in manuscript, leads me to expect that the element uranium may be turned into a new and important source of energy in the immediate future. Certain aspects of the situation which has arisen seem to call for watchfulness and if necessary, quick action on the part of the Administration. I believe therefore that it is my duty to bring to your attention the following facts and recommendations.

In the course of the last four months it has been made probable through the work of Joliot in France as well as Fermi and Szilard in America--that it may be possible to set up a nuclear chain reaction in a large mass of uranium, by which vast amounts of power and large quantities of new radium-like elements would be generated. Now it appears almost certain that this could be achieved in the immediate future.

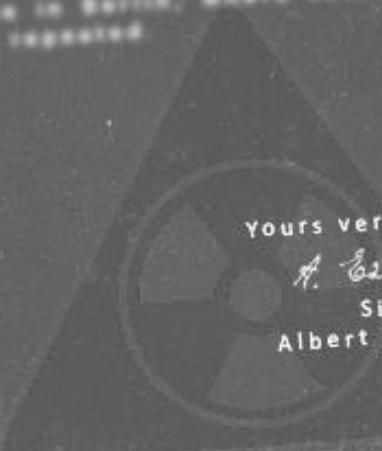

This new phenomenon would also lead to the construction of bombs, and it is conceivable--though much less certain--that extremely powerful bombs of this type may thus be constructed. A single bomb of this type, carried by boat and exploded in a port, might very well destroy the whole port together with some of the surrounding territory. However, such bombs might very well prove too heavy for transportation by air.

I understand that Germany has actually stopped the sale of uranium from the Czechoslovakian mines which she has taken over. That she should have taken such early action might perhaps be understood on the ground that the son of the German Under-Secretary of State, von Weizsacker, is attached to the Kaiser-Wilhelm Institute in Berlin, where some of the American work on uranium is now being repeated.

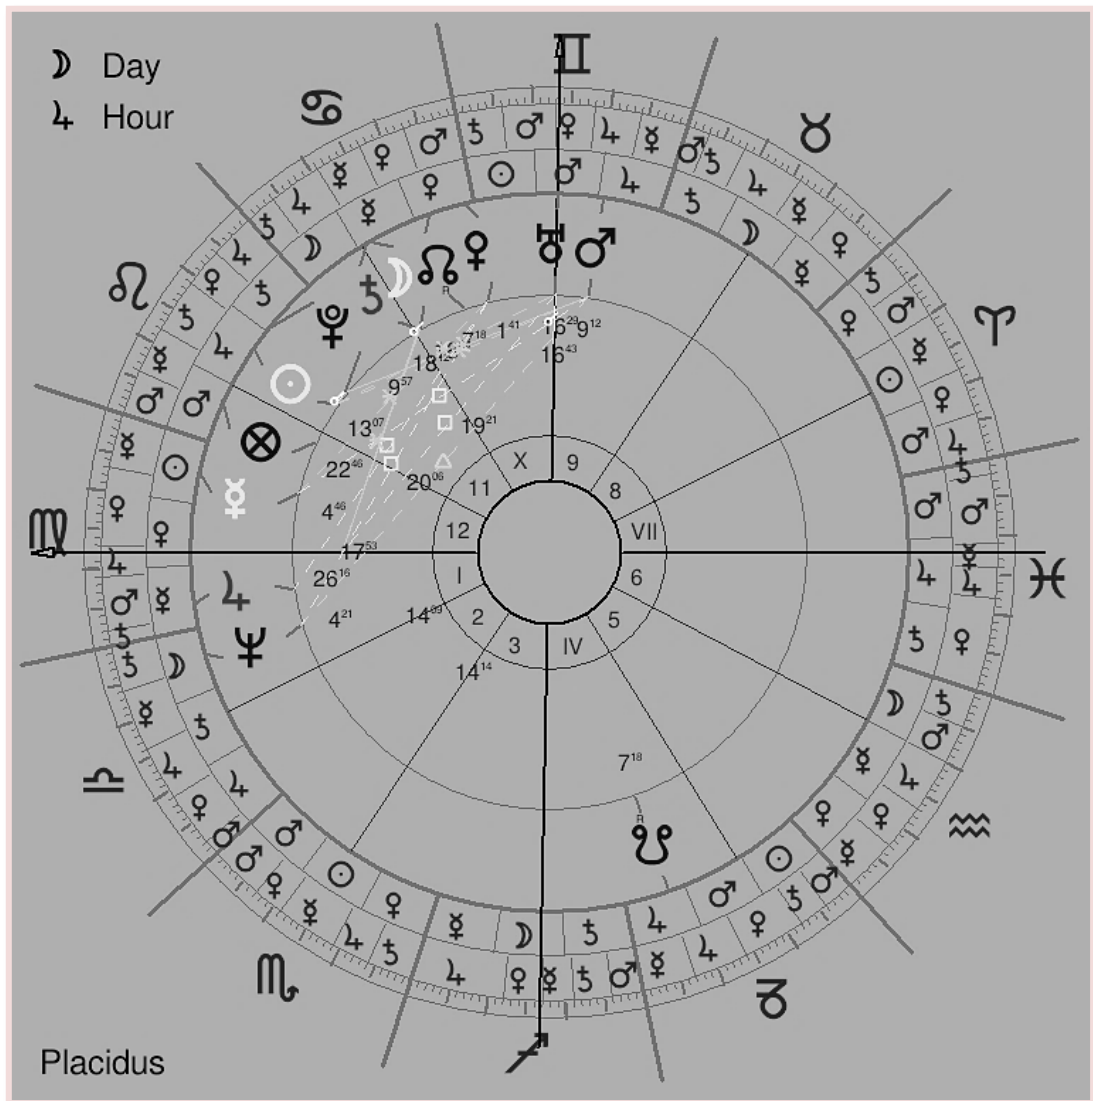

Yours very truly,

*A. Einstein*

## ATOMIC HIROSHIMA

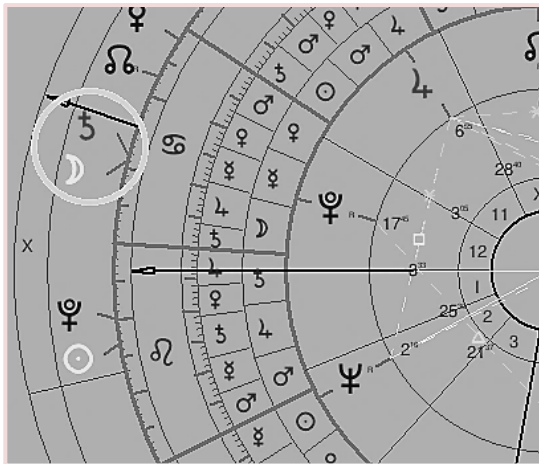

Date of August 6<sup>th</sup> 1945 at 08:16:00am [Hiroshima/Japan] – Atomic Bomb  
nicknamed as ‘little boy’

---

There is no mystery here; the atomic bomb was dropped at the time written everywhere. This was the time where US used one of the most powerful weapon human has ever created. The name of the airplane responsible was *Egnola Gay* the *American B-29 bomber* from the 393<sup>rd</sup> bombing squad, piloted by Paul Tibbets and after him by major Thomas Ferebee – the plane which aimed southwestern Japan on the Island of Honshu/Hiroshima, dropped the atomic bomb while immediately killing more or less than 80.000 people from the blast, while 35.000 were seriously injured. The city was flattened in seconds. *Little boy* carried 64 kilos of Uranium-235 and took 44,4 seconds to explode from 580 meters above the city. The mission was called *Special Mission 13*. At the day of the attack, transiting explosive Sun was at 13° degrees Leo.

## THE BLAST – NUCLEAR POWER ACTIVATED

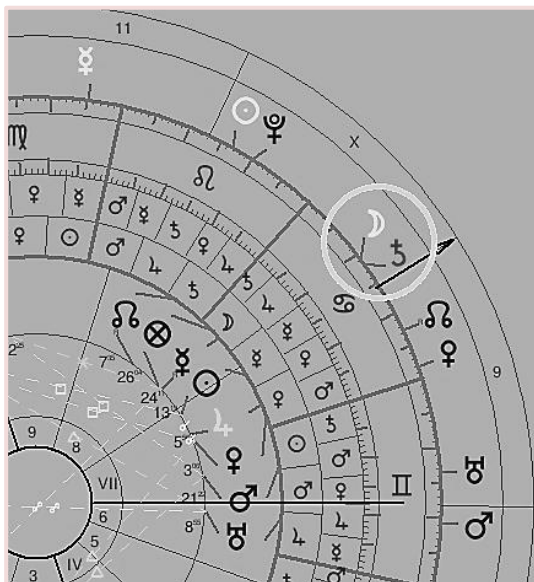

### Pluto's Discovery & Hiroshima

Inner Chart: Pluto's Discovery – Outer: Transits at the hour of the Hiroshima bomb is dropped by "little boy"

Isn't that curious that the Arc of the WWII beginning discovered and obtained are from Pluto's discovery radix? Pluto governs what is most transformative, profound and impacting of the human soul, readily connecting the physical operation at its

most pure state, the nuclear power – the *transformation of atomic nuclei*. Naturally, it holds a key to unleash power destructive and deadly enough while it can be used to better serve humanity as sustainable source of clean energy. **At the day of the atomic bomb was dropped by "little boy", transiting Moon activated the transiting conjunction of Saturn to natal Pluto from the Pluto's discovery chart. Realize that it was soon after the Moon made her step towards the conjunction to Saturn (which was already conjunction natal Pluto), it activated the dropping and blasting of the atomic power.** The Arc found of the initial WWII in the chart of Pluto's discovery, Saturn and Pluto were the planets of the direction as we have seen early already.

### US & the Bomb of Hiroshima

Inner Chart: USA – Outer: Transits at the hour of the Hiroshima bomb is dropped by "little boy"

It was about bombings, abrupt disclosure and use of massive power at large scale that initiated major endings and the final resolution of what was *WWII*. Pluto is about forced ends which initiates a new forced cycle, the external forces are marked on the cosmic veil entitled to *transform* and *change completely* and not partially. The two atomic bombs from US followed by the Japanese' surrender to the Allies marked

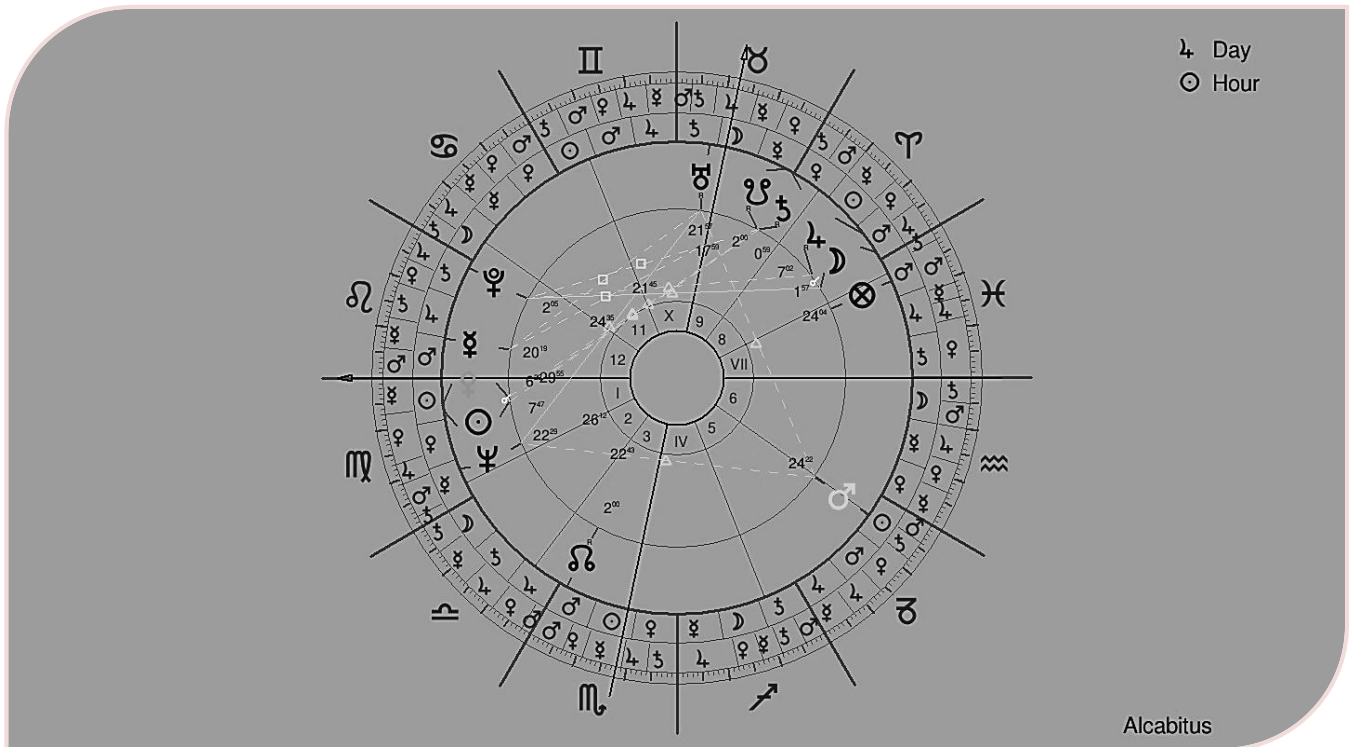

the end of WWII. **Observe that the same transiting Moon-Saturn conjunction from above, was conjunct USA's 8<sup>th</sup> house of open enemy and cosignificator Pluto. The transiting conjunction of Sun in domicile Leo and Pluto was finalizing their war's participation while conjunct USA's North node in Leo in the 8<sup>th</sup> house, and thus, ending for all the WWII at international level.**

**& QUALITY OF DEATHS**

## THE ARC OF THE END OF WWII

The chart of the beginning of the WWII is nocturnal but the Moon is not in a *prorogative place*, according to fine planetary role in the *Hylegical* position in the Zodiac. The chart is a second to third differentia deemed because of the position of the Almudebit according to Bonatti and the early direction of a malefic – meaning the event would last half to twelve years:

World War II - Date of September 2<sup>nd</sup> 1939 at 04:10:01am [Danzig/Poland] – Placidus  
(Dusky's Rectification)

### Almudebit – *One Champ and Only*

The Almudebit of the WWII chart is Jupiter (ruler of the 8<sup>th</sup> house of quality of death), which is located in the 8<sup>th</sup> house of death by violence and before the actual time – Pluto the planet of bloody cruelty is in terms of Jupiter and trines the planet.

If directing a malefic to the position or unfortunate aspect of the Almudebit, we can determine the total or partial expiration of an event; in this case it was mostly obvious what planet we'd consider the killing one – Pluto (ruler of the 4<sup>th</sup> house of major endings) to the first unfortunate aspect of Jupiter.

Then it *would be directed* to the 11<sup>th</sup> house of planes while square Jupiter in the 8<sup>th</sup> house of nuclear weapons – after the nuclear bomb over Hiroshima and Nagasaki,

Japan surrendered afterwards on August 15<sup>th</sup> accepting the defeat, yet the formal paper was only signed on September 2<sup>nd</sup> 1945.

– by Placidus method of semi arc direction and the mundane positions of the planets, **Anaereta Pluto to the direction of the square of Almudebit Jupiter direct we obtain an arc of 6.083 – the \*length of the WWII of was 6y and 1d. Observe by yourself:**

Placidus(semiarc)		Static Key: Naibod		
M/Z	Prom	D/C	Sig	Arc
M	♀	D →	♁ 4	6.083

*\*Again, since this is an early Arc from a mundane' radix, the date however is 2 months ahead*

The Allies lost together about 14 millions of people while the Axis of evil lost 11 million, in the span of 6 years. Jupiter is ruler of the 8<sup>th</sup> house of death, and Pluto is in terms with Jupiter. WWII is considered the biggest and bloodiest war thus far in our contemporary history. Approximately, a total of 75 million deaths had occurred during the WWII, but the statistics are still *undecided*.

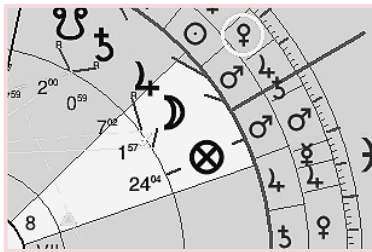

The most destructive period of mankind caused by the mentality of the men and the mass as one cerebral being with emotions and dreams, as if a dangerous box was opened much like the Pandora's box, but from Germany out to the world, transmitted through the body/actions and obedience of a *golem* while a third quarter (1,7 billion) of the world population participated in the global event caused by the opening of the box of horrors. *What would you have done? How far would you have traveled? Would you have gone on hidden? For what side would you have stand together? Would a side exist for you? Would you refuge to another land?*

The rectification suggests Hitler's army advanced Poland actually 17 minutes earlier than previously imagined, but perhaps the first bomb took place 17m afterwards. I also utilized the Alcabitus house system and not of Placidus for this specific case and it didn't reflect back as game changer either.

If indeed we utilize the 17 minutes more as found on the internet, we find an Arc of 6,746 – still, the Arc shows 6 years of the war triggered by Hitler. At the website [astrodatabank.com](http://astrodatabank.com) for example it is classified the chart for 4:00am as B, it is 10 minutes even earlier than my rectification thus the ruling of the chart changes to the Sun as well; confirming stridently the research by primary directions!

## QUALITY OF DEATHS THAT TOOK PLACE UNDER THE INFLUENCE/OPERATION OF WWII CHART - THE HOLOCAUST

After all, there are still people in the 21<sup>st</sup> century who wonder if rather the holocaust did ever really happened or if it was staged. Many authorities and historians claim it was the biggest lie of the 20<sup>th</sup> century; it makes sense when Jupiter the greatest is located in the house of intentional lies, that is, “big lie”. ONU on the last decade had approved the condemnation of those whom publically affirms the Holocaust is a myth, and about 103 countries followed the resolution.

Well, the Holocaust happened. Jupiter in Aries located in succedent 8<sup>th</sup> house indicates conspiracy towards the wealthy enemy (Jews of that time for example) and the Moon being the Dodecatemoria Ascendant ruler in conjunction the ruler of the 8<sup>th</sup> house, inspired new methods of torture and death never applied before even in medieval times, which were the help from industrialization, new technologies and science. Pieces of human body (women’s hair, skin and probably skulls) from the Jews were used to make objects, lampshades, rugs and socks, while golden fulfilling were extracted from the mouth of cadavers. Jupiter is in terms of Venus, the ruler of food and basic needs fulfilled – 20 million died of starvation or disease; the Moon-Jupiter-Eris in Aries combination gives something very raw and primeval to the deaths, and many have died from pseudoscientific medical experiments (Uranus and Moon-Erisare in terms with Jupiter). The *dark angel* in person was SS physician Josef Mengele, one of the evil doctors at Auschwitz that escaped from judgment in court after WWII. Mengele did cruel and diabolic experiments on humans whilst trying to demonstrate the validity of the irrational yet esoteric theory of *racial supremacy* of the Aryans; also to advance knowledge in treatments for diseases and of chemical warfare, providing the sect weapons of mass destruction.

The quality of death would be the combination of fire and water (Moon), through toxic (Pluto)gas to the lungs (Jupiter); irregularity of breath (gas warfare) provoking genocide (Pluto+Jupiter). Pluto in Leo is in terms of Jupiter in Aries and both planets are in fire signs, carburation and acid for example; but what stood out is the ruler of the 8<sup>th</sup> house in the house itself; deaths would be ordered and taken into the underworld, in total secret and under dark places such as chambers. Pluto is in the 12<sup>th</sup> house, it took time before the world and even the Germans to know the truth about extermination or even concentration camps; a silent operation instead. Until today, people think the concentration camps only started when the WWII began in Germany, but the camps took place already in 1933 when Hitler became chancellor. Jupiter was at 7° degrees. There were a total of 7 concentration camps of death; *Auschwitz, then Belzec, Chelmno (Kulmhof), Majdanek, Maly Trostenets, Sobibor e Treblinka II.*

Aside the extermination camps, the experiments held on these camps were torturous and macabre. The Nazis were also some kind of sexual predators, once they instigated pain on children of many kinds and cut off their genitals, some sort of sexual sadism (psychopathia sexualis) is found especially on the twin's experiments which were Dr. Mengele's favorite. Outside the horror surgery room, the innocent children called him "Uncle Mengele", once he would present himself as an angel to them [quite creepy], playing musical instrument. It is disturbing to think about all the mutilation that occurred during his ascension in life, and the pleasure he felt from such experimental aberration may be equivalent to the sexual act.

<b>Military Experiments</b>	<i>High Altitude Freezing Temperature Sea Water Incendiary Bombs Mustard Gas Sulfanilamide</i>
<b>Injuries and Illnesses</b>	<i>Malaria Bone Grafting Nerve Regeneration Epidemic Jaundice Poisoning Spotted Fever (Fleckfieber) Sterilization</i>
<b>Racial Diagnosis</b>	<i>Twin Experiments Jewish Collection of bones</i>

Hitler was also an aberration when it came to cruelty. He surely felt pleasure and serenity during the WWII. It is known he liked being abused by his women, being kicked while initiating erections. The chances were that a masochist would love to turn his followers into one as well.

# **FINAL REPORT #1**

## **THE RESULTS**

# FINAL REPORT #1

## RESULTS #1

Time is an illusion, yet time is everything. It is possible to go back to time with astrology, and [re]discover things that wouldn't be crystal clear by naked eye only, almost like lifting the veil with the mind without touching it. The results are quite *outstanding*, and many times, expected/obvious. The investigation is transferred to graphics, tables and lists.

## MARS; THE GOD OF WAR

### 1 – *Where the attack may/will come from?*

Analyzing the position of Mars during the attack and also its position in the Solar revolution, it was quite evident its strong operation in angular houses, be it 1<sup>st</sup> or 7<sup>th</sup> houses or both.

- *"If Wars be signified note the Angle of the figure wherein Mars is positioned, for from that Part the Enemies shall come."* – William Lilly (Aphorisms relating to general accidents)

The divergence of the research lies in the battle of Britain where Mars was transiting 11<sup>th</sup> house of UK of aviary forces, which makes sense once the Luftwaffe bombed RAF. Having such information held prior possible attacks, can advantage the part being attacked:

### [1] MARS DURING THE ATTACKS IN HOUSES

Nation	Attack Date	Transiting Mars [SR]	Mars position in SR
France	May 10 <sup>th</sup> ; 1940	in 7 <sup>th</sup> house (air)	in 4 <sup>th</sup> house (water)
UK	Sep 15 <sup>th</sup> ; 1940	in 11 <sup>th</sup> house (air)	in 9 <sup>th</sup> house (fire)
URSS	June 22 <sup>nd</sup> ; 1941	in 7 <sup>th</sup> house (air)	in 12 <sup>th</sup> house (water)
USA	Dec 7 <sup>th</sup> ; 1941	in 4 <sup>th</sup> house (water)	in 5 <sup>th</sup> house (fire)

### 2 – *Possible Winners and Losers*

- *"If evil Planets be in the Ascendant, and Fortunes in the seventh, the Adversary shall overcome... The Lord of the seventh in the Ascendant betokens victory to the Querent".* – William Lilly (page 367); *The Resolution of all manner of Questions, Christian Astrology* (reference to *Horary Astrology*)

The second graphic however, shows the conditions of the 1<sup>st</sup> house of significator Mars and the 7<sup>th</sup> house of Venus; simple put, the analyzing of the obvious conditions between the *Nation* versus the *Enemy*:

## [2] CONDITIONS OF THE 1<sup>ST</sup> AND 7<sup>TH</sup> HOUSES (ARIES/LIBRA AXIS)

Nation	Transiting Planets 1 <sup>st</sup> House <i>The Nation</i>	Transits Planets 7 <sup>th</sup> House <i>The Enemy</i>	Solar Return 1 <sup>st</sup> House <i>The Nation</i>	Solar Return 7 <sup>th</sup> House <i>The Enemy</i>
France	-	Mars + Venus + Pluto	-	Jupiter
UK	-	-	Pluto	Venus
URSS	Neptune	Mars	Venus + Mercury + Sun	-
USA	Sun	Jupiter	-	Saturn + Uranus

The equation is even simpler; a *Malefic* in first house [or even on the 1<sup>st</sup> quadrant] and *Benefic* in 7<sup>th</sup> house [or even in the 3<sup>rd</sup> quadrant], the better the chances of the enemy winning the battle, and the contrary means of course, the opposite. It could be translated simple as a *malefic operation over the nation itself [1<sup>st</sup>] versus a benefic operation over the enemy [7<sup>th</sup>]*.

In the graphic, observe that France had Mars and Venus setting down in the west (7<sup>th</sup> house), and greater benefic Jupiter also settles in the Solar Return, this was well known as the battle of the “*Fall of France*”. Similarities occur in the chart of UK. But the pattern changes when URSS and then USA are attacked, known as the *Barbarossa operation* and the battle of *Pearl Harbor*, where the opposite occurred at their end lines. And more, at the day the Barbarossa operation took place, the ruler of the 7<sup>th</sup> house of open enemies (Neptune) of URSS was back and forth the 1<sup>st</sup> house to the cusp of 2<sup>nd</sup> house. The same happened with URSS Solar Return (1940) where Mercury is ruler of 7<sup>th</sup> house and is located in the 1<sup>st</sup> house of URSS’s body. The URSS’ chart was the radix from which Hitler couldn’t spread/expand his army and power.

### TRANSITING ERIS, PLUTO, NEPTUNE, URANUS SATURN & JUPITER

Minor planet Eris in 1939 was at 4° degrees Aries when WWII started, and in 1945 at the end of it the planet was found at 5° degrees Aries. As already explained dwarf planet Eris is the planet of *Discordia*. The planet was only discovered in 2005, sixty years after WWII came to an end and the hurricane Katrina came about. The transits of *Jupiter*, *Saturn* and *Pluto* are in the order: *to expand, to limit and to strength it*. Jupiter sends trends and collective thoughts as truths, Saturn needs people to realize if those are important or not and take what is to the physical plane, and then it is powered up by Pluto. In the astrology of warfare, Jupiter benefits the winning part, despite its political party; Saturn turns even more malefic and dictatorial, Pluto in turn, becomes naturally stingy and tyrannous, wanting to revenge or to control everything and everyone. These 3 planets seemed to have played an important role in the majority of the events in all the work in *part I* and *II* of this investigation, be it in genethliacal, Solar Returns, and mundane (transits) or by primary directions. Events involving power, war

and expansion of it, it is better counting on these 3 planets for initial study and as priority when analyzing further the whole episode. Pluto alone with Saturn/Mars invokes some kind of *gratuitous violence*, but when Jupiter enters in, it becomes a war of expansion. By scoring the personal planets in the order, Mars, Moon and Sun, they are also eminent in the research, from the beginning to end; Mercury on the other hand along with Venus seemed to have a more specific significance and cases.

**Jupiter – Benevolence & Bounteous Virtue**

The WWII began when transiting *Moon-Jupiter-Eris* were conjunct in warrior sign of *Aries*. Jupiter, when given power to, it operates under expansion of it, and when it rules a chart, it acts with a benevolent quality attached. You could say that Jupiter in many cases caused *luck* where it should had been a massacre. But with the initial conjunction with Eris when the second war broke out, nothing was to end it at least in a window of 6 years, the length of the WWII. Jupiter transited 6 signs as it naturally does in the same span of time:

<p>♃ in ♈ MAY 1939 to MAY 1940</p>	<p>Jupiter was in Aries when WWII started, but it was the influence of the Moon and Eris that the benevolent planet evolved to exaggeration without proportions in matters of discordance and territory. Nevertheless, Aries is the sign of war and conquest and Jupiter operates via expansion of the sign it transits</p>
<p>♃ in ♉ MAY 1940 to MAY 1941</p>	<p>When Jupiter went into tropical Taurus, many soldiers of France had to share the same room/space with the enemy by surrender in order to maintain the country's "peace" and maintenance, while others joined the resistance that shared the same values of conflict</p>
<p>♃ in ♊ MAY 1941 to JUNE 1941</p>	<p>I realized when Jupiter entered Gemini, the war was intensifying because it was duplicating the combats and battles; many of the duels took place simultaneously. Jupiter is detriment in Gemini. For example, US officially entered the war only on December 1941 when Japan attacks the American base stationed on Pearl Harbor, it simultaneously attacked the American base on the Philippines (Guam and Wake Islands), Thailand, and Hong-Kong</p>
<p>♃ in ♍ JULY 1944 to AUGUST 1945</p>	<p>If cardinal signs initiate, mutable signs finish what is already in motion, or at least, change the course of it, reshaping so it can end up differently than how it started – mutable signs are not at easy with beginning or middle of things, they prefer to either remodel or wrap things up, so the cardinal signs can finally <i>destroy</i> and begin once again. Now, observe that when Uranus and Saturn changed signs to mutable Gemini, Hitler is defeated in Stalingrad, and when Jupiter entered mutable Virgo, hugest extermination camp called Auschwitz is closed down, Hitler commits suicide with Eva Braun, and the nuclear bomb is dropped over Hiroshima and then Nagasaki, finishing the WWII. The Arc to find the initiation of WWII is used Saturn, which is located in the 6<sup>th</sup> house of mutable Virgo</p>

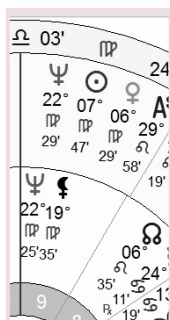

## Transiting Saturn – *Cross-Checking & Reaping what Incepted*

What Jupiter keeps alive; Saturn keeps it dead, or wants it anytime soon. Since Saturn entered Taurus everything was occurring out smoothly as planned for Hitler, the invasion of France and UK had proven to be an easy access of possession and sense of ownership to the Nazis, until Saturn entered mutable Gemini, and the Germans were defeated in Stalingrad – *the spell returned to the sorcerer*. When it entered cardinal *once and for all* Cancer, it accelerated detrimental events to its maximum [final destruction], and thus, the end of WWII with atomic bombs:

<p>♄ in ♉ JULY 1939 to MAY 1942</p>	<p>When the WWII started, Saturn was transiting 0° degrees Taurus. This was the exact degree of Hitler's natal Sun in Taurus. This is a special transit that triggered Hitler's entrance into the world, wanting to possess every land and every one. The seduction of Saturn in Taurus is the vicious circle of possessing and dominating</p>
<p>♄ in ♋ JUNE 1944 to AUGUST 1946</p>	<p>Saturn is Capricorn's rulership, thus the planet is not nearly comfortable when it transits Cancer: it becomes <i>detriment</i>. Here, Auschwitz is shut down, Hitler commits suicide and the USA drops the atomic bomb over Hiroshima and then Nagasaki. Although the bomb is exploded in mid-air, Saturn in Cancer pushes things down to ground and deep down earth instead of to the top – here begins the official fall of the Nazi's trend</p>

## Uranus & the Minority – The Homosexuals

Nowadays, it is known that about 50.000 homosexuals were arrested and sent to concentration and extermination camps. Each year since 1933 the deaths increased until the culmination of it in 1938 when the deaths that year were of 8.562 homosexuals. The year of 1938 was when Saturn was in a square to Pluto, and the last was transiting *Anaretic* degrees of Cancer to 0° degree Leo. Uranus the planet of minorities was opposite South Node in Scorpio, and when the opportunity exists, it indicates a purge of what is sexually different and shocking to society. Mars that year also transited as conjunction to Pluto when the latter was in critical degrees.

## Neptune Returns – Pearl Harbor

Observe that when the WWII started, transiting Neptune was exact conjunction USA's natal Neptune. During the WWII, the return of Neptune triggered USA's entrance in the war through the second largest ocean on planet Earth – the Atlantic (Neptune), covering fifth percent of Earth's surface, and the dissolution of old visualizations from what is international from their location. Mercury is sextile Neptune in the mundane chart of USA, and the country was having its *Neptune Return*. Mercury in the chart of the nation is ruler of 7<sup>th</sup> house of open enemies and allies, and the planet

was used in the primary direction (in SR) to define the Arc of the strike from the Imperial Japan on Pearl Harbor.

### Transiting Pluto – *Evolutionary Astrology*

The whole WWII planet \*Pluto was in fiery Leo, however there were others prominent events that took place prior the sequence of first world war when Pluto was transiting both thievery of ideas Gemini and next sign of territorial Cancer. Watch the table:

<p>♃ in ♊ JULY 1882 to JULY 1913</p>	<p>When Neptune in Gemini met Pluto in the same sign in the skies, it marked the time when societies resurged with new names and many came in secret, and from the conjunction chart set for Berlin, it showed an important trend of the <i>lowest mind</i> of society, the ones needing an exotic explanation of war and wild pretexts hidden as profane speeches and wicked discourses of malefic nature reshaped as if it was a positive outcome</p>
<p>♃ in ♐ SEPT 1912 to JULY 1938</p>	<p>When the Capricorn Ingress happened in Germany lands in the winter of 1917, the Thule society showed its face to the world. In 1918 the first world war ended. But no mutable signs were involved as far as the transpersonal and social planets are concerned, suggesting the world war was not basically over but ongoing (read <i>Jupiter</i> ahead for more knowledge)</p>
<p>*♃ in ♌ OCTB 1937 to JUNE 1958</p>	<p>The largest purge in the human kingdom controlled by men took place mainly when Pluto was in Leo (the entire Holocaust until the end of WWII), the sign of king of the animal kingdom. As if the lion was hungry enough to cause a catastrophe affecting the whole environment around, disturbing the whole human’s “casual nexus”</p>

Short questions usually have long answers when talking about life and purpose. Asking oneself “*Why am I here?*” or “*What exactly am I supposed to become and to experience?*” are simple interrogations, but when attempting to respond at the same level of simplicity, one shall find inside a bubble that never explodes. Luckily, we have astrology to convert the answer into the language of symbolisms. The evolutionary Pluto is one body to count on for answering specific inquiries about life and death and the condition of a *soul* on Earth. Fundamentally, Pluto among its aspects form the *journey (evolution) of the soul* (Pluto) that can be interpreted by great methods and techniques such as from astrologer Jeff Green’s judgment before the planet and its organic but nevertheless impacting influence and operation. His manuscripts of Pluto are an investigation and results of a decade theorizing, applying and analyzing; he reached to a theme that is a challenge to deal with internally to most people, because through the right reading of the metamorphic aspects of life in the chart, the person is kind of pushed to the nethermost of everything he/she understands as “*my life*”. Jeff Green wrote that Pluto is “*the prime mover or bottom line to which all other planetary influence factors are linked.*” – Green empowered Pluto as it should.

Below, a table of all the major events analyzed where Pluto connects through its orbs (aspects) to other planets:

EVENT/CHART	PLUTO	HOUSE	ASPECT & PLANET/POINT	OBSERVATION
Neptune-Pluto & Secret societies - 1891	<b>Gemini</b>	7 <sup>th</sup> <i>Air Oriented</i>	<i>Conjunction <u>Neptune</u>   Sextile <u>Sun</u></i>	The conjunction of Neptune-Pluto in C accelerates the ultimatum of ideals and inception of modified visualizations

The Berlin Wall - 1961	<b>Virgo</b>	4 <sup>th</sup> <i>Water Oriented</i>	<i>Conjunction <u>Moon</u>   Sextile <u>Venus + Neptune</u></i>	It was a definite time of elimination and powerful security
Fall of Berlin Wall - 1989	<b>Scorpio</b>	5 <sup>th</sup> <i>Fire Oriented</i>	<i>Conjunction <u>Sun + Mercury + Mars</u>   Trine <u>Jupiter</u>   Sextile <u>Neptune + Saturn</u></i>	In the last possible scenario, Pluto was in the Stellium in H; the sign it rules

Jeff Green explains that Pluto in *fire signs* our *fire oriented houses* (1<sup>st</sup>, 5<sup>th</sup> and 9<sup>th</sup>), or more specifically, Pluto in Leo and Aries or in the 5<sup>th</sup> house “*will feel as though they have a special destiny to fulfill*” (Pluto VI.1; page 101 - 1985). I must repeat that the entire WWII took place under the operation of Pluto in fire Leo, and the fall of the Berlin Wall planet Pluto was in the 5<sup>th</sup> house of fiery Leo but in the sign it rules (Scorpio). From this point on, we shall look to astrological Pluto like magician Agrippa once pointed out, without even knowing the body of Pluto’s planet in reality: “*Saturn... bearing a most unprofitable fruit, never dies with age deadly, and is dedicated to Pluto.*” This means he understood Pluto was already an extensive power of what Saturn already holds, but stronger and more powerful as it involves at transpersonal levels, something Saturn lacks while in operation. Both planets are rulers of destiny along with the Lunar Nodes.

The *\*Lunar Nodes* & the *WWII’s chart* hold an important karmic situation: Natal Pluto square the lunar nodes by 0° orb/degree, the nodes of past/future lives. Furthermore, Pluto occupying fire signs in fire houses have a unique journey as explained, however in this case it transits fire Leo but at the time of the WWII beginning the planet was in the 12<sup>th</sup> house, but the square to the nodes and Saturn are in the fiery 9<sup>th</sup> house. It indicated a period of *evolutionary overhaul* taking place, as if it was all on script before it started to all the millions of people involved, whereas a karmic situation is introduced from prior-lives which hadn’t “*been totally developed, understood, resolved or integrated*” (Jeff Green). Pluto in WWII’s chart is ruler of the 4<sup>th</sup> house of major endings and beginnings. Hitler had in his cards, the *final plan/solution* (Endlösung). Saturn the planet of karma itself is conjunct South Node – the hardest point in the Zodiac to let go off.

### **MARS | SATURN | PLUTO – THE ‘ROGUE’ TRINITY**

Astrological Saturn in the practice of *natural power* is the middle ground of the *Mars, Saturn & Pluto trinity*. Sun is major player in the chart as the planet gives authority for the use of power, Saturn as the last visible planet by naked eye is the last planet that materializes while limiting power to a few, and transpersonal Pluto, known as the last planet thus far, is the planet that carries in the contaminating power over all and for all, which when distributed, there won’t be much left for personal Mars or social Saturn to do but to cope with it. At the Renaissance period, we find a famous and influential magician and philosopher of western esoteric named *Heinrich Cornelius Agrippa* (1486-1535), which in 1509 wrote in his book ‘*Occult Philosophy – Natural Magic*’ (*de Occulta Philosophia*) that the planet “- *Saturn is dedicated to Pluto*”. In his generation, Pluto was not a known planet; they were likely 500 years earlier before the collective conscious encounter. His investigations were proven correct. A century after Agrippa, astrologer *William Ramsey* in his book entitled *Astrology Restored* (1653) explains that Saturn, because of his humorous being of a melancholic nature, exerts a

white and black position where relationships are concerned. Usually, opening a modern book of astrology, such correlation of *love and hate* would be put under Scorpio or Pluto's domain. Yet, there was a beginning of a bold statement. In his explanation, Ramsey puts Saturn as a cold butcher, and he goes on saying "...if they take to love any one, let them be man or woman (which happened but very seldom) they love most constantly and entirely; and if they hate (as most commonly they do) they hate to the death, and with a perpetual hatred, hardly to be removed." William was consuming the student or reader with the knowledge of what is operated with great facility from the cold heart, is definitely from Saturn; the sort of extreme energy of Pluto was portrayed by Saturn instead. The game got its level harder to understand once Pluto is discovered 5 centuries later, such attributions were forced overnight to Pluto's symbolical lore in astrology, also to the sign it immediately ruled, Scorpio. Mars in ancient thinking was the mainly ruling planet of both Aries and Scorpio, and the planet is of course, the octave minus of Pluto in astrology. Judging from the position of a person living in the 21st century, it seems as if Saturn would give Pluto the whole secret of how to structure life until death, and once understood, they tend to push forward the transformation to develop into one exclusive foundation of ultimate power and control. A force to be reckoned with; in the genethliacal chart of Hitler, Pluto isn't connected with Mars and Saturn, but the latter planets were square.

#### **RACISM, ANTI-SEMITISM, PREJUDICE AND BLACK & WHITE PERIODS OF HUMANITY**

Astrology when seen by many times through the mind of a critic, it forms patterns that are recognizable when it put into different colors of light (methods and techniques). In any case, racism forms a sense of superiority from the tongue it comes from, and humiliation for the one receiving (if presumed the same way). Prejudice can bring the same effect. One could assume such superior delight to come from Jupiter, but this is a planet that is satisfied bringing social satisfaction to the native, and is known as the greater benefic, and for that, we can automatically discard planets that brings mainly positive connotations. I realize that when *anti-something* surrounds the atmosphere of a country, a configuration of a sort is present in the skies:

- |   |
|---|
| - <b>Leo/Aquarius Axis tend to be in evidence in the chart of lunations, eclipses, etc.</b>           |
| - <b>Mars in aspect to any other Malefic (specially the conjunction, square and opposition)</b>       |
| - <b>Saturn in Aquarius in aspect to Saturn or any generational planet (Uranus, Neptune or Pluto)</b> |
| - <b>Uranus square Pluto</b>  |
| - <b>Neptune conjunction Pluto (in air signs: Gemini for example)</b>                                 |

When WWII broke out, a war idiotically based on *race supremacy*, Saturn was square Pluto, the planet that would later receive many those attributes of Saturn when 1930 came to humanity. Death, lost, poverty, malefic desires and deep irrational obsessions,

etc. as if the planets were fighting for which one was the supreme, competing for the darkest contour of human struggles shapes and natural operation. And not only that, Mars was square Saturn while opposite Pluto – thus forming a wide T-square.

When the first Nazi's concentration camp were built, it was the beginning of the Holocaust, transiting Saturn was in Aquarius, Uranus was square Pluto, Mars was conjunct Neptune. When Blavatsky founded the Theosophical society, Saturn was in Aquarius. When Auschwitz was opened, Saturn was square Pluto, Mars was square Neptune. When many anti-Semite organizations were formed (Capricorn Ingress 1917), Uranus was in Aquarius, the sign and planet of radical groups – and when society Thule arrived, the planet was opposite Saturn in Leo, sign of individuality and ego protection. When the *Wannsee Conference* (Wannseekonferenz) happened on January 20<sup>th</sup> 1942, Mars was part of the T-square between the opposition of the Sun in Aquarius and Pluto in Leo. On this specific meeting, Nazi officials discussed the details of the "*Final Solution*" (*Endlösung*), while Saturn was conjunct Uranus.

YEAR	EVENT	ASPECT(S)	OBSERVATION
1918	End of WWI	♄☐♅	Of all the cases here analyzed, the end of WWI was the only event where Saturn is square Uranus in the chart followed by the Weimar Republic of course, which was set on the same period. The square between the planets in such chart indicates a phase of <i>none fulfillment</i> of the parts involved; the void between the end and the begging of the second world war. Something simple didn't " <i>fit right</i> ", as if something was <i>pendent</i> , put it in a <i>hold</i>
1923	The Putsch	♃☐♆ ♄✳♆	Hitler's Putsch was an event where Saturn is sextile Neptune. The same configuration of when Walter Ulbricht gave the infamous speech. Although the operation of Neptune is quite subtle, it indicates the event where dreams were forced into reality. And although the initial failure, it was such event that sent Hitler to prison, there he wrote Mein Kampf and became rich afterwards; and when Ulbricht, despite the lie, expanded his ideals
1930	End of Weimar Republic	♃☐♅	Observe that when the Republic was born, the second social planet Saturn was square Uranus. In the end of it, Jupiter the first social planet is square of it. The 2 social planets in square to Uranus, the planet of communism and socialism. The aspect in such chart indicates a phase of <i>none fulfillment</i> of the parts involved; the void between the end and the beginning of the Berlin Wall's construction in 1969 – The Gap
1933	Hitler becomes Chancellor	♃✳♇ ♅☐♇	When Hitler becomes Chancellor, the intense square of Uranus-Pluto was already active by orbs. The world Grand Depression of XX century was triggered by sets of such square. The first concentration camp is opened on April 23 <sup>rd</sup> ; 1933
1933	Holocaust Begins	♅☐♇	See " <i>Hitler becomes Chancellor</i> "

THE WWII			
1939	WWII	♃△♀ ♄□♀	Of all the cases here analyzed, the <i>start of WWII</i> and the <i>Fall of the Berlin Wall</i> were the only events where Jupiter is trine Pluto; the trine here suggests almost an easy conflict
1940	France & the Netherlands Invasion	♄△♅	Observe that all attacks Uranus is trine Neptune until Extermination camp Auschwitz is closed down in 1945. The trine suggests easy radicalism and overnight disclosure or closure
1940	Auschwitz is opened	♃♄♄ ♄△♅	Jupiter is conjunct Saturn when Auschwitz is opened, when the Berlin Wall begins and the fall of it. The aspect of the 2 social planets brings stability and consolidates what is built anew (be it ideas, organization, edifices, camps...
1940	England's Invasion	♃♄♄ ♄♄♄ ♃/♄□♀ ♄△♅	The WWII began with Saturn square Pluto and it continued until England's invasion with also Jupiter in the square – See “ <i>WWII</i> ”. Here begins the Saturn-Uranus conjunction by wide orbs until German is defeated in Stalingrad by 5° orbs; however, when the WWII started, Saturn had entered 0° degree Taurus while Uranus was already in Taurus at 21° degrees
1941	URSS's Invasion	♃*♀ ♄♄♄ ♄△♅	See “ <i>England's Invasion</i> ”
1941	USA's Attack	♄♄♄ ♄△♅	See “ <i>England's Invasion</i> ”
1943	Germany's defeat in Stalingrad	♄♄♄ ♄△♅	See “ <i>England's Invasion</i> ”
1945	Auschwitz is Freed	♄△♅	See “ <i>France &amp; the Netherlands Invasion</i> ”
1943	Germany's defeat in Stalingrad	♄♄♄ ♄△♅	See “ <i>England's Invasion</i> ”
1945	Auschwitz is Freed	♄△♅	See “ <i>France &amp; the Netherlands Invasion</i> ”
1945	Hitler's Suicide	♄□♅	When Hitler killed himself, transiting Saturn was exactly opposite his natal Moon. When Saturn meets Neptune as a square in the skies, it indicated dreams that are not allowed to co-exist, it simple doesn't feel the efforts are bringing results and adds deprivation of one's function
1945	W. Ulbricht's arrival in Berlin	♄□♅	Yet at the same time, many are brought to leadership in order to re-establish what had been lost by the other who couldn't and wouldn't dream higher than reality could offer – See “ <i>Hitler's suicide</i> ”
1945	Nuclear Bomb over Hiroshima e Nagasaki	♃△♄ ♃□♄	The Moon was conjunct Saturn by 0° orb. Whatever Jupiter brought to Saturn, it touched the Moon as well. The aspect to Uranus brings unexpected brakes

THE BERLIN WALL			
1947	Marshall Plan	♃ □ ♀	When transiting Jupiter confronts Pluto in the skies, many man on Earth shall enjoy plenty of money
1948	The Cold War (Iron Curtain)	♃ △ ♄	See <i>"Nuclear Bomb over Hiroshima e Nagasaki"</i>
1961	Ulbricht's Infamous Speech	♃ □ ♀	See <i>"The Putsch"</i>
1961	The Berlin Wall Begins	♃ ♄ ♄	See <i>"The Fall of the Berlin Wall"</i>
1989	The Fall of the Berlin Wall	♃ ♄ ♄ ♃ ♄ ♀ ♃ △ ♀ ♄ ♄ ♄ ♄ ♄ ♄ ♀ ♄/♄ ♄ ♀ ♄/♄ * ♀	The Saturn's conjunction and opposition triggered the culmination and conclusion of a period. A <i>cosmic experiment when someone opens the Pandora's box and the game is on?</i> The <i>Saturn Return</i> of the fall gave the event greater meaning, and all the aspects it formed. Saturn closes out and down; it neutralizes and ends its physical format and foundation. The closing of Pandora's box was revolutionary and somehow an <i>utopist conquer</i>

## TABLE OF THE SOCIAL AND TRANSPERSONAL PLANETARY DOMICILES & TIMELINE OF MAJOR EVENTS FOLLOWED COMMENTED

SOCIAL PLANETS – Jupiter rules *Pisces & Sagittarius* | Saturn rules *Capricorn & Aquarius*  
TRANSPERSONAL PLANETS – Uranus rules *Aquarius* | Neptune rules *Pisces* | Pluto rules  
*Scorpio*

*Note: Neptune was the only planet that didn't have a domicile's role in all cases analyzed*

YEAR	EVENT	JUPITER	OBSERVATION
1891	Neptune-Pluto conjunction in Gemini & secret societies	<b>Pisces</b>	Jupiter as a dual rulership is co-ruler of Pisces. This position expands blind beliefs
1948	The Cold War (Iron Curtain)	<b>Sagittarius</b>	Jupiter rejoices in Sagittarius instead of Pisces; that is, the planet prefers to be in Pisces because the sign is masculine and diurnal, whereas Pisces is feminine and nocturnal. In this event, Jupiter is trine Saturn; thus all the facilitation of the cold war from the East side of the gate
1948	First Airlift from Western Berliners	<b>Sagittarius</b>	Jupiter in the sign it rules and rejoices gives abundant opportunities and good luck. It also provides luck for long journeys

YEAR	EVENT	SATURN	OBSERVATION
1930	Pluto's Discovery	<b>Capricorn</b>	In this event, Saturn is involved in the direction in order to establish the date of the beginning of WWII
1930	End of Weimar Republic	<b>Capricorn</b>	The end of Weimar by the book took place by the same time the Nazis ascended. Saturn in Capricorn at the expiration of an event indicates that there shall have continuity on Earth, and in this case indicated karma unresolved; observe that at the Republic's Saturn return, even after its expiration date, the Berlin Wall is erected overnight
1961	Ulbricht's Infamous Speech	<b>Capricorn</b>	As it seems, Walter Ulbricht had its own karma unresolved
1961	Berlin Wall begins	<b>Capricorn</b>	In this event, Jupiter is conjunct Saturn; Saturn obstructs/barricades and Jupiter improves, makes it larger and more secured. Cancer, the opposite sign of Capricorn, was rising (cusp of 1 <sup>st</sup> house)
1989	Fall of the Berlin Wall	<b>Capricorn</b>	In this case, Jupiter was in Cancer opposite Saturn, Uranus and Neptune in Capricorn. The opposition would expected to be huge and overnight (Uranus); Neptune in the conjunction operates by dissolving the communism-era in German occupied, so the Berlin Wall itself in the physical foundation (Saturn)
1933	Hitler becomes Chancellor	<b>Aquarius</b>	Saturn rejoices in Aquarius instead of Capricorn; that is, the planet prefers to be in Aquarius because the sign is masculine and the planet is

			masculine, whereas Capricorn is feminine. A year before Saturn was in Capricorn, but it was only when it reached Aquarius that Hitler became Chancellor
1933	1 <sup>st</sup> Conc. Camp (Dachau)	<b>Aquarius</b>	The same year Hitler became chancellor, it was when he could commit crimes without being punished by courts – ultimate power and control
1933	Holocaust Begins	<b>Aquarius</b>	Saturn is the reaper and Aquarius signifies groups of specific people. Saturn also rules the scapegoats of society, and seen by the Nazis' eyes, those were specially the Jews

<b>YEAR</b>	<b>EVENT</b>	<b>URANUS</b>	<b>OBSERVATION</b>
1917	Capricorn Ingress 1917	<b>Aquarius</b>	This event was found the <i>Arc of the Thule Society</i> ; both the planet and the sign are symbols of groups of people, societies and revolutionized/radical ideas
1918	End of WWI	<b>Aquarius</b>	When Uranus transits Aquarius, all things different are considered equal; the planet rebels against, it causes disruption at the core. In this event (end of WWI), Saturn is square Uranus; the aspect suggests the energy must be directed, contained and controlled; thus the creation of the forced Weimar Republic
1918	Germany – The Weimar Republic	<b>Aquarius</b>	The problem with Saturn square Uranus is the fact that both planets are antipathetic and have hard timing smiling and making comfortable room for everyone, thus Uranus is a representative force of resistance against what is only served for an individual's purpose

<b>YEAR</b>	<b>EVENT</b>	<b>PLUTO</b>	<b>OBSERVATION</b>
1989	Fall of the Berlin Wall	<b>Scorpio</b>	The whole WWII's investigation was set up by the initial Arc found in the <i>Pluto's discovery Radix</i> , which was found the Arc of the start of it the WWII. Now, when Pluto entered its own sign, that is, Scorpio, the power is distributed, shared and owned for good, people feel it. This was the end of everything in Germany that didn't befit, it was a period of "all or nothing"

## SECRETS TENETS OF PLANETARY PERIODS & CHRONOCRATERS RESUMED TO SOLAR RETURNS

### SOLAR RETURNS – REVOLUTIONS

In Solar Returns, it is possible to determine general periods of the year with accuracy, transforming planetary motions into units of time. If one'd score the whole year, a pattern of a solid period correspondent to traditional planetary order will become apparent as *visual confirmation*. These periods are determined firstly by the planet ruler of the rising sign (1<sup>st</sup> house), wherefore the astrologer is able to identify the subsequences by the 7 traditional planets (Sun, Moon, Mercury, Venus, Mars, Jupiter and Saturn), the further periods one should experience in the window of a year, or during 365 days divided by 7 planets resulting the equal duration of 52 days each span, according to the Chaldean order of the planets.

CHALDEAN ORDER OF THE PLANETS	CHALDEAN DAYS	*JUNCTIN DE FLORENCE	PLANET PERIOD'S INFLUENCE
I.  Period of Reality-Check & Score	52 days	85 days	Life becomes more demanding and there is no room for excuses; sometimes are the hardest days of the year or most successful
II.  Period of Assistance & Relief	52 days	30 days	<i>Luck</i> can't be underestimated and life gives a break, and sometimes the greatest days of the year and the most expensive
III.  Period of Bravery & Duty	52 days	36 days	Action: winning or defeated; sex is boosted and sometimes dangerous or challenging days ahead
IV.  Period of Power & Focus	52 days	53 days	People are looking after you and your approval; self-inclined weeks and sometimes days of glory and prestige
V.  Period of Manifestation & Display	52 days	33 days	Laziness is easy and self-care to beauty is highlighted; and sometimes the happiest days of the year and trouble-lesser
VI.  Period of Submission & Orientation	52 days	57 days	Information comes without asking; routine established; anxiety is usually higher and sometimes the busiest days ahead
VII.  Period of Consummation & Installation	52 days	71 days	Introspection or gregarious; but a private life seems more entertaining and sometimes the most emotional or lonely days of the year

*\*Junctin de Florence was an important astrologer of the 16<sup>th</sup> century*

**Observation:** I think the *Chaldean planet period* is more accurate than that of Junctin de Florence for mundane.

## TABLE OF PLANETARY PERIODS IN SOLAR RETURNS AT DAYS OF ATTACK AND INVASIONS SIMPLIFIED & COMMENTED

NATION	DAY AND YEAR OF SOLAR RETURN	DAY OF ATTACK	SIGN RISING & PLANET RULER IN SR	DAYS AFTER SOLAR RETURN	CHALDEAN PLANET PERIOD
France	Sep 5 <sup>th</sup> ; 1939	May 10 <sup>th</sup> ; 1940	<i>Virgo/Mercury Mutable</i>	Day 248	Mars
UK	Jan 1 <sup>st</sup> ; 1940	Sep 15 <sup>th</sup> ; 1940	<i>Leo/Sun Fixed</i>	Day 258	Saturn
URSS	Dec 30 <sup>th</sup> ; 1940	Jun 22 <sup>nd</sup> ; 1941	<i>Sagittarius/Jupiter Mutable</i>	Day 174	Venus
USA	Jul 5 <sup>th</sup> ; 1941	Dec 7 <sup>th</sup> ; 1941	<i>Scorpio/Mars Fixed+Cardinal</i>	Day 155	Sun to Venus

The Chaldean planet period seemed more accurate than that of *Junctin de Florence* in the case of the astrology of warfare (that's why I noted on the table above only the Chaldean period). Observe that *malefics* were in the periods of attacks on both France and UK, while benefic Venus was ruler period for the same kind of event on both URSS and USA. Periods of Venus seem to overcome the maleficence of malefic events. Such signature is similar to the technique of observing the general condition of planets in the 1<sup>st</sup> and 7<sup>th</sup> houses as discussed already.

At the day of the attack on Pearl Harbor, the period of USA changed from Sun to Venus. Venus then was at her first day of 52 days ahead, according to the Chaldean number of days of the planetary periods.

An important technique is to find the possible period of the attack and then find the planet's period degree in the secondary progression, and then *Profect* the planet's degree of the secondary progression to the genethliacal or mundane chart, and then the astrologer is able to find an important key date connected to the planetary period of the time being. For example: *the planet period of the attack on URSS is Venus. Venus at the same degree of the secondary progression for such day and profected for the mundane chart is then conjunct the Moon in the 10<sup>th</sup> house by exact orb, plus Mars at the same day is profected to its exact opposition to natal Mars.* Under such technique is found a guide that assists in the search for the day of the attack.

*An example of a planetary period in a Solar Return of a person is found in Walter Ulbricht's Solar Return of the year 1960.*

## ALMUDEBIT, HYLEG, ALCOCCODEN & ANAERETA

### VALIDITY: THE HYLEG AND ALCOCCODEN OF THE CHART

Everything expires, death is the only thing we are complete sure in life, the rest is living the ordinary until the extraordinary happens. A thunder light could hit you unexpectedly and you die in a day you were feeling extraordinarily happy. Death is a reminder of expiration and validity of human's flesh and of any event. The quality and length of such can sometimes be investigated in astrology through a vicious circle of playing with 2 major terms of life: prorogator and giver of life *Hyleg* and its ruling planet, which is the *Alcoccoden*, the indicator of the length of life. There are different methods of finding out a perfect candidate for Hyleg and the Alcoccoden, and depending on the author and the source, they both change. However, each chart is unique and some may not even need Hyleg as death comes earlier than 12y; other cases the *Almudebit* of the chart may be calculated instead, etc.

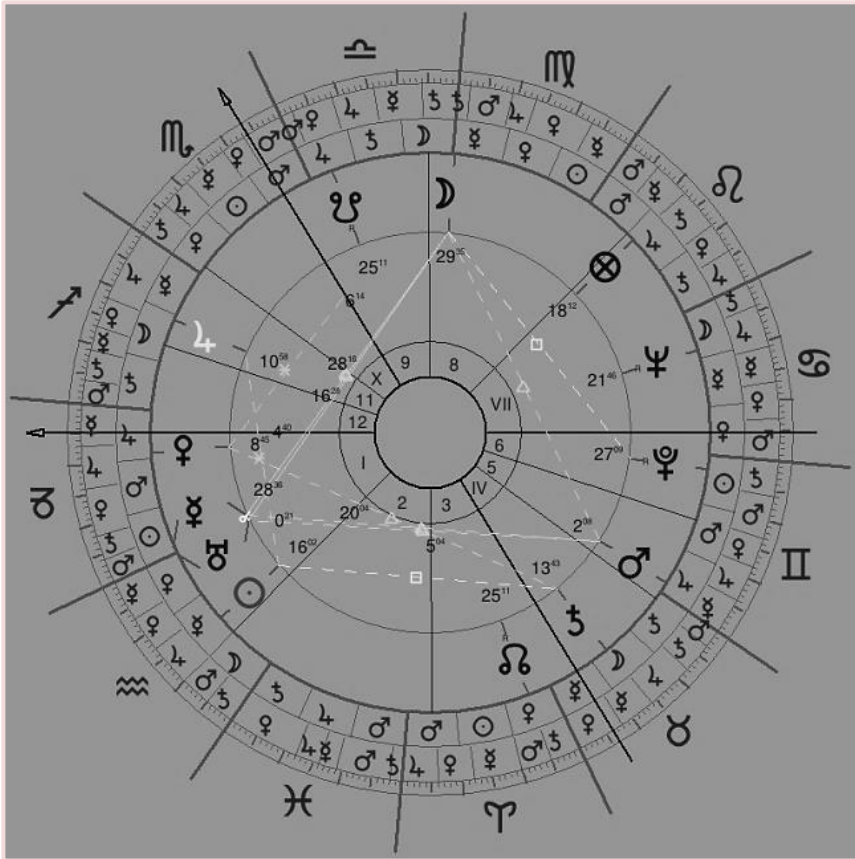

NAME	KNOWN AS	COMMENT
<b>ALMUTEN OF THE FIGURE</b> Almudebit; Mubtazz	<i>"the victorious of the chart"; "the victor planet"; "the victor"</i>	The Almudebit can also be used to determine charts of Differentia (there are current 5 categories found). It is the planet with most dignity by score and is the victor planet that most have effect on the native/nation/event along with the <i>Dodecatemoria of the Ascendant</i>
<b>HYLEG</b> Haylāj; Hīlāj	<i>"prorogator"; "giver of life"; "launching life"; "releasing"; "sent out"; "governor of life"</i>	Many are the techniques to determine the Hyleg. If found, life is there and shall shine it through. Hyleg signifies vitality; primary directions to it by malefics signifies engendered life or death
<b>ALCOCCODEN</b> Kadhkhudāh	<i>"Giver of forms"; "ruler"; "master of the house"; "governor of nativity"; "indicator of the length of life"</i>	If there is no Hyleg selected, there is no Alcoccoden. In many cases, the Alcoccoden or its term ruler can determine the length or expiration of body or event by looking at planetary table of years, sometimes only by the planet, or adding or diminishing years according to aspects to benefic and malefic planets, their dignities etc.
<b>ANAERETA</b>	<i>"destroyer"; "murder"; "the killing planet"</i>	Usually the killing planets are the malefics <i>Mars, Saturn, Uranus, Neptune and Pluto</i> ; but Mercury can also murder specially if aspecting a malefic from the radix, etc.

Stalin was the founder of Stalinism, mainly influenced by Marxism-Leninism policies and ideologies. He dictated Russia as nation's *Premier* from 1941 to his death in 1953. Hitler and Stalin had dissimilar genethliacal charts; nothing would last from this two together. Walter Ulbricht on the other hand, had to report every day to Moscow, that is, to Stalin; their charts had agreements. For example Walter's Jupiter, is conjunct Stalin's Pluto; a ruthless but puissant contact between the parts. Jupiter worked as international entrée to the power established in Stalin's URSS. Stalin had natal Mars opposite Pluto by 0° orb – one of the most violent combinations of planets, and the Taurus/Scorpio axis is to make even worst in the chart of a bloody leader and revolutionary.

# **THE ASTROLOGY OF THE BERLIN WALL TO ITS FALL**

## **PART II**

**INITIAL RELATORY #2**  
**TECHNIQUES, REFERENCES**  
**& PRIMARY DIRECTIONS FACTUMS**

## INITIAL REPORT # 2

The same methods and techniques thus far were also applied in part two of this work, but I went further on certain techniques that I didn't use in part one. The second part however, is not about attacks or invasions, but a continuation of an occupation after WWII was over *by the book*. Adjoining this next material, the investigation positions centered on *Walter Ulbricht*, the responsible for the wall's construction and the one with the idea, yet not exclusively. Curiously, *the Weimar Republic's radix* is/was still used for primary directions. The 8<sup>th</sup> house in *part II* also had its significance highlighted. I also found an *Arc* and *sub-Arc* for both the *beginning of the Berlin Wall to its fall*.

Unfortunately, this is a history not whole known by general people. There is usually a brief talk mainly focused on the Berlin Wall, but not so much the events prior to it, at least not in details that are so important learning here. I hope to shed a different color of light which can be only comprehended by the decrypted language of astrology and the judgments that follow by the professional. History is history by the facts proven, recorded somehow, written, and with the aid of astrology the human shall find an exotic clarification that follows a rational reasoning by methodical correction, but with one foot on the *artistic concept* that astrology can't be deprived of; it is an work of integration, the creative plus the intellectual, the instinctual plus the reasoning, the assumption plus the neglect or observation, the experiment and the analyze.

### Mainly Reference

I detected the correct date and hour of the Iron Curtain beginning on the book "*The Berlin Wall, world divided*" (2006) by Frederick Taylor, author whose job allowed him to investigate inside both parts of Germany at the highest moment of the *Cold War*.

### PRIMARY DIRECTIONS EVENTUS

*Forecasting* is a strong and weird word nowadays. It is somehow *corrupted* when it shouldn't, and I mean in astrology, not that from the weather's announcer. Perhaps if more professionals begin utilizing this very ancient and renowned method (Primary Directions & others) in their works, it could bring a new dawn in the studies and general investigations, selected and chosen by pinpoint to be out to the public and not hidden in the private circle of society/civilization. The use of the correction of astrology is particularly for masters of the art, although quite simple in the use, one shall be ready for many obstacles when doing it by one's own, then a bag full of knowledge and experience shall be paramount. The angles that astrology reaches are further than one can imagine. The possibilities and trends are all there, and is not a simple transit that will bring down all the answers as well the right questions to make, there must exist integration of methods and techniques, and then finally, the coherence of results in practice/reality.

**THE COLD WAR  
THE IRON CURTAIN  
& THE ARC OF THE FIRST AIRLIFT  
FROM WESTERNS**

## THE TOO OBVIOUS BUT SILENT MODE WAR

The Cold War didn't have any official time, instead I utilized the hour of the *Iron Curtain*. During my research, I decided to erect myself the chart of the *beginning* of the *Cold War*, and found out a great divergence as to what date the cold war actually began. As an investigator astrologer, I need to correct time and date when there is an error, for the sake of quality and integrity of the investigation. Note that it was Saturn Return of Weimar's Republic!

### THE IRON CURTAIN& THE COLD WAR

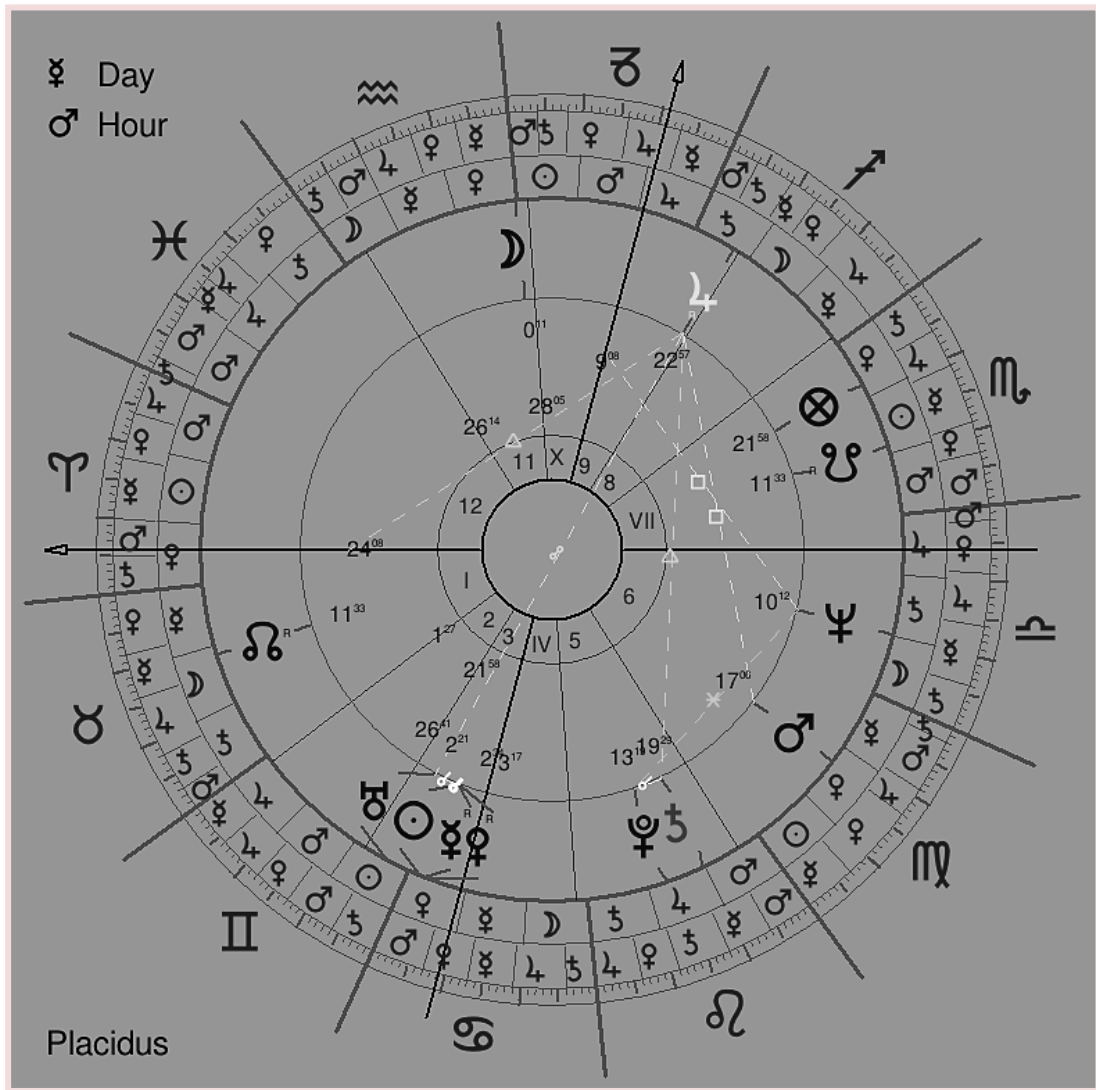

Chart: Iron Curtain – June24<sup>th</sup>, 1948 at 12:37:57am (Berlin; Germany) – Dusky's Rectification

This is an event which took place surrounding western Berliners while reinforcing entrances to both East and West by/in silent mode, characterizing the cold war. The "Iron Curtain", as portrayed in Germany by the Soviets and the world powers specially in Berlin, after WWII in a long speech by President Kennedy on July 25th 1961 – it

wasn't actually real in the physical sense as it was with the solid *Barbed Wall* forward in the 60's, but it contained what is understood as limitation (Saturn) and sublime border control (Pluto).

I investigated the correct date and hour on the book "*The Berlin Wall, world divided by Frederick Taylor*", author whose job allowed him to investigate inside both parts of Germany at the highest moment of the Cold War. By logic, I choose the date where the first Berlin Blockade by the Soviets silently began after midnight on 24 June 1948, which was the day after the USA, England and France decided to reform German's currency – chaos was filling up the spaces. Having the right information in hands, with precision, I was possible to obtain from the *Radix* the exact date of the physical construction of the Wall in the 60's with easy [by Primary Directions].

Venus ruler of 7<sup>th</sup> house of open enemies was conjunct the Sun-Mercury combo, all happening in the 3rd house of Mercury and communication, in the sign of Cancer, the House-Protector; Westerns knew they could only survive for approximately 45 days before starving to death after the *subtle blocks*.

Since there is no actual or official mark that says "*the cold war began because of this...*" the astrologer must base on history, having in mind that a specific time the event itself was "*born*" as already explained, the Cold War actually had its first steps after the 3 world powers reformed German's currency to the *D-Mark* – a day after, Stalin orders to *cut off routes, electricity, stations etc.* alleging it was due to repairs or "technical difficulties", happening right after midnight on the night of June 24th 1948.

The same with the Berlin Wall diurnal timing, it was planned to start after midnight, so the Soviets did. It was 2 nights after Full Moon at 0° degree Capricorn took place, which was the Germany's Summer Solstice, and the Moon by then moved to Aquarius by 0° degrees, surprising all the elements at once while isolating (Moon) a specific group (Aquarius).

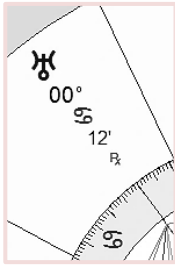

Observe the Saturn returns conjunct Pluto symbolizing a new cycle going on in the sign of Leo, which is Detrimental for Saturn, but still imposes power over the 5th house of public's access to what is vital and essential to the nation's very survival. The Conjunction also is part of a Grand Fire Trine involving the Ascendant in Aries and Jupiter in Sagittarius – until this June 24th, Russia sector was then who mostly provided energy/power across Berlin.

### **Almudebit – One Champ and Only**

The Almudebit of the chart is Mars the cutter [also ruler of the chart and in its own terms]. This was about stripping and cutting out communication, transportations, logistics, and entrances by air, earth and in water, which are all domains of tricky Mercury. In the chart, Mercury is applying a conjunction to the Sun by 0° orb and less

than 17 minutes from it, Mercury then was *Cazimi*, that is, in the *heart of the Sun*, it was in a very condensed position; meaning the planet of essential communication was purely off as if it was recharging for something even more powerful. The communication such as radio towers was deleted and hidden, but the attitudes were pretty clear to the citizens. But everything in this chart helped the event to take place smoothly for the first month, for both the Russians as well to West Berliners, the indirect kind of enemy.

## THE ARC OF THE FIRST AIRLIFT FROM STALIN'S ENEMY

Stalin really thought he could starve westerners to death by blocking all entrances as possible to West, but the Anglo-Americans stood up with France and built themselves up an *airfield*. Interesting enough, in the chart of the first landed airlift, Uranus the planet of planes had just re-entered 0° degree Cancer, a cardinal sign, and the sign of home, while the Moon was entering Capricorn, the opposing sign.

Having all vital places blocked, would westerners give up? Four months the iron curtain began to be visible, happens the first airlift from soviet's enemy, the *western Berliners*.

I directed Jupiter as promissor, which is the ruler of the 8th house of the enemies' move from behind the scenes, to the square of significator Moon direct in the mundane position, the planet which had just entered Aquarius and is cosignificator of 11<sup>th</sup> house of planes and aircrafts. It was a smart move that overcame the problems with "flying" and citizens concerning about basic needs such as food. The Moon is also ruler of the 4<sup>th</sup> house of homeland:

Regiomontanus Static Key: Naibod				
M/Z	Prom	D/C	Sig	Arc
M	♃	D →	☐ ☾	0.493

- using the Regiomontanus system, we obtain an Arc of 0.493 or 4 to 5 months after the interruption of power from the soviets, the first plane which was called by the Americans "*Operation Vittles*" landed West's Home at *Tegel Airfield* on 5 November 1948 or 4 months, 1 week and 5 days after the chart from the *iron curtain*..

Jupiter in the mundane chart is in terms with Saturn while trine natal Saturn. The moon's ruler is Saturn. The trine triggers a fine task. We can witness the *Arc activated* when the Soviet's enemy at that time took their first action despite orders were otherwise, in order to prevent starvation, lack of supplies and the essentials etc.

**WALTER ULBRICHT & MAJOR ARCS OF HIS LIFE  
WHILE BEHIND HIS WALLS IN EAST BERLIN**

**& THE SPEECH & FACTS**

## WALTER ULBRICHT

The investigation now is towards the person mainly responsible for the Berlin Wall itself and a few others in relation, one of the persons most hated in West Berlin from the beginning of the 50's to his death: *Walter Ulbricht*. Although the order of confirmation came from Moscow, from this guy I could spot the Berlin wall event coming to be true, confirming in a person the essence of an event as nation's destiny.

WALTER ULBRICHT

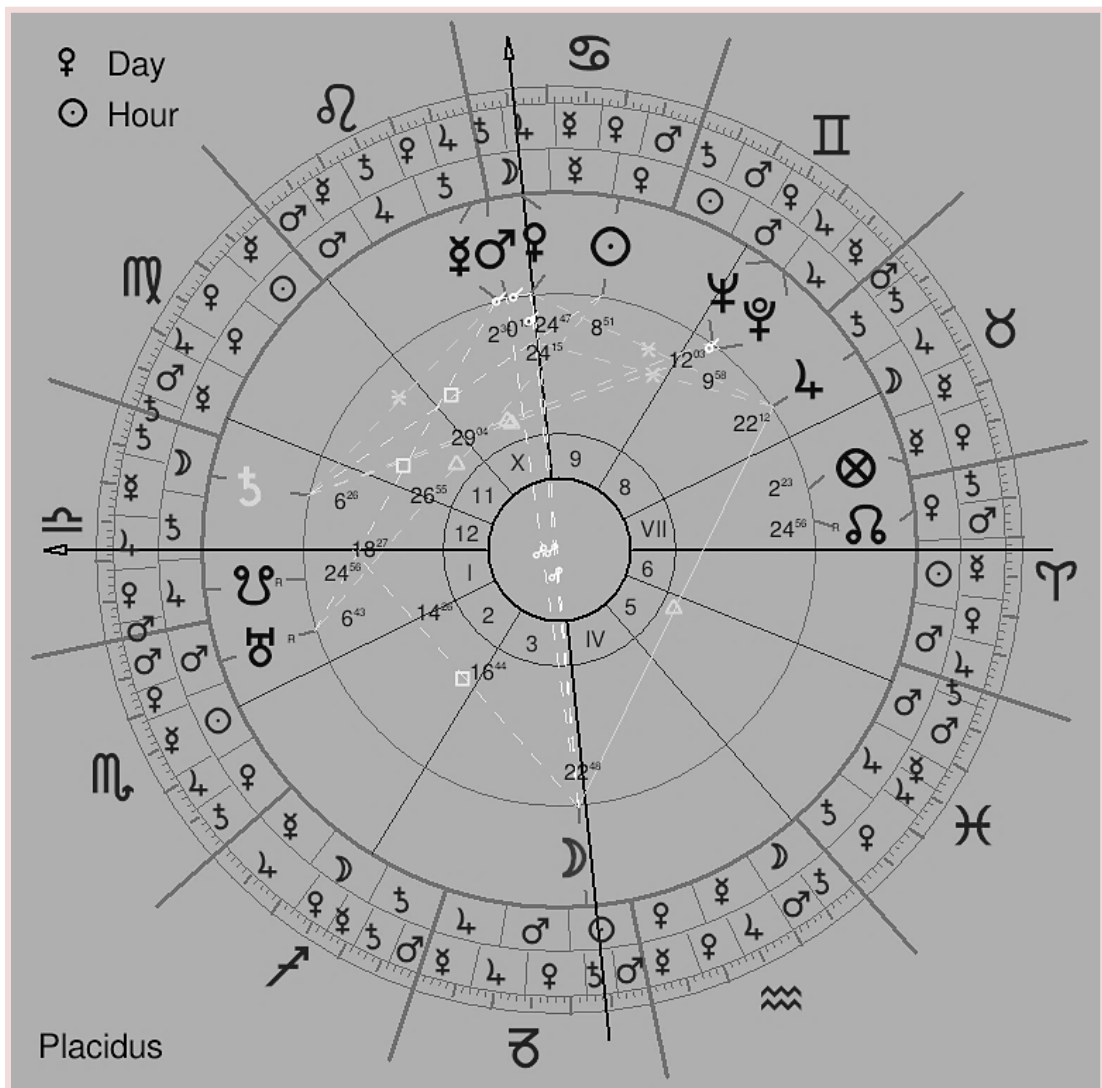

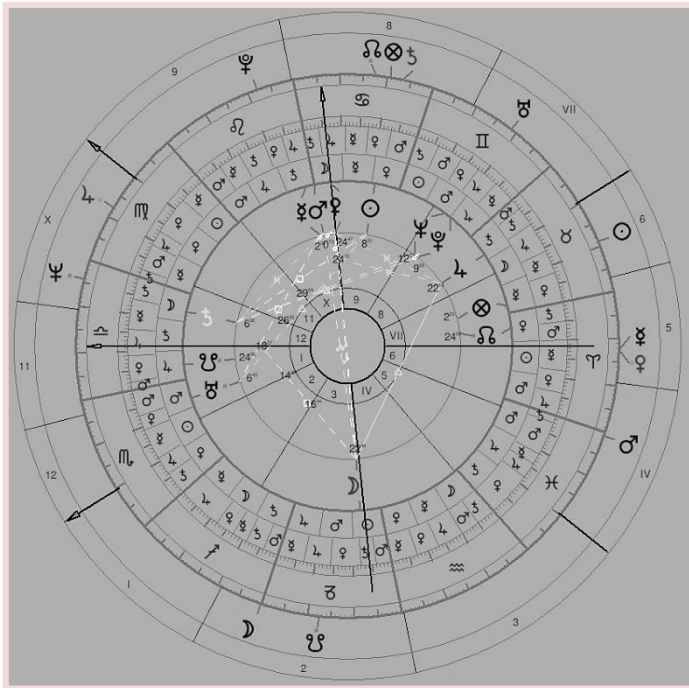

Chart: Walter Ulbricht – June 30<sup>th</sup>, 1893 at 01:20:00pm (Leipzig; Germany)

But this time, the famous Walter's Speech is what gave me clues, as he was the one responsible for the actual idea of the barbed Wall. Before all, the transits are briefly discussed and more dates from his radix are explained in details, such as first sign of him coming to power and the infamous speech "*No one intends to build the wall!*"

**Inner Chart: Walter Ulbricht –  
Outer Chart: arrival on Berlin,  
May 1<sup>st</sup>, 1945**

Ulbricht was an international politician but only seized to power when coming back to homeland [Berlin] directly from Moscow. Observe transiting Uranus conjunct natal Neptune-Pluto generational planets. It was time of sudden release of power and unexpected overnight gain of resources from others, strengths and dominion over something lost, which are equal to inherence.

Saturn was 2° orbs within conjunction with natal Sun in the international place of the chart (the same transit of Hitler when invaded Poland). Although he was German, he was found of Russia's political perspective better than his nationality could allow him to practice, and having to act before Stalin's order in his own homeland after 12 years on hidden (from the Nazis), it was a rejoicing time for him and perhaps the *most grateful* period for him in his whole life. He was politically obsessed - he was often known for '*fancying himself*' because he shared the same room with founder of revolutionary Leninism Marxism; Vladimir better known as Lenin, which died before Walter's ascension to power in East Berlin.

**The intriguing Foreign Politics**

Germany born Ulbricht had a tremendous chart of a great intentional liar (Jupiter in the 8<sup>th</sup> house) and of controversial temperament; Uranus is rising in his chart in trine to the Sun in timid Cancer in the 9<sup>th</sup> house of foreign countries and devotion – he was fanatic of Lenin's political saga. Observe Sun in the 9<sup>th</sup> house of *diplomas* and knowledge from abroad.

Soon after his Saturn's Return when transiting Pluto in Cancer was conjunct his natal Sun by 0° orb, Ulbricht was the youngest so far at the age of 30 in political schooling of Lenin in Moscow in 1924/5, the truly Communist Ulbricht was trained as a future leader to international uprisings and revolutions in a foreign country.

**Preparation for Power**

In Walter Ulbricht's Solar Return for the year of 1925/6 – Pluto is conjunct Midheaven by 0° orb, indicating a possible powerful position in the world, and as the 10<sup>th</sup> house also deals with what is in store for the future and precision of timing, it was a preparation for when the WWII finished in his future.

Before WWII, in the year of 1926, Walter was actually elected at the parliament and as soon as 1928 came in, he went to Germany (thus representing the *KPD Party* as leader of Berlin's in Moscow). His Solar Return of 1927-8 has Capricorn culminating in the 10<sup>th</sup> house of career, while responsible Saturn was conjunct by 0° orb the Moon in Sagittarius, the international sign of foreign lands.

Idealist Lenin of course, hated when Germany became a Republic in the Weimar town, but his party was certainly a minority in 1918 yet it had grown power and influence in Russia by the same time the situation in Berlin after WWI was extremely fragile, and probably Germany saw no other option but to dissolve the 2<sup>nd</sup> Reich reign – the settlement of scores being resolved, let's put it.

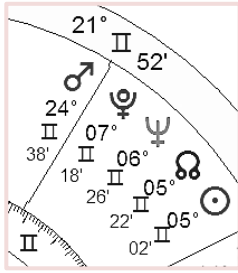

The irony part is that if there wasn't for the civil fighting going on behind the scenes, the confrontation from the Nazis regime initially financed by the *Thule Society* against the communists of Russia, the *Weimar Republic* may have had survived longer than 12 years.

**Note:** In astrology this is marvelous; it confirms again by historical events the fact *Weimar Republic* was under a 3<sup>rd</sup> *differentia chart* influence - as investigated - and, of course, the radix's rectification I've done as explained earlier.

### **Walter and Hitler – *The Twins***

Despite their celebration with Stalin soon after Prussia's invasion and occupancy in early 30's during the initial WWII, Hitler was actually a danger to Walter Ulbricht and the *Reds* when the Nazis took over Berlin during the same decade. Both sides had tried a *Putsch* to each with failed results, and Ulbricht is known to have been intimately involved. Astrologically, Hitler and Walter shared similarities and patterns in their genethiacal charts, and they were from the same Pluto -Neptune in Gemini generation! A generation where taboo of what the world should communicate to itself is glamorized and transformed, marked by lovers who found a morbid attractiveness in dying like *Rome and Juliet*.

Hitler had Venus conjunction Mars, Moon in Capricorn in aspect with Jupiter, Neptune-Pluto in Gemini located in the 8<sup>th</sup> house, and Libra Rising, Walter had all of the same, but the conjunction of Venus-Mars was in the signs of Cancer and Leo, and his Jupiter was in patience Taurus. Patterns of natural Leaders – the differences described but also sharing alike, would mean while Hitler was an expansionist maniac and bloody thirsty, Walter was an obsessive control freak and public masochist.

### *Hitler and Walter Composite Chart – Davison Relationship method*

While investigating further I realize in their composite chart by Davison Relationship method, that their Sun, Mars, Neptune and Pluto together are all in Gemini in the 8<sup>th</sup> house - the twins that went from bad to worse.

When Nazis of the Thule Society went to power in 1930, Walter Ulbricht went into hiding as the Communist party was considered criminal. There was a Total Solar Eclipse in Libra at 27° degrees a month later which obscured Walter's body, touching the 1<sup>st</sup> house of the self for the initial 4 years ahead of him, setting foot on Berlin only 12 years later and day after WWII was over and 24 hours after Hitler was considered dead.

### **The Arrival – *The Exotic Snake in the Vase***

When Ulbricht arrived in Berlin he said that Easters shall *“not go a millimeter further”* - Churchill was aware of the invisible Iron Curtain that would soon cover all the 3<sup>rd</sup> ex-Reich territory and warned EUA (Washington). This fact also confirms the mundane charts of the 4 potencies governmental decisions to each as investigated at first. EUA, England and France all have Libra be it rising or culminating, summarizing the capability of real diplomacy from each government head master, the URSS chart however, shows a Mars-Uranus conjunction and Saturn in Libra, an unsteady chart near others, specially USA with Saturn also in exalted Libra, and Uranus square URSS Mars-Uranus conjunction, a volatile existence.

The Reds as known communists and Stalin wanting an equilibrated relationship towards the 3 world powers, Ulbricht started out in public his noticeable great dishonesty; the first step was to tell the public a lie. He told his interpreter for the Russians, Leonhard, by the end of May 1945 that everything and their party shall *“look democratic, but we have to hold everything in our hands”*.

### **The Divergences of a Division in Germany & the Stasi**

Initially, Berliners showed Ulbricht much respect and empathy, mainly because he used to self-propaganda as an anti-Nazi person. Yet, Walter was doing the same thing Hitler was in his years of power, sending confusing or dual messages in social gatherings which you'd probably never known if that Libra rising was lying or telling a truth. Not surprisingly, concentration camps were hold by the soviets, and a kind of *“Gestapo”* came under the name of *Stasi* born in the 50's, persecuting radicals and whoever opposed their system. Many were from *Gestapo*, and by the decade of the 80's, *Stasi* had a net force of more than 90.000 infiltrated agents on duty, and about 175.000 official informants; dictators use such system of espionage and arrest in order

to assure fear in the population, in the industries and the armed forces of the nation, naturally assuming control of the all while nothing is left to escape unnoticed.

Their marketing bottom line approach was clearly, to seduce people of the West by some kind of underground war, promoting the idea of how doomed was West's future, thus creating the need to come to the East and fight against the West as if it was the best option available and as Ulbricht pointed out; the West side of Berlin would fall as the same happened with the South and the invasion of North Korea which Stalin approved back in 1950.

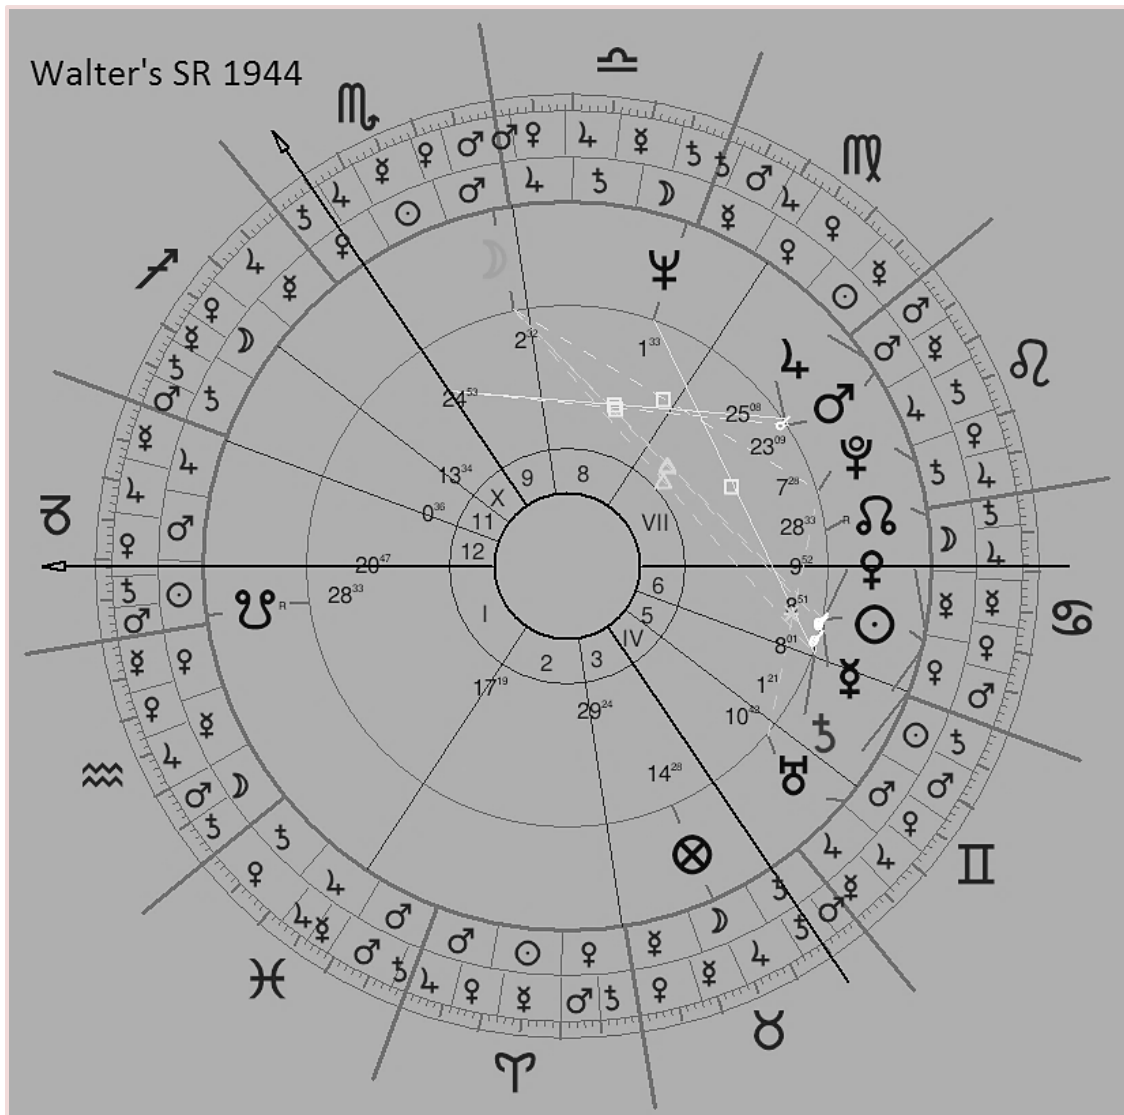

Their propaganda was very direct as well; posters everywhere in the *grey East Berlin* of *Stalin, Lenin, Marx* and random public committees were taken in order to direct the worst at the opposition.

West Berlin post-war had its many problems as well, but it was seeing the Sun with the blossoming of businessmen and entrepreneurs while also urban centers were getting busier and more entertaining - as the part of the capital that would welcome democracy at its best. By the same time, it was calling also attentions of millions refugees running away from the Soviets – the people under strong Neptune operation.

In the east, prostitutes were having sex for some packs of cigarettes – groceries and drinks were the unofficial currency for others business, the lack of everything made people wish for the other side.

Ironically, during the 50's many Berliners could actually afford to have a good life, it was less dangerous than when the sand Wall in early 60's began – but the division of the capital was contrasting and evident.

## COMING BACK TO HOMELAND

Soon after Hitler took his own life, privileged Walter came back to his German soils in Berlin. Probably URSS considered Hitler a *malefic phase* that ruined their higher plans. The year of 1945 was major for Ulbricht coming back to the country he was born. It was a time to seize power for Walter and that year he helped restructure the URSS' commands over East Berlin and more if there was the opportunity. Now, if you note, the annual Ascendant is natal 4<sup>th</sup> house of homeland! Observe the Asc/MC Arc below:

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	Asc	C →	MC	300.05	1945.05.01

- In the Solar Return for 1944, if we direct his body (Asc) as promissor to his and culminate it in the Zodiacal position while utilizing Placidus method with the key of Naibod (and opposite 4<sup>th</sup> house of birth-home) converse we obtain the date 05/01/1945, the exact date when Walter Ulbricht fled to Berlin, which was on May 1<sup>st</sup> 1945 – 24 hours after Hitler shot himself to death.

And there is another method that confirms the date but with a general outlook over his life in that period. Let's investigate that now.

#### **4<sup>th</sup> Sign Protected Year [Capricorn]**

Now, the intentions of Walter that year was upon his homeland [4<sup>th</sup> house], once Annual Protected Ascendant for the solar year between 1944-1955 was Capricorn, the sign on rooted on the 4<sup>th</sup> house cusp of his natal chart. Observe again, that annual Ascendant was also Capricorn. The ruler then, Saturn was transiting 1° degree of territorial and home sign of Cancer.

## THE ARC OF WALTER FIRST SIGN OF RISING TO ULTIMATE POWER

Investigating his *Genethliacal chart*, if we take the term ruler of natal Asc as promissor and direct to Hyleg – we find some of the most significant period of one’s life, because the Hyleg is the planet that most benefit the individual in Primary Directions. In his case, Hyleg is the Sun, and the term ruler of his Libra Ascendant is Jupiter. Natal Jupiter is in terms with Saturn; natal 10<sup>th</sup> house is bounded with Jupiter. Observe:

Regiomontanus Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
M	♃	C →	☉	51.125	1945.05.14

- Now, if we direct the Mundane position of promissor and *foreign* Jupiter to the position of the significator Sun converse while using the Regiomontanus method we obtain an Arc of 51.125 – Walter became famous and globally watched as soon as his arrival in Berlin 51 years after he was born, in 1945 – This is the first indication of his major leading role in the world of *international politics* during his whole life, a wish [yearning/longing] coming true.

From this year until his death, he got wealthier and seized to power instantaneously, having meetings with specialists and professionals while deciding next moves in eastern Germany post-war, leading all to Stalin’s final decision. Observe the Sun is in bounds with Venus, the lesser benefic below greater benefic Jupiter; also the Sun is ruler of 11<sup>th</sup> house of friends and socialism.

However, with the external world getting loaded of TVs, foreign lands were watching in television the political arena full of closures and the whole history being recorded, and a global consciousness emerging, it was a matter of time before such regime to disintegrate for good, not matter how hard they’d try; but it took many years more of isolating what they considered enemy of state.

Yet, *East Germany* remained in chaos, destructions, starving people, inflated economic situation, millions of women having abortions underground, poor medical care, no proper schooling, no entertainment etc. All deprived of benefic apportionments, or, attributions.

However, the other side [West] began to rise again, a democratic while capitalist oriented occupancy where many professionals, and specialists and people of money coming to West side irritated East siders, the communists who had been preparing a major plan to discontinue the spontaneous flux at the moment Walter sets foots in

Berlin. Walter was daring and perhaps didn't have problems with grandiosity like Hitler.

The Cold War was cold mainly because under the appearances, Stalin wished to conquer west somehow, but in silence and no direct confrontation, yet Ulbricht didn't share the same idea, he wanted a solution and not extension of problems he considered dangerous.

## MARSHALL RECOVERY PLAN

The *Weimar Chart* still holds its essence for the year of 1947 – the year of the “*Marshall Plan*” first noted on June 1947, a recovery plan was proposed by American *General Marshall* but signed up by *President Truman* only on April 3<sup>rd</sup> 1948.

### THE ARC OF THE MARSHALL PLAN

The plan was also to combat the influence of the communists – the aid to the West was up to 110 billion dollars (*equivalent in 2016*) in economic assistance.

- if we take promissor Pluto, the planet of immense recovery and power to the significator Dsc (cusp of 7<sup>th</sup> house and opposite Asc) converse by Primary Directions, we can identify an Arc and also a date of a possible powerful help coming from a significant international Allie, in this case the West Berliners would most benefit from it aside from UK and France. Wealthy Pluto is ruler of the 9<sup>th</sup> house of abroad relations and international support:

Placidus(semiarc)		Static Key: Naibod			
M/Z	Prom	D/C	Sig	Arc	Date
Z	♃ ♀	C →	Asc	28.141	1947.05.29

- Using the Placidus method in the Zodiacal position and the key of Naibod, it is obtained an Arc of 28.141 and the further the date of May 29<sup>th</sup> 1947 – the Marshall Plan was first proposed on June 1947, after 28 years and 7 months after the Weimar Republic was born and it was also its Saturn Return [as seen already]. Nonetheless, in matters of seconds we obtain the exact month.

This event marked one of the most powerful contributions (Pluto) from abroad (9<sup>th</sup> house) and from an ally (7<sup>th</sup> house). Pluto is also in terms with benefic Venus, natural significator of the house.

## THE UPCOMING WALTER'S DIVISION

When Stalin was declared dead, Moscow looked different at Walter 'who' started showing his radical side more often, with a program to build *socialism* around Berlin – Walter had Sun square social integrated Uranus in the 1st house of personality.

### Fear of being Overthrown

The working class of Germany supported Walter in his political walk until 1953 when he still had time to lie and to people believe in him. His natal Venus in Cancer, the planet of admiration conjunct the cusp of the 10<sup>th</sup> house of career status by 0° orb in the radix, somehow the people strongly empathized with the man with that “*adore me please!*” Libra rising.

The 1953 was also his year where the working class caused a revolt calling up his name and 2 others more and had to have army protection. Until then, Walter was acclaimed by the class. Unfavorable conditions over his Solar Return for the 1952 where the transiting Moon in Libra was conjunct Saturn in the 9<sup>th</sup> house square Venus (ruler of 10<sup>th</sup> house of public image) in the 7<sup>th</sup> house of open enemies; it was also the 2 years he feared of being overthrow by other leader. From this point on, Walter became even more famous but even more fearful even by Moscow, yet his plans was proving “working” – Withal the Moon-Saturn conjunction in SR indicated a year of fragile status & failure to the public.

### On the Verge of Nuclear War

Right in 1958, Walter was reigning higher and resourceful but the mayor of West had changed and was also an ex-member of *Weimar Republic*; Willy Brandt the eventual responsible for the fall of the Berlin wall.

On May, Walter Ulbricht had already made claims about closing borders of the East, while sharing the idea to the leaders of the Warsaw – however, they didn't buy it. But such claims shouldn't be out to the public in Walter's view, mainly because it would decrease the chances of a surprising element and thus ruin his plans earlier. The Germany capital bearing 4 million citizens was about to be divided - families living, working or traveling to both sides, people started worrying about.

It is curious there is not a movie based on Ulbricht; this guy was an influence of power and leadership, and like Hitler, used his geniality for gangster. This is incredible; the events unfolding bearing a frightening nuclear apocalypse resulted from world potencies, and then came Walter thinking he just won the best toy at the store to play with, and actually he did it! – With a witty performance attached.

In the 60's, the USA and URSS were on the verge of a Nuclear War. Pluto rules over Nuclear Power and the planet in both charts are opposed to each, URSS with Pluto in Cancer and USA in Capricorn. Three weeks before the Wall, American President Kennedy addressed to the world by TV in July 1961, directed speech to the West Berliners, the three Allies and URSS – the climax was felt worldwide.

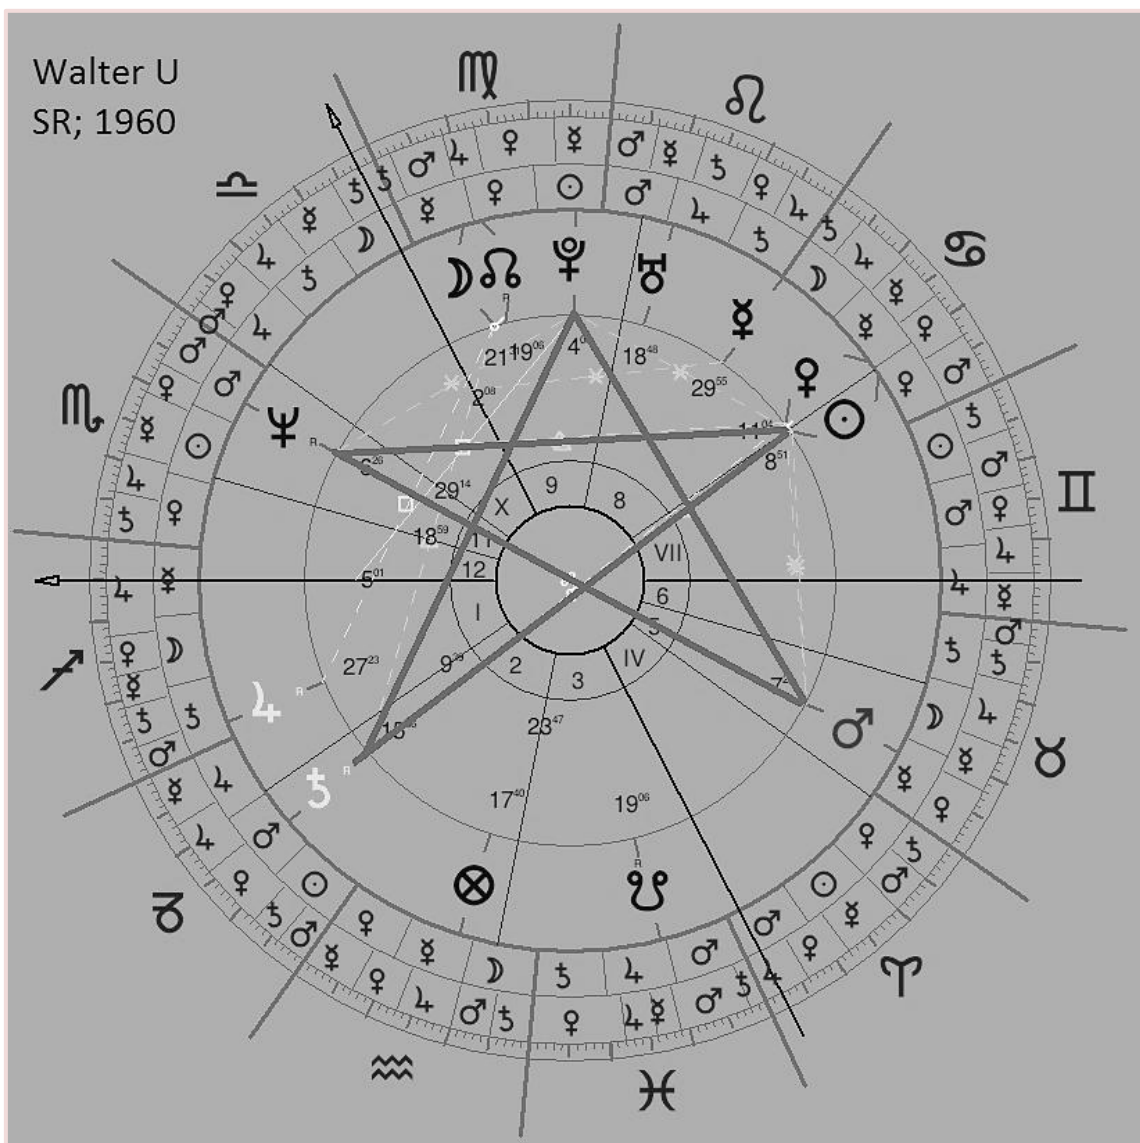

The famous but infamous Walter Ulbricht speech was coming; the reporters already knew his weakness. Two months earlier the Berlin Wall event took place; Ulbricht gave a speech to a press conference in East Berlin, and was soon confronted by a West Berlin reporter which made Walter one of the biggest liars of the 20<sup>th</sup> century.

## NO ONE HAS THE INTENTION OF BUILDING A WALL – THE ARC OF THE INFAMOUS WALTER’ SPEECH

Observe in details the *Star aspect* which follows Walter Solar Return of 1960 – involving personal planets Sun and Mars, social Saturn and transpersonal planets Neptune and Pluto. From this SR it can be spotted the date of the speech which changed the destiny of the *Cold War* and the consequences of it. Curiously, the plain *Red Star* is a symbol associated with communism. Until today many places of the world bane the public demonstration of it. Observe the annual Ascendant [1960] in Sagittarius, which is natal 3<sup>rd</sup> house of speeches, interviews, newspapers, etc.

### Walter’s Star

In the diagram, the five-pointed star that forms a sort of pentagram, all the sides the planets sextile each other (not shown), except above where Mars trine Saturn. The configuration of the star is made of 3 trines and 2 oppositions, and not commonly and

particularly seen as a “pentagram” aspect configuration, but is equivalent to 5 points integrated forming what is known as a *star symbol*. Number 5 is a very *humane* number as it resonates with the fivefold division of the body; humans have 5 describable senses, 5 toes and 5 fingers which are 5 points on the extremities of the body, and also there are the 5 stages of human growth and development (e.g. birth, adolescence/growing up, procreation, parenthood and death). The pattern has a fiery punch affected by planet Mars, as if something that peculiar year would be clearly specific and action all taken at once.

In Walter Solar Return chart for 1960, using the traditional orders of the planets, Saturn rules the last 85 days [before his next Solar Return that came in 15 days after it], and was ruler of 3<sup>rd</sup> house of national speeches, indicating a fragile period over status and popularity once Saturn was opposite Sun return conjunct Venus. And there’s more; Natal 8<sup>th</sup> house Gemini was

annual 3<sup>rd</sup> house of the Solar Return, a lie would come anyhow.

Then on June 15<sup>th</sup> 1961, the reporter asks ‘*Does the formation of a Free City in your opinion mean that the state boundary will be erected at the Brandenburg Gate?*’

**Among others lies it came for last the famous reply: “no one has the intention of building a Wall” – suggesting ahead his plans for the next 2 months without even realizing he was giving clues to the West. Two months later the wall was erected:**

Regiomontanus Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
M	☿	D →	9	341.816	1961.06.12
Z	☿	D →	9	343.404	1961.06.14

- using the Regiomontanus method in the Zodiacal position and the key of Naibod in Walter’s Solar Return of 1960, we simple direct promissor Mercury the speech as to the cusp of the 9<sup>th</sup> house of foreign speech as significator direct, which is obtained the date of June 14<sup>th</sup> 1961 – a day before the speech.

### Dodecatemoria Ascendant – *The Great Liar*

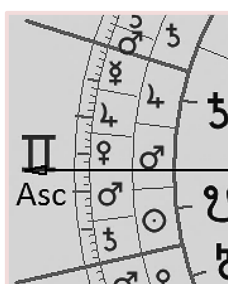

Analyzing Walter’s Dodecatemoria Ascendant, that is, his pure intentions and thoughts that can’t escape or avoid during his whole life is at 22° Taurus. In his natal chart, Jupiter the biggest planet is at 22° Taurus in the 8<sup>th</sup> house of secrets and intentional lies, which is in exact trine to the Moon in the 3<sup>rd</sup> house of journals and reporters by 0° orb.

### Firdaria – *For Diurnal Chart*

♂	1956.06.30 - 1963.06.29 (7 Years)
♂	1956.06.30
☉	1957.06.30
♀	1958.06.30
♃	1959.06.30
♄	1960.06.29
♅	1961.06.29
♆	1962.06.29

Water Ulbricht was actually active in the sense of wanting to have things his own way, Mars the planet of war was ruling the scheme of things for 6 years already and was entering the period of natal exalted Saturn as soon as he completed 68 years old, just a few days before the speech, thus limiting, reigning and controlling, were all his new general

phase. Saturn in Walter’s genethliacal chart occupies the 12<sup>th</sup> house of lies he even believed himself. Also, Saturn is ruler of the 4<sup>th</sup> house in natal chart. One of the most malefic periods of his life [Mars-Saturn] translated through the wall/barrier imposed on others.

### The Profected Ascendant

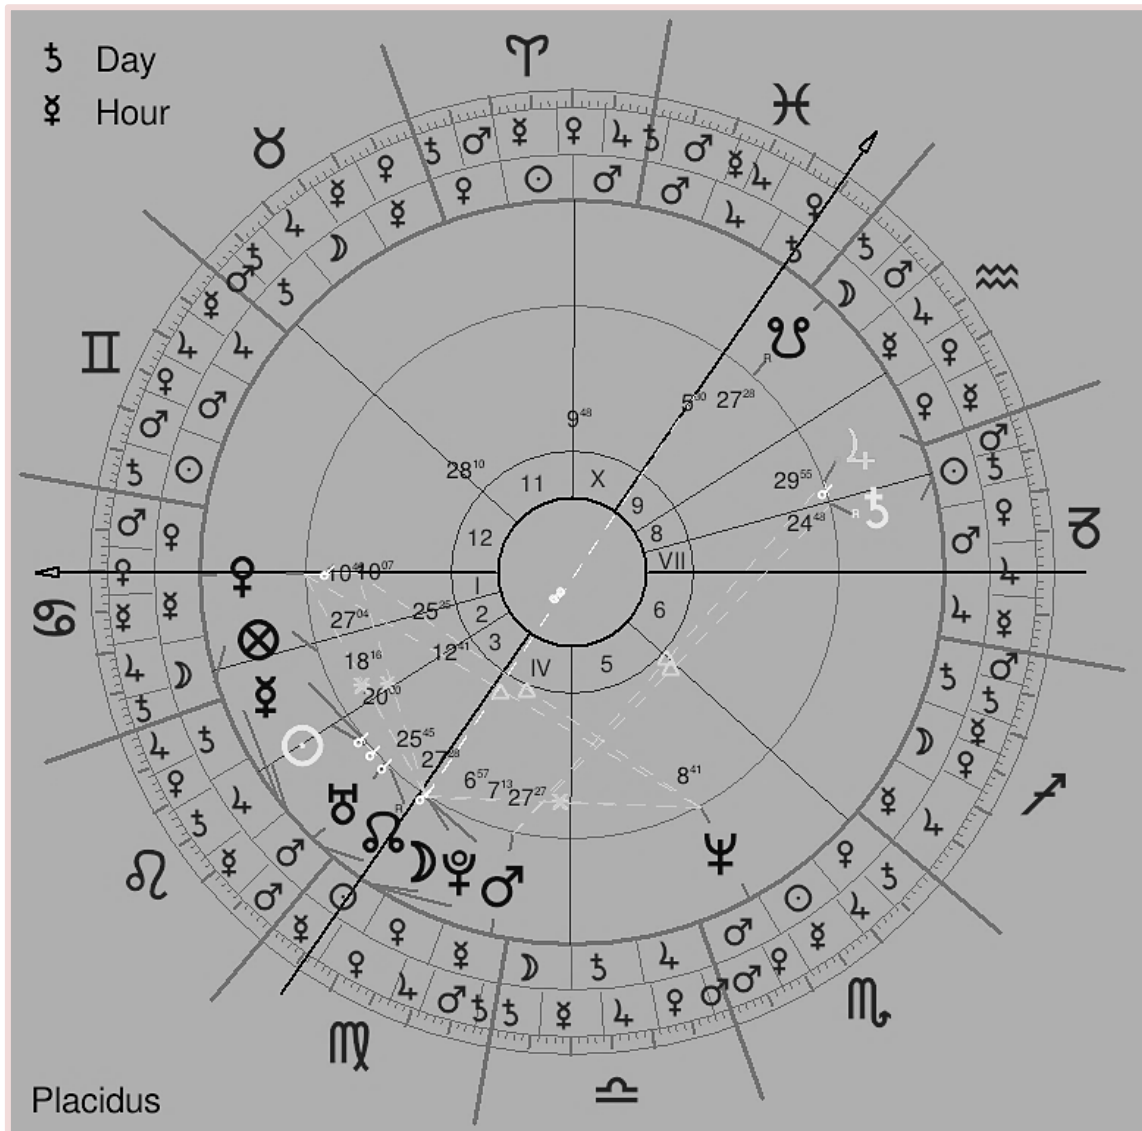

Gemini was the profected [terminal sign] for the year of the Wall, that is, public communication and press conferences was relatively normal for him that year, once a political important figure at the time. We should definitely pay attention to Mercury, the ruler of speeches.

### Direction of Jupiter-Venus & Jupiter-MC

The Primary Direction that took place here is very simple in the genethliacal chart is quite powerful and very objective. The natal position of Jupiter some time after he was born reached the same position the MC was, culminating at some part of that Solar day, corresponding to an Arc of such year where Walter reached internationality [Jupiter] and popularity [Venus], right in 1961, and the last gives the exact month.

**THE BERLIN WALL**  
**THE CHART**  
**& THE ARC OF THE LAST PHASE IN THE**  
**SUCCESSFUL LIFE OF WALTER**

## THE BERLIN WALL

Berlin Wall begins: August 13<sup>th</sup>, 1961 at 01:10:50am [Berlin – Germany]  
(Dusky's Rectification)

Here is another divergence of general consensus's timing for when the wall really started being erected; a real problem for astrologers that search for precision. The chart rectified by me is 10 minutes later to what is written over the internet. Actually, Taylor writes in his book it began one minute past midnight by the announcement from the East that intercourses between entrances were shut down for the time being. Why do many astrologers still use one hour later the major declaration? My guess is that only 1 hour after, they realized it was actually a message of another *sealing*; yet my rectification proves it took the exact 10 minutes more.

## THE BERLIN WALL BEGINS

For his Solar Return in 1961, Walter had its whole Zodiac wheel opposite to his genethliacal chart, that is, Aries was ascending on his 68<sup>th</sup> birthday, indicating a difficult period for the native for the year ahead – but that was the year of action against others according to the annual Ascendant [SR] point/of view [7<sup>th</sup> house].

Walter was well known for his organizational skills in the *international politics* field. Secretly, Walter had been influencing many people as possible to his “operation rose” – coincidence or not, the chart of the Berlin wall when it began Venus was Rising and conjunct the cusp of the 1<sup>st</sup> house by 0° orb; Venus rulers over roses.

Walter greatest time was coming – soon after midnight on August 13<sup>th</sup> 1961, almost exactly the same time of the *Iron Curtain* chart, the known “*barbed wire Sunday*” was on’ the clock – The transportation system of West Berlin realized something weird...

Announcements were being made and traffic to the East and West would have been ceased for a while, people on train stations that needed to go back to the West remained on East. While then, the Berlin Wall began being built, and by the morning the sufficient material for the wall had been mostly erected, troops were already in their strategically places, and checkpoints were built.

Observe the mundane chart of the Berlin Wall construction; there are no hard aspects, realize how easy it was to erect in such silence? Malefics are doing trines to each other, Venus is rising and is ruler of the 12<sup>th</sup> house of silence, also trine Neptune 10<sup>th</sup> house ruler – the majority of the citizens only knew the barrier until the next day!

Hard shell Cancer sign was rising, the protector, and the builder of walls, while Saturn in Capricorn opposing it, the sign of limitation and barriers – it was an overnight event, the Sun is conjunction Uranus the planet of the sudden and radical events – interesting enough, sign of Cancer also raises in the chart of the fall! Yet the *Saturn Return* of the chart of the Berlin wall signified something of higher meaning yet to flourish afterwards from the West. Jupiter conjuncts Saturn, both are setting in the western angularity, while the Sun-Uranus conjunction is rising on the Eastern angular house (see more of the mundane Jupiter-Saturn conjunction in *results#2*).

Among the checkpoints in the border, the Western Allies named one specific entrance, the checkpoint Charlie, becoming one of a representation of the Cold War. Jupiter rules what is foreign, only diplomats and foreigner were allowed to pass it through. Photos show the Americans and soviets tanks facing each other in the location in 1961 but fortunately there were no violent attacks.

### The Sect

Sun in Leo is in the traditional house of the Moon [3<sup>rd</sup>] – The beginning of the barbed wire Sunday had a nocturnal chart and Saturn is *out of Sect*; it brings trouble to both him and Jupiter, which the last becomes over proportioned, oversized, exaggerated etc.

In the mundane chart of the Berlin Wall construction, Saturn in Capricorn is in domicile, empowered, Sun is in domicile as well, however, Jupiter at first is at fall in Capricorn, but in the return of Saturn at the day of the fall, Jupiter was actually exalted. Also, Saturn rulers over capitalist system, while Uranus the political socialism along with Neptune's Communism – the division of the wall was soon recognized as a war between potencies and political ideals.

It was a weak wall after all and despite it had taken a whole Saturn voyage around the entire Zodiac [about 28 years], it wasn't unbreakable; many politicians from the East, thought the wall would last thousands of years, especially the creator of the wall in the physical sense and Ulbricht successor; Erich Honecker. A Saturn out of sect weakens its physical foundation. Saturn is ruler of the 7<sup>th</sup> house of open enemies in this chart, thus the enemy weakening the physical wall but at first showing no resistance (after all, it stood up for a whole Saturn journey through all the Zodiac signs), once Saturn is opposite the Berlin wall's 1<sup>st</sup> house of its physicality; Jupiter on the other hand, helped Saturn achieved its maximum.

## THE LAST SUCCESSFUL PHASE OF WALTER ULBRICHT

Before investigating the *Arc of the Berlin Wall*, the event which Ulbricht must have had been so happy about, should it *all of it* be obtained from this man? The influence, the power over major decisions that affected the whole population of both sides of Berlin; it was clear a time for culmination of one of those in charge up in there.

**This is actually the Arc of the last phase in professional life for Walter obtained from his genethliacal chart. Saturn, the planet of the professional is directed or culminated to its natural position in the Zodiac, the 10<sup>th</sup> house of success & *final* achievements, and the Mc is in terms with Saturn:**

Regiomontanus		Static Key: Naibod			
M/Z	Prom	D/C	Sig	Arc	Date
Z	♄	D →	MC	69.752	1964.04.06
M	♄	D →	MC	70.723	1965.04.01

**Well, if we take Walter's promissor exalted Saturn which is ruler of the 4<sup>th</sup> house of major ends to its own culmination in the 10<sup>th</sup> in its Zodiacal position with the Regiomontanus method, we obtain an arc of 69.752. We assume by the wall being done, Walter's greatest moment in life was achieved by his 69<sup>th</sup> birthday, a year after the Wall being erected. Saturn's direction to the MC also corresponds to retirement.**

Most of his acts were in secret, including all the materials to build the wall, nobody had a chance— In secret, Walter delegated tasks to more than 68,400 people including police, militia, security officers and soldiers. Also, reiteratively confirming his Dotecatemoria Ascendant at 22° Taurus, this is positioned in Jupiter at the same degree and sign in the 8th house of secrets and control over others. Investigating his life and his manners, I think Walter Ulbricht wanted international prestige and apply what he thought was the best, no matter the price even if that was to be paid by others peoples blood – It all applied to his homeland but with international support directly from abroad, that is, from Moscow; Ulbricht was a symbol of intercontinental representation of power and authority. Walter's natal Sun in the 9<sup>th</sup> house was square rejoiced Saturn in the 12<sup>th</sup> house; Despite tremendous efforts, Walter never achieved his wholly dream of turning German into a socialist nation.

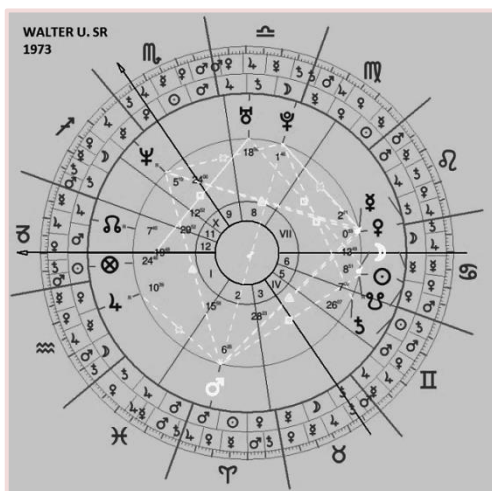

## WALTER ULBRICHT DIES – THE ARC OF THE REAPER

The first president of the Oriental Germany's State Council Ulbricht dies with unknown reasons a decade and a half before the fall of the wall, and leaves the world a month after his 80's anniversary on August 1973 – here we find a case of a person that had long lived. It was a matter of finding the Hyleg and the Anaereta planets from his genethliacal chart:

Regiomontanus Static Key: Ptolemy					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♄	D →	☉	79.928	1973.06.04

- by utilizing the Regiomontanus system and the key of Ptolemy, if we direct Anaereta [murderer] Saturn to the position of the Hyleg Sun direct in the Zodiac, it is obtained the Arc and approximated date to the politician's death, which was on August 1<sup>st</sup> 1973. The Arc and date are 2 months late but isn't alarming; if we rectify the chart for one minute and a few seconds earlier, it can be obtained the exact day of Walter's death. In Ulbricht genethliacal chart, Saturn is ruler of 4<sup>th</sup> house of end of matters, and the Sun is the Hyleg, the planet that most offered him vigor conditions in all senses.

### Death in the Solar Return

Here's an Arc with much more accuracy of the date which confirms the expiration of Ulbricht's body but only a few hours of delay (August 1<sup>st</sup> 1973); it was used the same system as above but the direction is converse, thus more puissant in this case. It was necessary to direct the ruler of the 1<sup>st</sup> house of body to the ruler of the 8<sup>th</sup> house of death; there is no mystery in this Arc except people don't know about the reasons behind his death until today.

Regiomontanus Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♄	C →	♃	32.489	1973.08.02

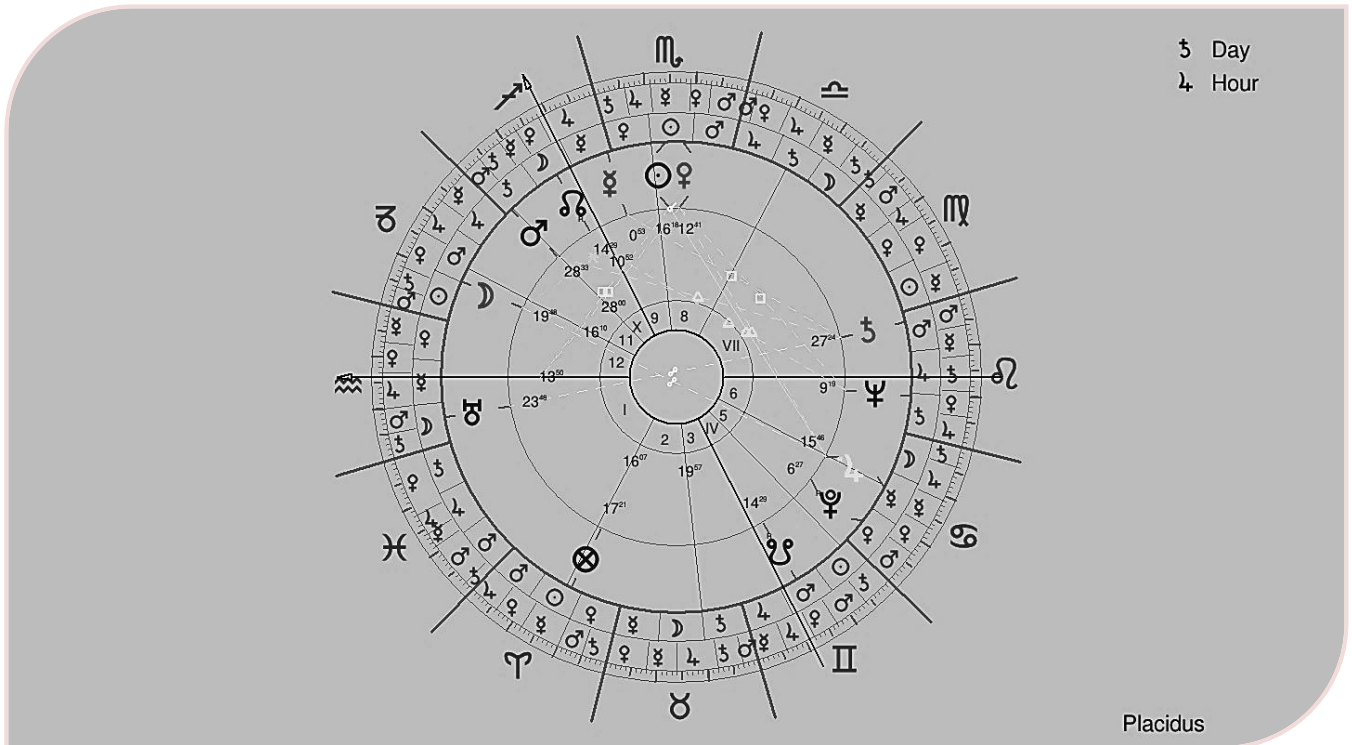

The grand trine in fiery signs involves Mercury – the signifier of the direction of death,

and Neptune is there too, suggesting passing away with unknown reasons, at least for the public, once the planet falls in the 10<sup>th</sup> house of public status.

**THE ARC OF THE  
BERLIN WALL CONSTRUCTION  
FROM THE WEIMAR REPUBLIC RADIX**

## THE BARBED WIRED SUNDAY

The capitalist society of the West that couldn't see further considering the communist from East blurring their vision, from mirage to a thing they could actually touch. In a Sunday morning of 1969, Berliners witnessed the concrete division and divergence of two political and economic systems in the land of angels and demons sharing the same state, but avoiding each other's real presence. Astrologically, the mundane chart indicates Germany saw itself in a karma unresolved:

Weimar Republic – November 11<sup>th</sup>, 1918 at 01:32:02pm (Berlin; Germany)

## THE ARC OF THE BERLIN WALL'S CONSTRUCTION

After the Nazi Fall, the post war was a period of intense psychological burns left out from the worst armed conflict in history. Beyond the forty million dead bodies, there were also monetary divergences and the lack of a real and true leader. Germany was already divided by then; then the Cold War began just when people started to rise from their apocalypse [WWII] and the 4 world powers were reigning all over Germany in divided 4 Occupation Zones in the post-war scenario, the tension in a country located in the heart of Europe was consuming and people found themselves in dangerous positions such as the fear of being arrested, interrogated, beaten and assassinated; something as frightening as a war was still surrounding Germany. Many were that wanted Hitler's head and mirrored all the hate towards German's civilians, even those who didn't support Hitler themselves. Hate and vengeance was still proclaimed in the air. The *Weimar Republic* was still having its *consequences* afterwards:

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	☾	D →	MC	42.146	1961.08.13

- Using the Semi-Arc method under Placidus teachings, if we take a promissor Moon's position in the Zodiac and direct to its own culmination, plus the static key of Naibod, it is obtained the date of *August 13th 1961* – the exact date of the Berlin wall when it officially started. Since this is an Arc of a long period after birth of the event, we can trust the date given by Naibod.

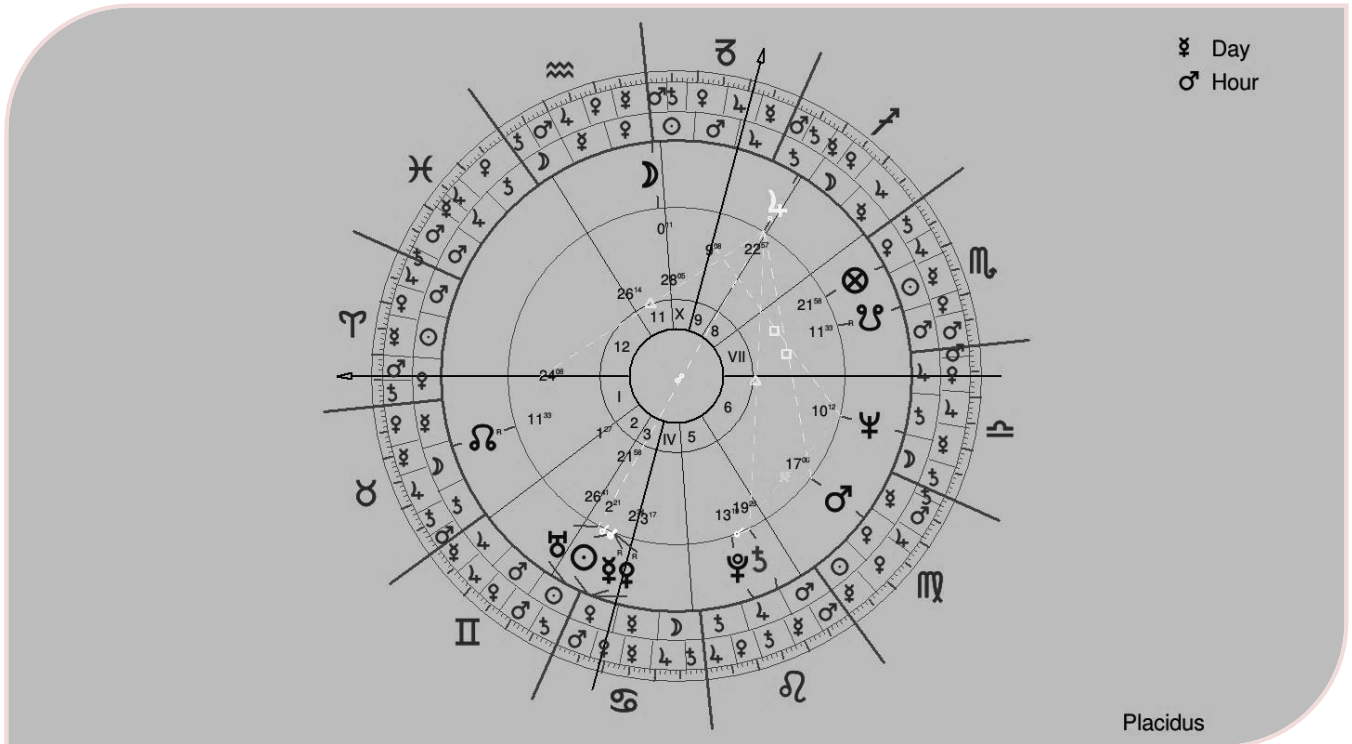

Observe that the Moon occupies the 12<sup>th</sup> zodiacal house of imprisonment, and taken it to its culmination in Sagittarius in the 10<sup>th</sup> house cusp, the Moon would implicate in the building of the walls around people, the *Stalin's "secure camp"* would later emerge as real in concrete forms on August 13th 1969 with the construction of the Berlin Wall.

The Moon reaching the *Medium Coeli (MC)* in the chart of Weimar Republic is the culmination of the people left after WWII (natal Moon in 12<sup>th</sup> house); in this case it was about erecting a wall (Moon/Cancer) in order to limit entrances (MC). The Moon is directed to the upper Meridian, a great circle perpendicular to the horizon [another great circle] that divides the Zodiac into eastern and western half!

**THE SUB-ARC OF THE  
BERLIN WALL CONSTRUCTION  
FROM THE COLD WAR' RADIX**

## ANOTHER MOVE IN THE CHESS GAME

The sub-Arc of the Berlin wall construction is found on the radix of the initial *Iron Curtain* event. It constituted the isolation of Berliners to and from the West while being ringed by what is tantamount to *sequestration* – the decision evoked from the soviets in order to control borders and general essentials; *it was clear the picture: I had to find and Arc that shall resume the construction from the soviets part:*

Iron Curtain – June 24<sup>h</sup>, 1948 at 12:37:57am (Berlin; Germany)

### THE SUB-ARC OF THE BERLIN WALL CONSTRUCTION

It is curious how a single event of major proportions can be precisely confirmed in 2 charts (*Weimar Republic & Iron curtain*); the events that took place from the Germans themselves and the other the soviets. The inclination would be towards the fall of the Berlin wall when reached its *Saturn return* in Capricorn [Berlin's walls construction chart]. *How to obtain the date of the beginning of the construction of the Berlin Wall from the beginning of the cold war?* –I asked myself.

It was necessary to configure the position of detrimental Saturn which is ruler of the 10th house of concrete events as promissor, and direct it to the Zodiacal position of significator Mars converse, ruler of the 1st house of the Nation's body:

- since it is an early event in the chart of Cold War we can ignore the static key, so we pay attention only to the Arc of Regiomontanus with the result of 13.013 – or simply

Regiomontanus					
M/Z	Prom	D/C	Sig	Arc	
M	♄	C →	♂	12.15	
Z	♄	C →	♂	13.013	

put, 13 years. From the Iron curtain's radix, the Berlin Wall began after 13 years, 1 month, 2 weeks 6 days (on August 13th 1961).

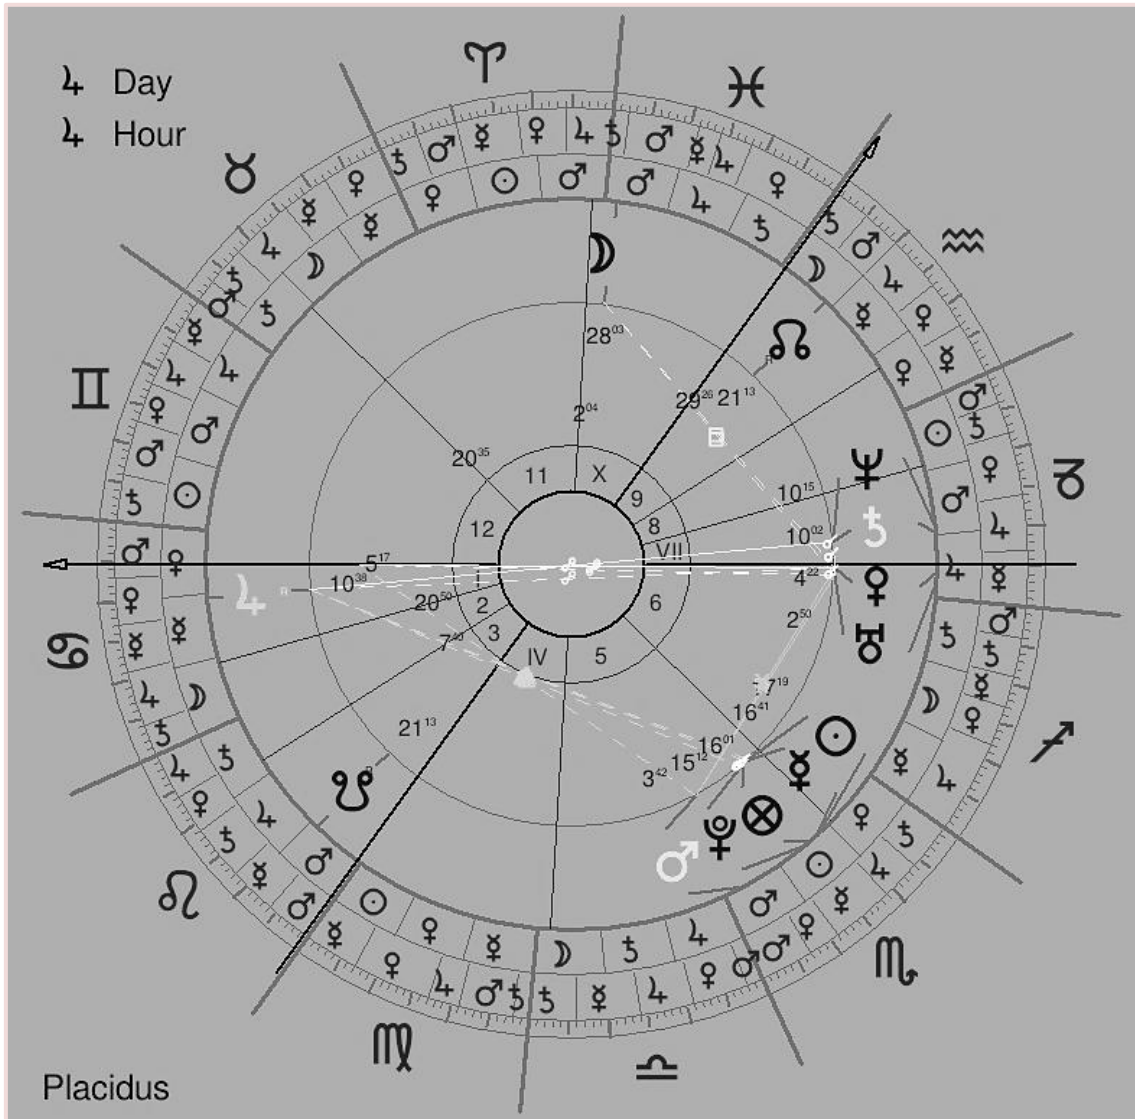

In this case, Mars is the Almudebit of the chart, the victor planet and also the traditional second ruler of the 7<sup>th</sup> house of open enemies because Scorpio is intercepted in there. The construction (Saturn) was to limit off (10<sup>th</sup> house) the enemy (7<sup>th</sup> house) with assertiveness (Mars). It was the period where Mars the cutter was applied a direction from Saturn in the zodiac, intensifying the blockage in all forms and actions of the which they considered the enemy/enemies.

**THE ARC OF THE FALL**  
**OF THE BERLIN WALL**  
FROM THE BERLIN WALL'S RADIX

## THE FALL OF THE BERLIN WALL

It *now* comes the time of the wall to dissolve *under this investigation*– as the Berlin was erected overnight, so was its fall – Rupture oriented Uranus was also very involved and it was also transiting Capricorn [foundation of what blocks]:

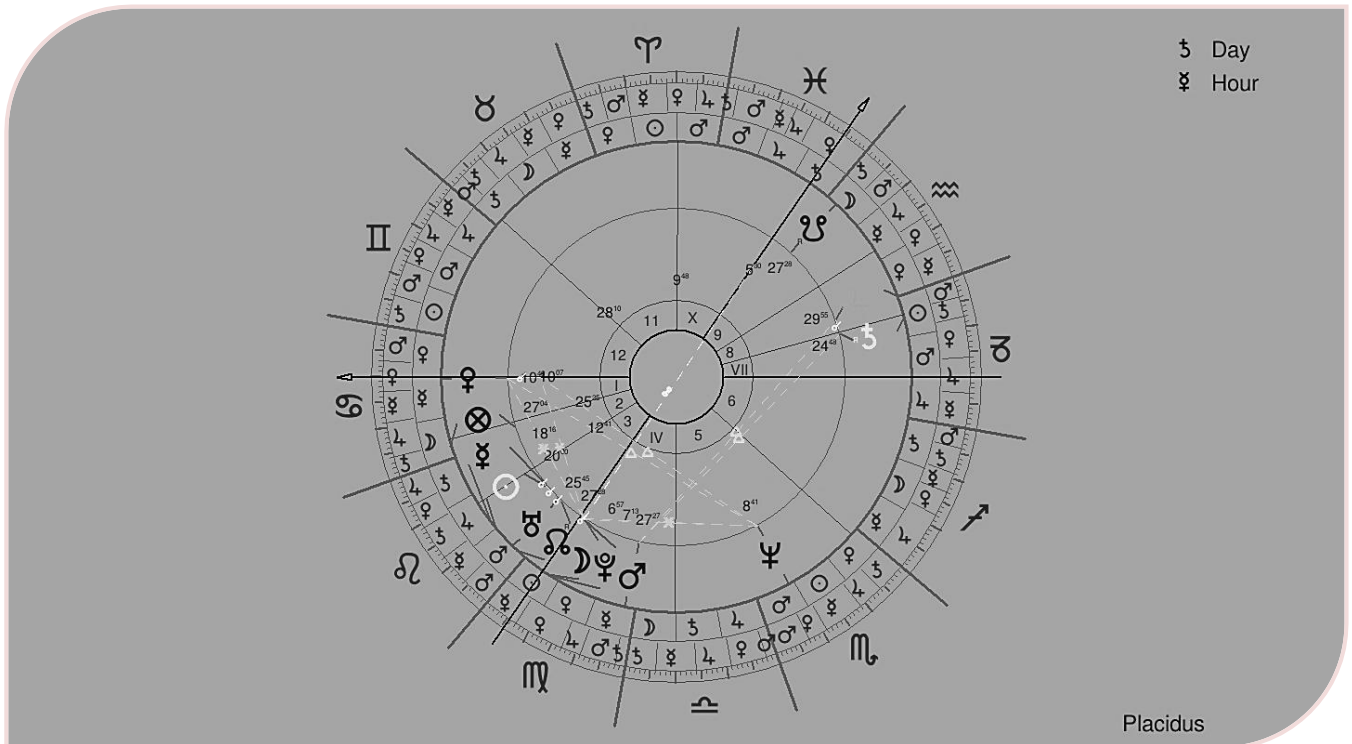

Fall of the Berlin Wall– November 9<sup>th</sup>; 1989 at 06:57pm (Berlin; Germany)

The event was the Berlin wall's *Saturn Return* in Capricorn (*as opposed to the day which it began being erected on August 13th, 1961 at 01:10:50am*) which mostly gave significance to the event as it was known, and the planet was conjunct planet Neptune by 0° orb, the planet that dissolves that what is bodily and tangible, the planet of dreams and ideals settling across the world. Observe one specific detail in the chart, the day was of Jupiter so was the hour. Both Saturn and Neptune were in bounds with the greater benefic Jupiter, the planet of expansion and good luck.

## THE ARC OF THE FALL OF THE BERLIN WALL

It was also the beginning of the *synodic cycle* of the *Saturn-Neptune conjunction* in the sign of earthy Capricorn—within its operation, it comes the period of the culmination or apex of old dreams and ideals that shall come undone while other kinds are emerged simultaneously. Jupiter rising on the East was exactly opposite to the Saturn-Neptune conjunction by 0° orb indicating that, all the existential/material dissolution from the East dictators happened that night. Observe the chart, again:

**Berlin Wall Construction: August 13th, 1961 at 01:10:50am [Berlin – Germany]**

By the methods of Bonatti and Ptolemy I discovered the Sun is actually the Hyleg of the Chart of the *Berlin Wall construction* while Saturn was the Anaereta planet by opposition to it— by directing the killer planet to the planet of most vitality in the radix above, we discover the death of the event itself. Saturn in the mundane chart is in terms with itself and conjunct Neptune, the malefic planet that dissolves:

Placidus(semiarc) Static Key: Naibod					
M/Z	Prom	D/C	Sig	Arc	Date
Z	♄ ♄	C →	○	27.838	1989.11.09

**- by directing the Anaereta planet Saturn and its opposition to Hyleg Sun converse, utilizing the Placidus semi arc method and key of Naibod we obtain the exact date of the fall of the Berlin Wall – November 9<sup>th</sup> 1989.**

Saturn in the chart of *the beginning of the Berlin wall* is ruler of the 8<sup>th</sup> house of attack from the enemy; it was time of Berliners to kill what poisoned their vitality.

Over 2 million abortions took place per year soon after WWII in Germany while 200.000 thousand more were born from rapes, especially in the Soviet occupied; and of course, venereal diseases were also very concerning. After the fall of the soviets, there were counted 227 deaths *wall-related*. Among the statistics, there were assassinations by the *Stasi*; the fires by anti-communists activists against the communists and vice versa; many young people and civilians trying to escape the east; old ones dying from heart attacks triggered by interrogations, etc.

The year next, the Germany currency became one again, thus the Weimar Republic had its rest afterwards with a new Republic formed.

# **THE ARC OF CONCLUSION**

## FROM THE WWII CHART

# THE CONSLUVIE ARC OF THE FALL OF THE COMMUNISTS IN GERMANY OCCUPIED AT THE END OF THE 80'S *FROM THE WWII RADIX*

If the 2<sup>nd</sup> world war was the continuation of the 1<sup>st</sup> world war, the barbed Wall was the last official attempt to dictate Germany by communism and socialism with the intent to advance the ideals into a new world order. Having this in mind, I thought of finding the length of the 2<sup>nd</sup> war until the fall of the Berlin Wall from its radix, which had characterized the event as the final phase of the whole world war integrated.

Thus, why not investigate an Arc that indeed could confirm the fall of all at once? Even when September 1945 marked the end of WWII, it was as if the *chart went into coma* with the silent *Cold War* that followed it and actually died 50 years after WWII beginning:

**– by Placidus method of semi-arc direction and the Zodiacal positions of the planets, Anaereta Pluto to the direction of Venus converse, gives us the date of February of 1989, the year of the Fall and the month where thousands and thousands of East Germans started moving out to Hungary and other parts –pacification and concord little by little were being recovered.**

Venus is the planet of peace and harmony, thus the pacification since is the single planet that promotes repose of battles, and not even Jupiter due to its benevolent nature and the opportunities from both sides involved but increases the changes of it while in aspect as it expands it as well, while Pluto is the planet of regeneration but destruction at first. The Sun provides energy and life, giving a boost for regeneration of Pluto's force. The Sun and Venus are conjunction in the mundane chart and Venus is combust. In addition to the Arc:

If there were to have Hyleg and Alcocoden in the chart of WWII, the Sun would be the Hyleg because the Moon can't in the 8<sup>th</sup> house, but the Sun rising on the 1<sup>st</sup> house is powerful after the Moon isn't able to perform the role in the nocturnal chart which she is ruler of Sect.

**All or nothing Pluto in the chart is ruler of the 4<sup>th</sup> house of end of matters, while the Sun is the ruler of the 1<sup>st</sup> house of physical finish and Venus ruler of the 10<sup>th</sup> house of retirement.**

This was the last Arc that concluded once and for all the 1<sup>st</sup> and 2<sup>nd</sup> world wars followed by the fall of the Berlin Wall:

Placidus(semiarc)		Static Key: Naibod		
M/Z	Prom	D/C	Sig	Arc
Z	☿ ♀	D →	☉	33.833
Z	♀	C →	☉	50.159
Z	☐ ♀	D →	☉	75.75

- If we want to be more \*precise with the length of time, we direct Anaereta Pluto to the position of the Hyleg Sun converse (thus more puissant) obtaining the Arc of 50.159 - the length from the beginning of the 2<sup>nd</sup> world war to the fall of the Berlin Wall was 50y; 1w; 2d.

*\*The right data of the 'Fall of the Berlin Wall' is then given in the Arc from radix of the Beginning of the Wall construction as I investigated on 'Part II'*

### Jupiter-Saturn Cycle & the Berlin Wall

*“Those that have Saturn opposite Jupiter  
will never enjoy peace...” William Lilly*

Each 20 years, Jupiter will meet Saturn in a conjunction. In general, each twenty years there is a new social cycle that is to establish inclinations and what will be popular in the ears and eyes of all. The popularization/viralization may be according to Jupiter of course, and Saturn dictates the direction of the social-bias as it is formed and crystallized into concrete events. It is the contact that each twenty years gives the collective an opportunity to re-integrate, re-establish and re-organize what had been lost or *wrong* for the last 20 years past. Two decades marks a whole generation that dreams, hopes and wishes for a better future. How one should interpret it is up to the person and his /her natures and political side. When the Berlin wall began being erected, Jupiter was at critical degrees Capricorn and conjunct Saturn. The division was done and there was nothing they could do for the next whole journey of Saturn through the signs of the Zodiac, then when Saturn returned to the chart of the Berlin wall, and at the same time conjunct Neptune in Capricorn, the walls that hold back were put down when Jupiter in Cancer opposed Saturn by 0° orbs. It was the opposition phase of Jupiter-Saturn in the skies, which also occurs each two decades. The opposition of Jupiter to Saturn in Capricorn expresses itself as a culmination of social stress, if Uranus is involved which was, an upheaval shall take place, so it had. The Saturn-Neptune conjunction signified something would be lost into the void, it did.

## PRIMARY DIRECTIONS EVENTUS

### The Angles – *The Cross of Destiny*

Directions to the angles were of importance especially for the major events correlated to the 10<sup>th</sup> house; those that were crucial to the nations' fate and situations of authorities in place. The 4<sup>th</sup> house directions were applied when it was about to start or end as situation on lands and territories – it was directions of the planets culminating or anti-culminating. In *part I*, I didn't direct any planet to the 1<sup>st</sup> house, but instead directed the ruler or term to other places of the radix, and there was also a direction where it was taken *Asc to Mc*, where it was important to discover the

native's apex in life at old age. In *part II*, there were 4 (four) cases of directions to angles, and 3 (three) of them featured the Mc, in both rise of power and last phase of it, alternating the native's destiny for good.

### The Mundane method and the Angles + Zodiacal Direction to Angles

The PD *in mundo* or out *in the world* (the *mundane directions*), is where it is directed the actual body of planets as observed from the skies. Such method came to be practiced exclusively in the 15<sup>th</sup> century.

From all the 25 Arcs here investigated, 19 were calculated in *the Zodiac*, while 6 were *in Mundo*. Author Martin Gansten adds by his experience the fact he noticed the *mundane conjunction with the angles, are the most effective*. However, under the investigation of the astrology of warfare, a table (below) of all the mundane directions in this work, the Zodiacal directions to angles revealed to be as relevant. Martin explains that the Zodiacal method also has its expression crystal clear, but since he utilizes others house systems and the sidereal Zodiac in his works of astrology, he may as well have the results tantamount to his methodologies concurrently applied. Observe the table below where Arcs were calculated *in Mundo*:

EVENT AND ARC/DATE OF	METHOD	DIRECTION	OBSERVATION
The Putsch	Mundane	☉ converse → ♀	-
Beginning of WWII	Mundane	♃ converse → ☉ ♀	From all the <i>mundane directions</i> applied in the work, this event was the only time where 2 malefics were involved!
URSS under Attack	Mundane	♃ converse → △ ♀	-
End of WWII	Mundane	♀ direct → □ ♃	-
1 <sup>st</sup> sign of Walter to power	Mundane	♃ converse → ☉	-
1 <sup>st</sup> Airlift	Mundane	♃ direct → □ ♃	-

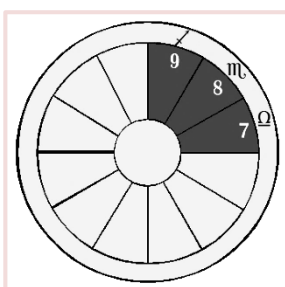

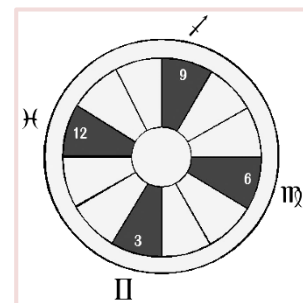

EVENT AND ARC/DATE OF	METHOD	DIRECTION	OBSERVATION
Walter comes back to Homeland	Zodiacal	ASC <sup>converse</sup> → MC	The Apogee (apex) of life(ASC – MC/IC)
Marshall Plan	Zodiacal	♃ ♀ <sup>converse</sup> → ASC	Pluto is directed to the Dsc, the point where is more related to other people than our own
BarberWire Sunday	Zodiacal	☾ <sup>converse</sup> → MC	The Moon erects, and when culminated it, she reaches to the above meridian circle (Mc/IC) thus dividing horizon's circle of east and west
Last phase of success for Walter	Zodiacal	♃ <sup>direct</sup> → MC	There is also the direction in the mundane, but the date given is a year ahead. It is questionable

All the directions to the angles from the Zodiacal method appeared in *part II*. The *in the Zodiac* method was the most used since its usage in ancient astrology. The results here cannot be used as reference to all types of events, they are specially taken from the astrology of warfare, and that is, in relevant periods of war, and for such case, the direction to angles seemed more appropriate under the *Zodiacal* method rather than the *Mundane*. However, such approach slightly changes if the direction is rather *direct* or *converse*.

### The 6<sup>th</sup>/12<sup>th</sup> & 3<sup>rd</sup>/9<sup>th</sup> axis – *The Cross of Sacred Fanaticism*

- “Only the fanatical masses are able to be guided through.” – Hitler

Whatever the 10<sup>th</sup> house or 1<sup>st</sup> house didn't show, the mutable cross did. Somehow the investigation of the astrology of wars shows the result of the 12<sup>th</sup> house as being a great house for directions from the radix – It is the house of secret enemies. For example, the direction established from the Pluto's discovery chart to discover the Arc of the WWII begin, the axis showed to be important; the 6<sup>th</sup> house however is the physical army, the soldiers, the ones ready to serve. This particular cross in astrology is the cross of adaptation and shaping new models through old ones, reviewing and finishing, the alteration of destiny through high ideals and service to others – this is the *cross of conformity* but also of *volatility*.

### The 3<sup>rd</sup> Quadrant & Attacks and Invasions from Enemies

Most of the investigation led the 3<sup>rd</sup> quadrant in the Zodiac to be complete influential over the nation also by the transits of generational planets such as Pluto. Mostly all the charts of the 4 powers and the attacks from either Hitler or his axis of evil,

the 7<sup>th</sup> house of open enemies and 8<sup>th</sup> house of duels have rulers to be mainly involved in the correspondence of directing planets be it in Solar Returns, mundane or genethliacal. These rulers were the mainly planets in order to study the exactness of day or periods of the attacks or invasions (or both) from both parties.

### **Almuten of the Figure & Victor – The Winners**

The *Almudebit* of the chart is the planet candidate that has the most dignity in the radix in reference to a list of points and categories where it is scored down the totality of a planet's nobleness while comparing the scores to all others, thus being qualified to be the *Almuten of the figure (al-mubtazz)*. The method is all about winning in selecting the planet for the victor's role. In this case, it is counted on their position in the zodiac wheel (angularity of planets), triplicities, rulers, etc. also, the bounds of planets are considered in the calculations, as well as new or full moon prior birth (known as the *proceeding syzygy*). Some authors, or in some cases utilizes the *Almudebit* instead of *Alcocoden* in order to evince the *governor of the nativity*.

In all cases of the 4 major attacks toward the 4 world powers investigated, the *Almudebit*, its cosignificator or term ruler were applied the transiting mundane conjunction of Saturn-Uranus in Taurus by square. For example: the attacks on France and UK, the *Almudebit* was strongly affected by malefics, while the charts of URSS and USA the *victor* of the chart seemed to be protected from and safe from malefics, but not theirs cosignificators or term rulers. I realized the stronger the hit (over the *Almudebit*) the less were the chances of winning of the attacked part, which was the case of France and UK.

### **Lengths – Direct & Converse**

From all the 25 *Arcs* here presented, 15 are/were *converse* and covered the events most significant in the investigation while 10 were of *direct* direction. The *converse direction* in my research had proven to be the most powerful type of direction. Such type of direction seems more puissant and sharper than those of direct, nonetheless the direct directions correlates to important events but not as wedged than it does backwards in the astrology of warfare, where things are usually inverted, reversed, upside down, put in backwards motion, retrograde ideals etc.

### **Retrograde Planets & Late Arcs (after the event took place)**

Below, a list of major events here analyzed which primary directions were calculated when either *Promissor* or *Significator* planets were retrograde (M). Although the majority of the *Arcs* even with retrograde planets were exact, there were some with some discrepancy, and that would be of late *Arcs*, that is, after the event took place. The URSS' case however, was the direction which *Arc* was prior (a day) the event.

EVENT/ARC OF – RADIX	PLANET RETRO & ELEMENT   TYPE & MOTION	DISCREPANCY
WWII; Start – Pluto’s Discovery 1930	Pluto Retro as Significator   <i>in Mundo - Converse</i>	Late/Exact Arc
France under attack; SR 1939 – France 1870	Saturn Retro as Significator   <i>in Zodiaco - Direct</i>	Exact Arc
URSS under attack; SR 1940 (2 Arcs) – URSS 1922	Saturn Retro as Significator   <i>in Zodiaco - Converse</i> Neptune Retro as Significator   <i>in Mundo - Converse</i>	Anticipated Arc Exact Arc
USA under attack; SR 1941 – USA 1776	Mercury Retro as Promissor   <i>in Zodiaco - Direct</i>	Exact Arc
Hitler introduction to the world – Hitler 1889	Venus Retro as Promissor   <i>in Zodiaco - Converse</i>	Late Arc
Hitler’s suicide; SR 1945 – Hitler 1889	Mercury Retro as Significator   <i>in Zodiaco - Direct</i>	Exact Arc
WWII; End – WWII, Start 1939	Jupiter Retro as Significator   <i>in Mundo - Direct</i>	Late/Exact Arc
Berlin Wall; Fall – Berlin Wall; Start	Saturn Retro as Promissor   <i>in Zodiaco - Converse</i>	Exact Arc

The retrograde planets in directions can influence in the *exactness* of correspondence for a difference of a day or sometimes to a month when applied from the radix or *Solar Returns*, but not much disappointing, in many cases if adjusted or rectifying in real time the minutes, *a month* would easily be anticipated, exact or late for the Arcs calculated, the same for days when rectifying seconds of the radix.

Although no Arc was calculated from the day when the atomic bomb was dropped, the chart of Hiroshima’s Bomb is the only Radix which there wasn’t a single planet retrograde, as if *the all* called for green lights in order to pass it through and cease fights.

### Arcs from Weimar Republic Radix

The Weimar Republic holds 2 important Arcs and dates from its Radix, and they are quite a lot from a chart of *3<sup>rd</sup> Differentia* type (no life after 12 years from its birth). This was a steep learning curve experience for me. Those directions were: The *Marshall Plan* and of course, the *Barbed Wire Sunday* (Berlin Wall’s introduction). The first event took place in the *Saturn return* after 29 years from the birth, while the Berlin Wall happened 43 years later.

### Sub-Arcs & Arcs of Conclusion

What I had come to face it as well, were the second Arcs that confirmed major Arc from other Radix. The investigation validates the fact the astrology is able to find in more than one radix the future existence of an event prior to two or even more charts specifically.

### Latitudes of the Planets – *Cum Latitudine*

Below, a list of all the events investigated which primary directions were calculated in the *Zodiac with Latitude* [not the same as directions 'in Mundo']. Interesting to note that all directions which had Mercury involved, it was necessary to count on the latitude at least of promissor planet:

DIRECTION OF EVENTS WITH PLANETARY LATITUDE	ELEMENTS OF DIRECTION WITH LATITUDE	PLANET(S)& LATITUDE
2 <sup>nd</sup> Arc of URSS under attack (SR 1940)	<i>Promissor and Significator</i>	♃ = -1°05' → ♃ = 1°15'
USA under attack (SR 1941)	<i>Promissor</i>	♃ = -4°46' (OPPOSITE) → ♃ = 1°30'
Hitler if forbidden to speak in public & Mein Kampf is published	<i>Promissor and Significator</i>	♃ = 1°09' (OPPOSITE) → ♃ = 0°45'
First step of Nazi towards world recognition	<i>Promissor</i>	♃ = 6°20' → <u>LoF</u>

As explained in *report #1*, planets vary in latitudes except the Sun which is always at 0° degree. Many astrologers after Dorotheus wouldn't share the idea that differences could cause interference whenever the latitude is either too southerly and the other too northerly and many followed the conviction. Dorotheus on the other hand, judged by the fact that when the Hyleg meets a malefic by square or opposition in remote latitude, it won't basically kill but danger shall be eminent. It happened a similar situation in the *Arc of the end of WWII* from the *start of WWII's* radix, where Pluto is directed to the square of Jupiter, and although I didn't set the planets latitudes for the direction and neither Jupiter was the Hyleg but the Almudebit, it matters knowing Jupiter latitude is of -1°34' and Pluto latitude of 3°30' – mirroring the idea of when WWII ended by the book, it went into some kind of *cosmic coma* and the *machines* were turned off only with the *fall of the Berlin Wall* where Saturn is exactly on the ecliptic and is directed to the Hylegical Sun. Notice as well, all or nothing planet Pluto is involved in the directions of the *end of WWII* and the *Arc of the fall of communists in Germany*. Such detail however, shall not change the length of the WWII (Arc discovered from the *beginning of WWII's* radix) as told by historians and astrologers, which was when Hitler invaded and attacked Poland and the end being symbolized by the atomic devastation over Hiroshima and Nagasaki followed by Japan's redemption.

### Primary Directions and Planetary References

Saturn is the planet where our ancestors associated with *Time*, or – “*the father of time*”; I could affirm with certainty that the technique of *Primary Directions* has a very Saturnian/Saturn nature [things are or aren't]. It is classic, vintage and old school, and it can predict periods followed by events in exactness [not always though] that would never be possible by others methods and techniques alone, that is, the indications promised and what is really significant in the root. Saturn is the lord of time and ancient ruler (modern astrology is the *co-ruler*) of astrology, thus the mastering of

chronology, timing of events and periods. Roman Cicero in *De deorum natura, II* (On the nature of Gods) wrote that “*Saturn was chosen as the one to have bailiwick the intervals and cycles of time. In Greek such god is called upon by the very word ‘time’, since Kronos is the same as Chronos (time). We call him Saturnus because he saturates himself with years.*” However, the technique itself provides a linear approach to everything instead of a cyclic release, where transits, revolutions and lunations do. It has a beginning but it also has an end, it is a technique that won’t allow flexibility when reading/interpreting, although it is quite a versatile technique technically speaking. The technique has a savage, wild and primeval touch that is roughly acknowledged; once you know death can be read in a chart, from radices of many kinds and also by transiting planets, you are left with nothing but to accept mortality of the flesh, or for the matter, the end of an event. For the astrologer reading, I may say that sometimes direction planets may feel like as personal symbolism of playing with fire yet earth-grounded.

### **DEATH OF POWER COUNTRIES FOLLOWED BY RESURRECTION – USA & UK**

URSS and France had already met their destiny in the past. URSS has a new mundane chart when 1991 came to Russia; while France had changed direction in 1958, also providing with a fresh mundane chart to work from, instead of the chart prior to the year of death and resurrection as investigated in this whole material. However, the deaths of *UK 1801* and *USA 1776* as we well known are set for the XIII century.

### **Hyleg & the Alcoccoden of the chart – Length of life of USA 1776**

At the day of the attack, it was the 165<sup>th</sup> year of USA since the year of its birth in 1776. The *Alcoccoden* of the chart is either Saturn or Mercury, the bounds of the Moon and the Sun respectively – the planets that could be Hyleg of USA. My guess is, the Alcoccoden of USA is Mercury because then Hyleg Sun is in wide conjunction to it [they are never more than 28 degrees apart], while the Moon is not in aspect with Saturn (its term-ruler). You will realize ahead, that Mercury played an important role in primary directions in order to find the day of the attack on Pearl Harbor. In traditional astrology, the Alcoccoden is the *governor of the nativity*, or the *giver of forms*, it is also the correspondent of *quality of life*:

- *USA’s death followed by resurrection in the year of 2237*

If my calculations are right, if Mercury is indeed the Alcoccoden of the chart, then the chart of USA set for 1776, shall last for 461 years – according to the table of planetary years, Mercury greatest years consist in 461 years from the beginning of the birth of the nation or event. This is generalized and USA of 1776 could last until the year of 2237. If a WWII happens until then, I assume under such perspective that USA won’t be a loser anyhow. Not now, not even in the 22<sup>nd</sup> century.

### **Hyleg & the Alcoccoden of the chart – Length of life of UK 1801**

At the day of the attack, it was the 139<sup>th</sup> year of United Kingdom since the year of its birth in 1801. The Hyleg of the UK is definitely the Moon which is in the sign it rules, Cancer, but the planet it within terms of Jupiter, thus becoming the Alcoccoden of the chart. In traditional astrology, the Alcoccoden corresponds to the *quality of life* and is assigned the years and length of life of an individual or nation:

- *United Kingdom's death followed by resurrection in the year of 2227*

If my calculations are right, if Jupiter is indeed the Alcoccoden of the chart, then the chart of UK set for 1801, shall last for 426 years – according to the table of planetary years, Jupiter greatest years consist in 426 years from the beginning of the birth of the nation or event. This is generalized and UK of 1801 could last until the year of 2227. If a WWIII happens until then, I assume under such perspective that UK won't be a loser anyhow. Note that it the date is exactly a date early of that predicted for the USA. Not now, not even in the 22<sup>nd</sup> century.

## CONCLUSION

After I was done with the paper, I felt a void. *What should I feel? How could I've interpreted in words such strong and bold statements from the universe, what it seems like, some sort of a cosmological transcript?* I found myself making frightening questions. *Are there more wars ahead of equal or higher magnitude that was the horror WWII? When shall it happen?* My mind was stormed by many questions and not easy to be forgotten, especially for someone who believes in karma & *reflected* actions, other lives or reincarnations in other skins and the whole evolutionary journey of the soul idea. My mind had to put the pieces of the puzzle together in order to present an integrated work of the cosmic clock translated by human's intellect and intuition. Sometimes it was hard not to think life on Earth is an experiment – *The void suddenly disappeared*. I tend think about mortality a lot.

The Earth is the ship where humans navigate their bodies in an aquarium of souls, swimming in and on in the wheel of the organic life. Humans are here to feel and to experience. To experience life and all it comes with it. The geographical location one is born defines for the rest of life what one is in terms of nationality, which will limit or expand opportunities (one can have dual citizenship for example; eliminate one; buy one; own one by right; etc.), and for dictators, these facts will be preliminary sources of terror. The person is already socially labeled since birth, carrying on the genetics of the parents (skin, eyes and hair colors and inherent diseases) and their status plus the country's status before the world. Citizens are unconsciously tagged by other countries and by the country itself, which have rules, a justice system and a government. I *feel* that *free will* is limited to many, while a few in the world have it in a certain period or most part of their lives. To imagine a perfect life, is to imagine dreams coming true mixed with abundant phases of happiness and exaltation of all things, people and ideas, and of course, a whole healthy life and perhaps even morality? When we talk about perfection, we are trading with the mutable energy, the mutable cross of life, that in the Zodiac is indicated by the 3<sup>rd</sup>/9<sup>th</sup> axis crossing the 6<sup>th</sup>/12<sup>th</sup> houses; the things in life that are relative, things that can actually feel perfect but are actually shaped according to one's life's view at the intellectual level and spiritual pursuit followed by health status and critical observations: *what is perfect? What could be (more) perfect?* The answers varies in different periods of life – In this cross, humans cross barriers with the unknown but at the same time contained in what is known and understood by the book, always re-writing the old (adapting) and recycling anew.

When someone of power steps up in the world as a villain of mankind, the Pandora's Box is opened up and the globe is simple forced to deal with what comes from inside – the dark creates abundance of it by the installation of fear, terror, panic, creating dreadful situations, unbearable pain and suffer, with threats, violence, torture, war

and in the end, genocide. These are words and all energies and expressions of Mars, Saturn and Pluto, which I called "*the Rogue Trinity*" in my book *Saturn*, where the three together unleash a vicious circle of terror and that can ended up being of gratuitous and *legal* violence – a purge. These are the planets which people and their evilness is tested to the guts, a set of three planets that operates via evil/harming position. As in all branches of astrology, there are polarities in terms of planetary energy expressed, and Mars, Saturn and Pluto [& Uranus for the matter] thus offer a positive form of energy as well, but their latent power resides over the black & white aspects of life. When a nation is under pressure of those planets altogether, a war is latent, or at least, destruction of some kind shall be present. For example, when the WWII started, Mars was in wide opposition to Pluto and both planets were square Saturn in Taurus; Hitler somehow (intuitively) knew such period would literally create a gate to hell.

The *Second World War* event exhibits Saturn's myth to a high level degree concertedly with that of Hades, the rapist god of the underworld associated with Pluto; it exposed the ridiculousness of power over the world but over specific groups of nations and the eradication of wholesome and amiability, mixed with irrational obsessions, leading a single nation to the desire of controlling the system by dictatorship in order to rule a new world order by an inverted and negative *Aquarian type* of government. Pluto in entire WWII was in Leo, and its opposite zodiacal sign is Aquarius thus the need Pluto in Leo generation to deeply understand what the Aquarian era concerns about and as result it revolted to what is progressive as *collective brain*. Aquarius age is the unfortunate era of *human traffic* in large scale once the sign is part of the 4 *humane signs* of the Zodiac.

Freud in an exchanged open letter to Einstein wrote that "*the death of the adversary satisfies an instinctual inclination*" – nevertheless, he explains that when the intellect takes over the pure brutality, the mind sub judges instead of the *instant kill*. The killing instinct is primeval and had been kept inherent in humans in order to assist when attacked or needing to put down an enemy; however, there shall not exist excuses for the abuse of authority, genocide and other kinds of atrocities and injustice towards the other. Sigmund teaches Einstein that supposedly there are two kinds of human's instinct, that of *love & hate* and of *attraction & repulse*, or fancily put: the *erotic* and the *destructive instincts*. Einstein answered him back with total agreement. Freud also remembers the great genius that such explanation shall not be synthesized to the polarization of good versus bad, evil or angelic – he insists that the two kinds of powerful instincts shall act integrated to the other, and Einstein agreed with it as well. Sigmund goes on saying "...*there is no perspective of abolishing the aggressive tendencies of the human.*" – adding forward the letter that is not about totally erasing such tendencies, but to redirect/deviate them in order to prevent higher atrocities, and thus make better use of them. Sigmund Freud was lecturing Einstein the fact that

*war or aggressive tendencies* are in human's genes, running through their veins and transferred to the mind, but it has been developed throughout time in such manner so the intellect could take over and dominate it with intelligence and not only instinctually animal.

Darwin, polemic scientist that theorized the natural evolution of the species, believed species compete for survival, and the tendencies of greater use are hereditary; an example would be the domesticated cat that spontaneously puts himself in the hunting position as if it was to attack a rat even if the "rat" was just a pair of new shoes. In the 6<sup>th</sup> version of the *Origin of the Species* Charles claims that some instincts can't be perceived as perfect and "*There isn't yet a proof that any animal executes an act for the exclusive good of other species, however, all makes the effort to take advantage of the instinct of others, and all take advantages of the poorly physical constitution of other species.*" – The scientist adds that a *habitual act* is not the same of *instinctual act*, that is, if an animal executes a habitual good act for the other species, is usually because it was instinctually pulled out in greater good for oneself, yet it may end up helping the other part coincidentally or not. Astrologically, I would point the *guilt* to the Sun [consciousness]; the *ego enforcement* that provides life, energy and will to live, and that is what makes all species unique in their own way. The rest of the game lies on the Zodiac board, the signs and planets, connected through a unique solar system among billions of galaxies.

*How does it come to an end? How does it feel of winning? Was it all worthy?* – Einstein believed that the meaning of peace had turned into some kind of game for survival, citing that the majority of the world countries participate in the fabrication of armaments and less and less in campaigns of world peace. The scientist also wrote that democracy gives the people legitimate power, and for that reason the nation's destiny lies on their own hands. I had my arguments on this work when I wrote about the astrological *cross of perfection*, what is perfect for one may not be for the other, and that complicates for a final resolution for a concrete state of world peace. But I do believe as society we can indeed reach a universal common sense in judicial system and further. In Aquarius Age that will no longer be inspired in religious spirituality [monotheism mainly], but in science, data & statistics, history & technology and what mainly concerns being a human being, owning body [health] and knowledge.

The history of WWII is an easy access of study for many areas and fields of universal knowledge because of the many facts and historical impact it had on the globe, and in astrology that is no different. The study of WWII integrated with astrology made me think that everything is linear on planet Earth, but at the same time and somehow, eternal (cyclical and periodical). *How can one thing end but then be eternal afterwards?* It is known the Sun one day will meet death like the rest of us mortal beings, and one day it will taste of its gelid kiss which will turn the solar system into a

vast cosmic grave. It turns out to be some sort of paradigm. Will it all matter when the Sun dies? Is it too soon for asking? Such questions made me reflect about the self-preservation instinct that humanity carries on since their birth. We are organic matters with organic reasons to keep the species on survival; as I understand from the letter, of Freud to Einstein, the nation's aggressive tendencies can be directed/aimed towards something else than war, yet productive and protective for planet Earth.
